Third Bridge provides private equity firms, hedge funds and strategy consultants with the information they need to understand the value of their investment opportunities. Our clients work with us when they need to quickly learn about a market, company or product. Whether it is facilitating a private conversation with an industry veteran, moderating a conference call between experts and investors, or publishing a report on a poorly documented industry, we help our clients to make critical investment decisions. As a graduate, you will join the Connections team at our London HQ, where you will learn how to find the most relevant people to help investors answer questions across a wide range of industry sectors. It is a steep learning curve but you will quickly develop a broad knowledge of global market issues and developments.
