

Emissions

Rank as emitter (including LULUCF):

Country-reported GHG emissions (incl. LULUCF) (MTCO₂):

711.65 (reporting year: 2006)

Country-reported GHG emissions (excl. LULUCF) (MTCO₂):

641.45 (reporting year: 2006)

Information

GHG inventory:

1990-2010 (Fifth National Communication 2012)

Climate risk assessment:

5th National Communication to the UNFCCC (2012)

Targets

Economy wide targets - Up to (and including) 2020

Reduce emissions by 30% by 2020 compared to business-as-usual

Source:

- [General Law on Climate Change, \(2012\)](#)

Economy-wide targets - Beyond 2020

Reduce emissions by 50% by 2050, from 2000 levels

Source:

- [General Law on Climate Change, \(2012\)](#)

Targets - Energy demand

Limit energy intensity to 2012 levels; Apply energy efficiency regulation to at least 51% of national energy consumption: Establish at least 24 State Energy Commissions; Increase by 10% the number of professionals competent in energy efficiency technologies or technical capabilities (compared to 2012); Increase by 3% the number of persons informed on benefits of energy efficiency measures (compared to 2012); Increase by 5% the amount of finance allocated to energy efficiency projects (baseline 2012)

Source:

- National Programme for Sustainable Use of Energy 2014-2018 (2014)
- [Law for Sustainable Energy Use \(LASE\), \(2008\)](#)

Targets - LULUCF

Ensure that: 58.7% of forest resources are harvested sustainably by 2018; 94% of forest areas certified under “good forest management practice” by 2018; at least 10.2% of forest area is included in the ‘payment for ecosystem services’ scheme; at least 5.45% forest areas are restored by 2018 (out of the areas designated for restoration); Reduce the annual net deforestation rate by 18% over 2010-2015; 0% of wood sold on illegal markets in 2018 (proxy indicator); 8.75Mt of avoided CO₂e emissions from deforestation and forest degradation by 2018; Increase by 30% between 2012 and 2018 the number of credits allocated for forestry development and conservation programmes by the Development Bank of Mexico

- National Forestry Programme 2014-2018 (2014)
- [General Law for Sustainable Forest Development, \(2003\)](#)

Targets - Renewables

Increase share of renewables in electricity mix to 35% by 2024; Increase share of renewable/clean electricity generation capacity to 34.6% in 2018 and at least 25% share of renewables in gross electricity consumption by 2018.

- [General Law on Climate Change, \(2012\)](#)
-

Adaptation framework

General Law on Climate Change (2012)

Source:

- [General Law on Climate Change, \(2012\)](#)
-

Policies - Carbon pricing

Carbon tax on fossil fuels starting 2014; Cap-and-trade system subsidies for electricity and water to be gradually removed; Voluntary emissions trading scheme (MEXICO2, launched in November 2013)

Source:

- [General Law on Climate Change, \(2012\)](#)
 - [Special Tax Law on Production and Services \(carbon tax\), \(1980\)](#)
-

Policies - Promotion of low-carbon energy (inc. renewables)

Net metering, self-supply and small-scale producer schemes (up to 0.5MW); Clean energy certification; Accelerated depreciation for investment in renewable energy; Renewable energy fund

Source:

- [Law for the Use of Renewable Energies and Financing the Energy Transition \(LAERFTE\), \(2008\)](#)
- Special Programme on the Use of Renewable Energy (2014-2018)
- Law on the Electricity Industry (2014)

Policies - Energy demand

Energy efficiency standards (appliances); Support to efficient municipal lighting; Support for energy savings in companies
