

Emissions

Country-reported GHG emissions (incl. LULUCF) (MTCO₂): 492.95 (reporting year: 2000)

Country-reported GHG emissions (excl. LULUCF) (MTCO₂): 483.67 (reporting year: 2000)

Information

GHG inventory: 2000 (Second National Communication 2011)

Climate risk assessment: 2nd National Communication to the UNFCCC (2011)

Targets

Economy wide targets - Up to (and including) 2020
None

Economy-wide targets - Beyond 2020
30% GHG emission reduction by 2025 in comparison with BAU (34% with international technical/financial assistance)

Source:

- 2nd Communication to the UNFCCC (2010)
- [National Rules of Procedure for Implementation of the UNFCCC and the Kyoto Protocol, \(2009\)](#)

Targets - Energy demand

Increase the energy efficiency of end-use sectors (demand side) by 2% per year until 2025

Source:

- 2nd Communication to the UNFCCC (2010)
 - [National Rules of Procedure for Implementation of the UNFCCC and the Kyoto Protocol, \(2009\)](#)
-

Targets - LULUCF

Reduce illegal forest harvesting and land use change by 20% per year, decrease wood harvesting by 10% per year and reduce GHG emissions by 20% through reforestation and forest rehabilitation

Source:

- 2nd Communication to the UNFCCC (2010)
 - [National Rules of Procedure for Implementation of the UNFCCC and the Kyoto Protocol, \(2009\)](#)
-

Targets - Renewables

Install 5GW of renewable energy capacity by 2015

Source:

- [Fifth Five-Year National Development Plan – FYDP \(2010-2015\), \(2009\)](#)
-

Targets- Transport

Increasing the share of compressed natural gas from 2.5% in 2007 to 25% in 2025, at the rate of 1.25% per year

Source:

- 2nd Communication to the UNFCCC (2010)
 - [National Rules of Procedure for Implementation of the UNFCCC and the Kyoto Protocol, \(2009\)](#)
-

Policies

GHG Mitigation framework

National Rules of Procedure for Implementation of the UNFCCC and the Kyoto Protocol (2009)

Source:

- [National Rules of Procedure for Implementation of the UNFCCC and the Kyoto Protocol, \(2009\)](#)

Adaptation framework

None

Policies - Carbon pricing

None

Policies - Promotion of low-carbon energy (inc. renewables)

Create an infrastructure for wind farms and solar manufacturing equipment

Source:

- [Fifth Five-Year National Development Plan – FYDP \(2010-2015\), \(2009\)](#)
-

Policies - Energy demand

Criteria and standards for energy consumption in processes and equipment for buildings and urban planning, industry, agriculture, transportation, energy generators and distributors

Source:

- [Law on Altering Energy Consumption Patterns, \(2011\)](#)
-

Policies - Transport

Establish a comprehensive transportation system taking into account reduction of energy intensity and pollution.

Source:

- General policies decreed by the Supreme Leader on Transportation Sector, 22 January 2011
-

Policies - LULUCF

Modify the patterns of exploitation of forests, rangelands, water and soil
