Events

Acupuncture Awareness Week is 2-8 March 2015

Did you know that acupuncture is over 5,000 years old! It's one of the oldest forms of complimentary treatment to date.

LSE Treatment clinic offers acupuncture sessions on Wednesdays and Fridays. [More information.](#)

Ecobuild Show 3-5 March 2015, Excel London

The sustainable design, construction and energy event for new build, refurbished, commercial and domestic buildings. [More information.](#)

Daria's health tip

An effective way of using lemons at home: Fruit and Vegetable Wash
You never know what kind of pesticides or dirt may be lurking on the skin of your favourite fruits and vegetables.

Slice your lemon and squeeze out one tablespoon of lemon juice into your spray bottle.

The lemon juice is a natural disinfectant and will leave your fruits and vegetables smelling nice too.

Many thanks,

The Green Team of the Department (Miriam, Rachel, Gary, Daria and Kalliopi)
