## Paper Submission Guidelines

The 'Paper Submission' refers to the full and final Paper which is to be submitted in advance of the Symposium. This should be a minimum of 2000 words and a maximum of 2500 words long and must be submitted in PDF format. The word count does not include bibliography, diagrams and tables - these are in addition to the maximum. The first page must include the title, author's name, affiliation and an abstract (a maximum of 150 words).

**Fonts:** Times New Roman, size 12; single line spacing.

**Section Titles:** Times New Roman, size 12, Bold, two spaces above, one below; no title is alone on a page; some text must exist beneath it.

**Subtitles:** Times New Roman, size 12, Italics; one space above, one below.

**Bibliography instructions\*:** References or citations should be indicated ALPHABETICALLY within the text (e.g. Jones 2000; Smith and Jones 1999), separated with semi-colon, no comma before year. Precise page references should be given for quotations. For example: Daalder (1990: 63–4), Page and Wright (1992: 27–30; 1995: 56–87). Use 'et al.' (in italic) when citing a work by more than two authors, but then use all authors' names in the listing of cited works at the end of the paper. The letters a, b, c, etc. , should be used to distinguish citations of different works by the same author in the same year, e.g. Wright (1995a: 15–20; 1995b). All references cited in the text should be listed alphabetically and presented in full after the notes, using the following style:
