

WELCOME TO LSE ECONOMICS OFFER HOLDERS 2020

Welcome to LSE Economics

Dimitra Petropoulou

Undergraduate Programme Director

Department of Economics

Our Undergraduate Programmes

- **BSc Economics**
- **BSc Econometrics and Mathematical Economics**
- **BSc Economics with Economic History**

BSc Economics

- **Economics A (EC100) or Economics B (EC102)**
 - For those without/with IB/A-level Economics (or equivalent)
 - Both lead to the same Year 2
- **Mathematical Methods (MA100)**
 - Builds on A-level Mathematics
 - Analytical tools for building economic models; multivariate calculus, linear algebra
- **Elementary Statistical Theory (ST102)**
 - Key foundation for testing theories; comparing predictions with data
- **An outside option (from a very varied list!)**
- **LSE100 – Part I (Lent Term)**

Just a few of the great Year 1 options

- EH101: Internationalisation of Economic Growth: 1870 to the present day
- GV101: Introduction to the Study of Politics
- PH103: The Big Questions: An Introduction to Philosophy
- PB101: Foundations of Psychological Science
- MA103: Introduction to Abstract Mathematics
- AC102 and FM101: Introduction to Financial Accounting; Finance (half units)
- LN: language: French, Spanish, Russian, Mandarin (from scratch to proficiency/mastery)

LSE offers a uniquely rich array of rigorous social science courses to Economics students

- Microeconomics (EC201 or EC202)
- Econometrics (EC220 or EC221) – statistics for modern economics
 - LSE is distinctive in offering a choice between two courses with alternative emphases on theory, proofs and mathematics versus applications and intuition
- Macroeconomics (EC210)
- An outside option (from a huge list!)
 - From Finance and Mathematics to Contemporary Literature and Society
 - From History of the Arab-Israeli Conflict to Advanced Accounting
- LSE100 – Part II (Michaelmas Term)

- **Three** advanced economics courses:
 - Development Economics
 - International Economics
 - Public Economics
 - Monetary Economics
 - Behavioural Economics
 - Labour Economics
 - Political Economy...and more!
- A **fourth** course *either* from Economics *or* from related subjects, such as:
 - Africa and the World Economy: 1500 -2000
 - Game Theory

Check out the [Course Guides](#) for outlines

BSc Econometrics and Mathematical Economics

- Application for transfer into EME end of Year 2
- **Quantitative Thesis (EC331)**
- Three units comprising:
 - up to two from:
 - Econometric Theory (EC309)
 - Games and Economic Behaviour (EC319)
 - Problems of Applied Econometrics (EC333)
 - up to two from the EME course selection list (lots of choice!)
 - up to one outside option

BSc Economics with Economic History

BSc Economics with Economic History Year 1

- **Economics A (EC100) or Economics B (EC102)**
 - For those without/with IB/A-level Economics (or equivalent)
 - Both lead to the same Year 2
- **Mathematical Methods (MA100)**
 - Builds on A-level Mathematics
 - Analytical tools for building economic models; multivariate calculus, linear algebra
- **Elementary Statistical Theory (ST102)**
 - Key foundation for testing theories; comparing predictions with data
- **Internationalisation of Economic Growth: 1870 to the present day (EH101)**
- **LSE100 – Part I (Lent Term)**

- Microeconomics (EC201 or EC202)
- Macroeconomics (EC210)
- Theories and Evidence in Economic History (EH237)
- An Economic History choice from:
 - Money and Finance: From the Middle Ages to Modernity (EH204)
