

Oikos International presents a public roundtable discussion:

Meeting the Risk of Climate Change: Management or Prevention?

**Tuesday, January 31
7.15 - 9.00 pm
D602, Clement House**

*How do we assess the risk associated with climate change phenomena?
How does the insurance industry react to the increased risk?
How does London try to prevent worst case scenarios?*

Chair:

Professor Ragnar Norberg, Dept. of Statistics, LSE.

Panellists:

Trevor Maynard (Lloyd's),
Dr. Dag Lohmann (Risk Management Solutions),
Edward Evans (foresite flood and coastal defence project)
Matthew Chell (the Greater London Authority),
Prof. Leonard Smith (Statistics, LSE/Oxford).

We are looking forward to an insightful, student driven discussion about one of the main challenges we will face in the coming decades!
