

Green Growth and the New Industrial Revolution

Thursday 26 March 2015

Venue: Royal Society of Arts,
8 John Adam Street, London, WC2N 6EZ, United Kingdom

This conference will present the key results from a two year research programme conducted by the Grantham Research Institute on Climate Change and the Environment at the LSE and supported by the Global Green Growth Institute. Its aim was to understand better the links between environmental protection, growth and development, and to strengthen the analytical and empirical underpinnings of the 'green growth' concept in relation to both developing and developed countries.

Chairs: Prof. Dame Judith Rees and Prof. Sam Fankhauser, Grantham Research Institute, LSE
