Welcome message from our partners

上海国际人才交流协会
Shanghai Association for International Exchange of Personnel

上海市留学人员联谊会
Shanghai Returned Scholar Federation

英国英欧华跨文化发展公司
UEC CROSS-CULTURE LINKS

The Shanghai Association for International Exchange of Personnel is pleased to support the Shanghai Careers Fair and looks forward to welcoming you to the event. The role of the SAIEP is to promote Shanghai so that more people understand more about this city. The goal is to turn Shanghai into a city able to attract and retain various talents to work in Shanghai or contribute to Shanghai's growth!

The Shanghai Returned Scholar Federation builds connections with local and overseas Non-Government Organizations for returned scholars. It has a large number of members, most of whom are 'returned Chinese scholars', having studied all over the world.

UEC Cross Culture Links is certified by the Chinese government SAFEA to promote exchange between Britain and China. The UK Liaison Office of SAIEP recruits talent for the Shanghai government and the 'Recruitment Scheme of Senior Overseas Talents'. UEC organized the "Year 2008 Shanghai Overseas Financial Recruitment Fair for First Class Talents", "Year 2004 Shanghai Recruitment Fair" and "Year 2003 Shanghai Pudong Recruitment Fair" in London.

To learn more about your future in Shanghai, come and visit our stand (number 50) where you can learn about us and how we can assist you.

This year we are pleased to welcome students from Columbia University, Harvard University and Massachusetts Institute of Technology.

Welcome message from our premium sponsor

For 22 years, Tourico Holidays has been a growing global travel brokerage company and is now the largest travel wholesaler in the US and one of the largest in the world. Since that initial investment 22 years ago, Tourico Holidays has grown into a \$1.4 Billion company. From one office in Sanford, Florida, expanded to 39 locations worldwide in 5 continents with 650 employees and counting. Today, Tourico Holidays provide support to 3,873 clients across more than 98 countries, using the most innovative technology in the business-to-business travel arena and operating in 13 different languages.

In order to expand business in China, one of the fastest growing tourism markets, Tourico Holidays opened an additional office in Shanghai and plans to open two new offices in Shenzhen and Chengdu. Including existing offices in Beijing and Hong Kong this would grow total employed in the region from 33 to over 100. During the first quarter of 2016, a significant growth in room nights sold from China tripled, compared to the same time last year, with 204% increase.

This is our third year attending the Careers Fairs in Asia. We return once again to build on past hiring success stories. One of the most attractive features to perspective Tourico Holidays employees are the internal growth opportunities; senior level positions are only available to students who graduate from the Tourico Holidays Travel Academy. Past attendees of these fairs have moved from the training academy into Sales, Technology and Product management positions.

The Travel Academy is an internal leadership development program established by Tourico Holidays in 2013, which takes place in our headquarters in Orlando, Florida. During the training students will have courses featured in classroom-style lectures, workshops, jet-setting field trips, and real-world experience that is designed for ambitious college graduates looking for the fast-track to success in the travel industry. The company hosts four, 10-week sessions per year, the students receive the benefit of direct instruction from eight Tourico senior executives. Instructors also include experienced travel professionals and a series of guest professors. In the first two years, the Academy has received more than 7,200 total applicants, including 1,550 from Ivy League school graduates. The graduates from the academy are now playing significant roles in the market, such as Business Development Manager, Sales Analyst, Product Manager, and Software Engineer.

Successful Academy graduates interview for full-time positions at Tourico Holidays. Offers have been accepted by 98% of the graduates, and Tourico has seen significant contribution back to the company already. Performance of recent sales staff hired through the academy, far outperforming incumbent U.S. Tourico employees in hotel contract signings. At the end of the instruction portion of the program, candidates take on actual work projects for the company. For example, sales candidates frequently travel to meet prospect travel clients in person to broker contracts.

We look forward to meeting you at **stand 49**, talking through the opportunities in more detail, and getting to know you and learn about your career aspirations.

3M was incorporated in the year of 1902, and its headquarter locates in the St. Paul, Minnesota State, USA. As a world-leading multinational corporation with diversified technology, its products have already integrated into people's daily life. Over 100 years, 3M has developed more than 70,000 products, variant from household to goods medical, transportation, construction, business, education, electronics and telecommunication applications. In modern society, over 50% of world population has indirectly or directly contacted with products from 3M.

3M China Limited was incorporated in Nov, 1984 in Greater China, which was also the first wholly foreign-owned enterprise located in Shenzhen Special Economic Zone. Until now 3M has cumulatively invested over 1.5 billion USD, founded over 12 subsidiaries, 12 manufacture bases, 27 offices, 4 technology centers and 1 R&D center, with over 8,200 staffs.

We use innovative technology to solve the difficulties in our life, and provide practical and doable solutions. With excellent staffs, we believe and commits to: continuous innovation and pursuing of excellence.

Abercrombie & Fitch

Stand 12

www.anfcareers.com

Applications from non-nationals: Yes

Application method: Online application

Application deadline: Ongoing

Abercrombie & Fitch Co. is a leading global specialty retailer of high-quality, casual apparel for men, women and kids with an active, youthful lifestyle under its Abercrombie & Fitch, Abercrombie kids, and Hollister Co. brands. A&F was founded in 1892 and is based in New Albany, Ohio. A&F sells merchandise through retail stores in the United States, Canada, Europe, Asia, Mexico, and the Middle East. The Company also operates e-commerce websites at www.abercrombie.com, www.abercrombiekids.com, www.hollisterco.com. The (MIT) program is a blended-learning, multi-week program focused on immersing a manager in all aspects (Human Resource, Visual Merchandise, Store operation & experience etc.) involved in managing a store for Abercrombie & Fitch.

Each week the program focuses on a different aspect of running the business. The program trains the MIT on the necessary principles of management including creating the best in-store experience, recruiting, diversity, human resources, store operations, and visual merchandising. The program is structured and provides the MIT with daily and weekly feedback from the Store Manager and District Manager. The MIT completes daily readings and exercises, experiences and learns through on the job training, and completes weekly assignments. The MIT must successfully complete the training program to be moved on into an Assistant Manager role. Successful completion of this program is the first step for leadership. At Abercrombie & Fitch, we strongly advocate a philosophy of promotion from within. All of our District Managers, Regional Managers, Directors - even the Senior Vice President of Stores- have gone through the MIT program. With the growth of the company domestically and internationally, career opportunities for an MIT have never been better. As we expand in Asia this year, we are looking for candidates in Shanghai/Beijing/Hong Kong/Chongqing/Chengdu/Tianjin/Kunming/Guangzhou/Shenzhen for new store opening.

Application method: Online Application

Application deadline: 实时更新

Haitong Securities Co., Ltd. (hereinafter referred to as "Haitong Securities") was founded in 1988 as one of the earliest securities companies that have not been renamed and did not receive capital injection. The predecessor of the Company is Shanghai Haitong Securities Company. It was converted into a limited liability company in 1994 and later developed into a national securities company. At the end of 2001, the Company became a joint stock company. In 2002, the Company raised additional capital by issuing addition shares and the registered capital increased to RMB8.734bn, which made it a full-service securities company with the largest amount of capital in the Chinese securities industry. In 2005, the Company successfully took over Gansu Securities and Xingan Securities to achieve fast expansion at a low cost. In the same year, the Company became a securities firm in the pilot financial innovation program. In 2007, Haitong Securities was listed at Shanghai Stock Exchange and concluded the private placement. In April 2012, it was listed at the Stock Exchange of Hong Kong Limited. In 2015, the Company completed private placement on the Hong Kong market and its registered capital swelled to RMB11.502bn. Since 2007, the total assets and net assets of the Company have always ranked number two in the Chinese securities industry.

Application deadline: Ongoing

Intralink has successfully been developing and implementing strategies for China, Japan, Taiwan and Korea for over 25 years. Through our Surrogate Sales Program™, we provide companies with a low risk, cost effective and practical means to target these markets, generate new and incremental revenues, and establish a permanent presence through a local subsidiary, acquisition or partnership.

In addition to our Surrogate Sales Program™, we provide a range of pre- and post-market entry services, including opportunity assessments, partner searches, supplier benchmarks, investment coordination, local representation and commercial audits. We also work with clients to source capital from strategic and financial investors in Asia, and to buy, sell and license intellectual property.

Our clients are venture-backed start-ups, small and medium-sized enterprises, and multinational corporations operating in the automotive, chemicals, clean energy, consumer electronics, healthcare, retail, semiconductor, telecommunications and other sectors. Through our international team of locally-employed, bilingual project managers based in Tokyo, Shanghai, Taipei and Seoul, we offer a transparent and hands-on approach, extensive in-country contacts, and over 25 years of experience.

Ready to Accelerate your career? At Merlin Entertainments plc we run many of the world's most popular attractions - LEGOLAND®, Madame Tussauds and SEA LIFE to name a few - and we are opening new attractions every year. The Accelerate Graduate Programme is focused on giving you the skills you need to make an attraction a great success with 4 x 6-month placements. With career progression available on a global scale, Merlin is the ideal place to kick-start your career. So if you are looking for fast-track development in an exciting company, this is where the magic starts... If you're a bright, entrepreneurial graduate with the confidence to lead others and run your own department then Business Management is the stream for you. You will gain experience and skills in commercial, strategic, operational and leadership functions. You will be responsible for the smooth running of the day-to-day operations within the attraction and you could also be managing a team to deliver excellent customer service. The Marketing stream is focused on giving you all the skills you will need to make a great attraction a commercial success.

If you possess the vision and drive to launch your creativity and passion into marketing projects for some of the most exciting brands in the world, this is the programme for you. You will gain experience and skills in areas such as brand, PR, promotions, trade, events and marketing strategies, in placements which are based across the global Merlin business. With Merlin Entertainments plc growing every year we want creative minds, natural leaders and innovative thinkers to drive our business forward. You must have the eligibility to work in the country you're applying for and a minimum of a Bachelor Degree Classification 2:1 (or equivalent international qualification) in a related degree subject. The Accelerate Graduate Programme commences in September 2017. Applications for China will open in January 2017 and will close in February 2017.

Founded in 1963, Hong Kong Standards and Testing Centre (STC) is the first independent, not-for-profit, testing, inspection and certification organization in Hong Kong. The Centre, operating in various parts of the world servicing a diverse cross-section of industries. STC is recognized by many national and international organizations and accreditation bodies and is keeping abreast with the latest technology and standards to support their clients' product development.

The Centre can test and certify most products in its modern laboratories to make sure that they meet the essential safety, quality, reliability and performance requirements. STC's qualified inspectors can verify a manufacturing facility's capability, inspect products at the factory before shipment and certify manufactured goods are in compliance with contract specifications. The Centre's experienced professionals can advise manufacturers and trading organizations on how to improve their products and achieve international quality, environmental and social objectives.

Besides Hong Kong, STC also sets offices and testing laboratories in Dongguan, Guangzhou, Shanghai, Shenzhen, Foshan, Fujian, Beijing, London and New York. Its worldwide network provides great convenience to customers in enjoying its services.

STC is the only CB laboratory in Hong Kong under the National Certification Body of China. We are the first laboratory in Hong Kong accredited respectively by China National Accreditation Service for Conformity Assessment (CNAS), Federal Communications Commission (FCC) and Deutscher Akkreditierungs Rat (DAR). STC is also the sole provider of complete audio / visual electromagnetic compatibility testing, HOKLAS-accredited condom testing and Tencel / Lyocell fiber identification analysis in Hong Kong. Since 1999, our footwear testing has also been accredited by SATRA Technology Centre of the United Kingdom, the world's leading research and technology organization for consumer goods industries. In 2012, STC has become the first CCC testing laboratory in Hong Kong.

Collectively, we are dedicated to delivering quality and interactive entertainment experience in dimensions of online game, literature, comics, drama, movie and TV series, etc. As the largest BG of Tencent, Interactive Entertainment Group (IEG) aims to build an Integrated Interactive Entertainment Platform.

Tencent Games is a global leading game developer and operator and also China's largest online gaming community. In designing both Tencent's overall online lifestyle business and Tencent Games' products, we always proceed from the basic needs of users and the ease of use. We value product sustainability and strive to develop premium games that promote a healthy and "green" lifestyle. Tencent Games has an open mind in its product development. The products are both developed by ourselves or in partnership with diverse external developers. Today, we have already established our foothold in many segments of the online gaming market and have achieved excellent performance. In addition to bringing players with much joy, we have established Tencent Games' position as the leader in domestic game industry and have seen a continuous and steady rise of market share.

The Global Operation Talents is a trainee program of Tencent Game. Trainees will go through 1.5 to 2 years of systematic training in the field of game operation. You will have three job rotation opportunities, and you will take responsibility within, but not limited to, areas of game optimization, cross function, cross culture communication, project management and game localization. We are looking for graduates who have passions in game industry and fluent in both Chinese and English.

Tourico Holidays

Stand 49

thtravelacademy.com

Applications from non-nationals: Yes

Application method: Online application

Application deadline: Ongoing

Tourico Holidays is delighted to return to attend the LSE organised Career events in mainland China and Hong Kong for the third year, in order to build on previous recruitment success stories.

Tourico Holidays is the fastest growing travel wholesaler in the world and the largest in the United States. Since that initial investment 22 years ago, Tourico Holidays has grown into a \$1.4 Billion company, with 39 offices all over the globe. Today, we provide support to 3,873 clients across 98 countries, using the most innovative technology in the business-to-business travel arena.

All of the graduate positions start with a 10-week executive training academy at our global headquarters in Orlando, Florida. Post academy positions would be based initially in one of our current offices in Beijing, Shanghai, Hong Kong or in one of our future offices in Shenzhen or Chengdu. All positions will require extensive travel as we meet with our clients and suppliers in person. The training and post academy mentorship are designed to prepare you for the position for up to six months. With positions in Sales, Product Management and our Technology division (Professional Services), we are seeking applications from a wide range from Bachelor to Postgraduate subject areas.

By following this link you will learn more about our company and unique training academy:

Established in December 2000, WuXi AppTec is a leading global pharmaceutical, biopharmaceutical, and medical device open-access capability and technology platform with operations in China and the United States. As an innovation-driven and customer-focused company, WuXi AppTec provides a broad and integrated portfolio of services throughout the drug R&D process. Our services are designed to help our worldwide customers shorten the discovery and development time and lower the cost of drug and medical device R&D through cost-effective and efficient solutions.

WuXi AppTec has successfully established a fully integrated services and technology platform during the past decade. The company built its initial capabilities around discovery chemistry and has further enhanced the integrated services with analytical services, bio-analytical services, process research, process development services, API manufacturing services, DMPK/ADME, discovery biology, pharmacology, formulation, toxicology, genomic services, biologics manufacturing services, antibody and biological research reagent manufacturing and sales, and most recently clinical research and regulatory services.

WuXi AppTec has developed from four founders and a single laboratory in December 2000 to 10,000 employees and 5.5 million square feet of laboratory and manufacturing space, including facilities under construction.
