

Emissions

Country-reported GHG emissions (incl. LULUCF) (MTCO₂):

-6.53 (reporting year: 1994)

Country-reported GHG emissions (excl. LULUCF) (MTCO₂):

21.47 (reporting year: 1994)

Information

GHG inventory:

1994 (Initial National Communication 2002)

Climate risk assessment:

National Climate Change Response Strategy (2010)

Targets

Economy wide targets - Up to (and including) 2020

None

Economy-wide targets - Beyond 2020

None

Targets - Energy demand

None

Targets - LULUCF

Increase and maintain forest and tree cover to at least 10% of total land area

Source:

- Forest Policy (2014)

Targets - Renewables

Increase biodiesel blend to 5% for all diesel vehicles and to 100% in all isolated power generation plants, install at least 5,000 bio digesters by 2017, 6,500 by 2022 and 10,000 by 2030

Policies - Carbon pricing

None

Policies - Promotion of low-carbon energy (inc. renewables)

Government mandated to promote the development and use of renewable energy, including biodiesel, bioethanol, biomass, solar, wind, hydro power, biogas, charcoal, fuel-wood, tidal, wave, municipal waste; Creation of an Energy Regulatory Commission (ERC), to be in charge the production, distribution, supply and use of renewable energy

Source:

- [Energy Act 2006, Parts of which is executed by the Energy Management Regulations 2012, \(2007\)](#)

Policies - Energy demand

Commission to carry out energy consumption rating for all facilities; mandates owner occupier of large facilities to appoint an energy officer and develop an energy management policy that outlines measures of efficiency and conservation; mandates submission of energy audit reports; develop an energy investment plan and demonstrate its implementation in a phased manner
