

## **Taught Postgraduate Progression Data 2009/0 to 2013/4**

Summaries of student progression by:

Age on Entry

Disability

Ethnicity

Gender

For:

Postgraduate Taught programmes

## Notes:

Progression defined as:

1. Proceeding to the next year of study, including those permitted to progress without passing all modules, or
2. Successful completion of degree programme.

Non-Progression defined broadly as:

1. Those not progressing to the next year of study on their degree programme, or
2. Those who withdraw, required to take summer resits or go before the Student Progression Panel (SPP) to get permission to progress while carrying courses to resit.

\* Ethnicity is shown in detail for UK-domiciled students only.

This aligns with the Equality Challenge Unit (ECU) treatment of national data, reporting on UK-domiciled student only. The ECU's treatment is based on Ethnicity only being mandatory to report for UK-domiciled students.

See ECU Statistical Report 2014:

<http://www.ecu.ac.uk/publications/equality-higher-education-statistical-report-2014/>

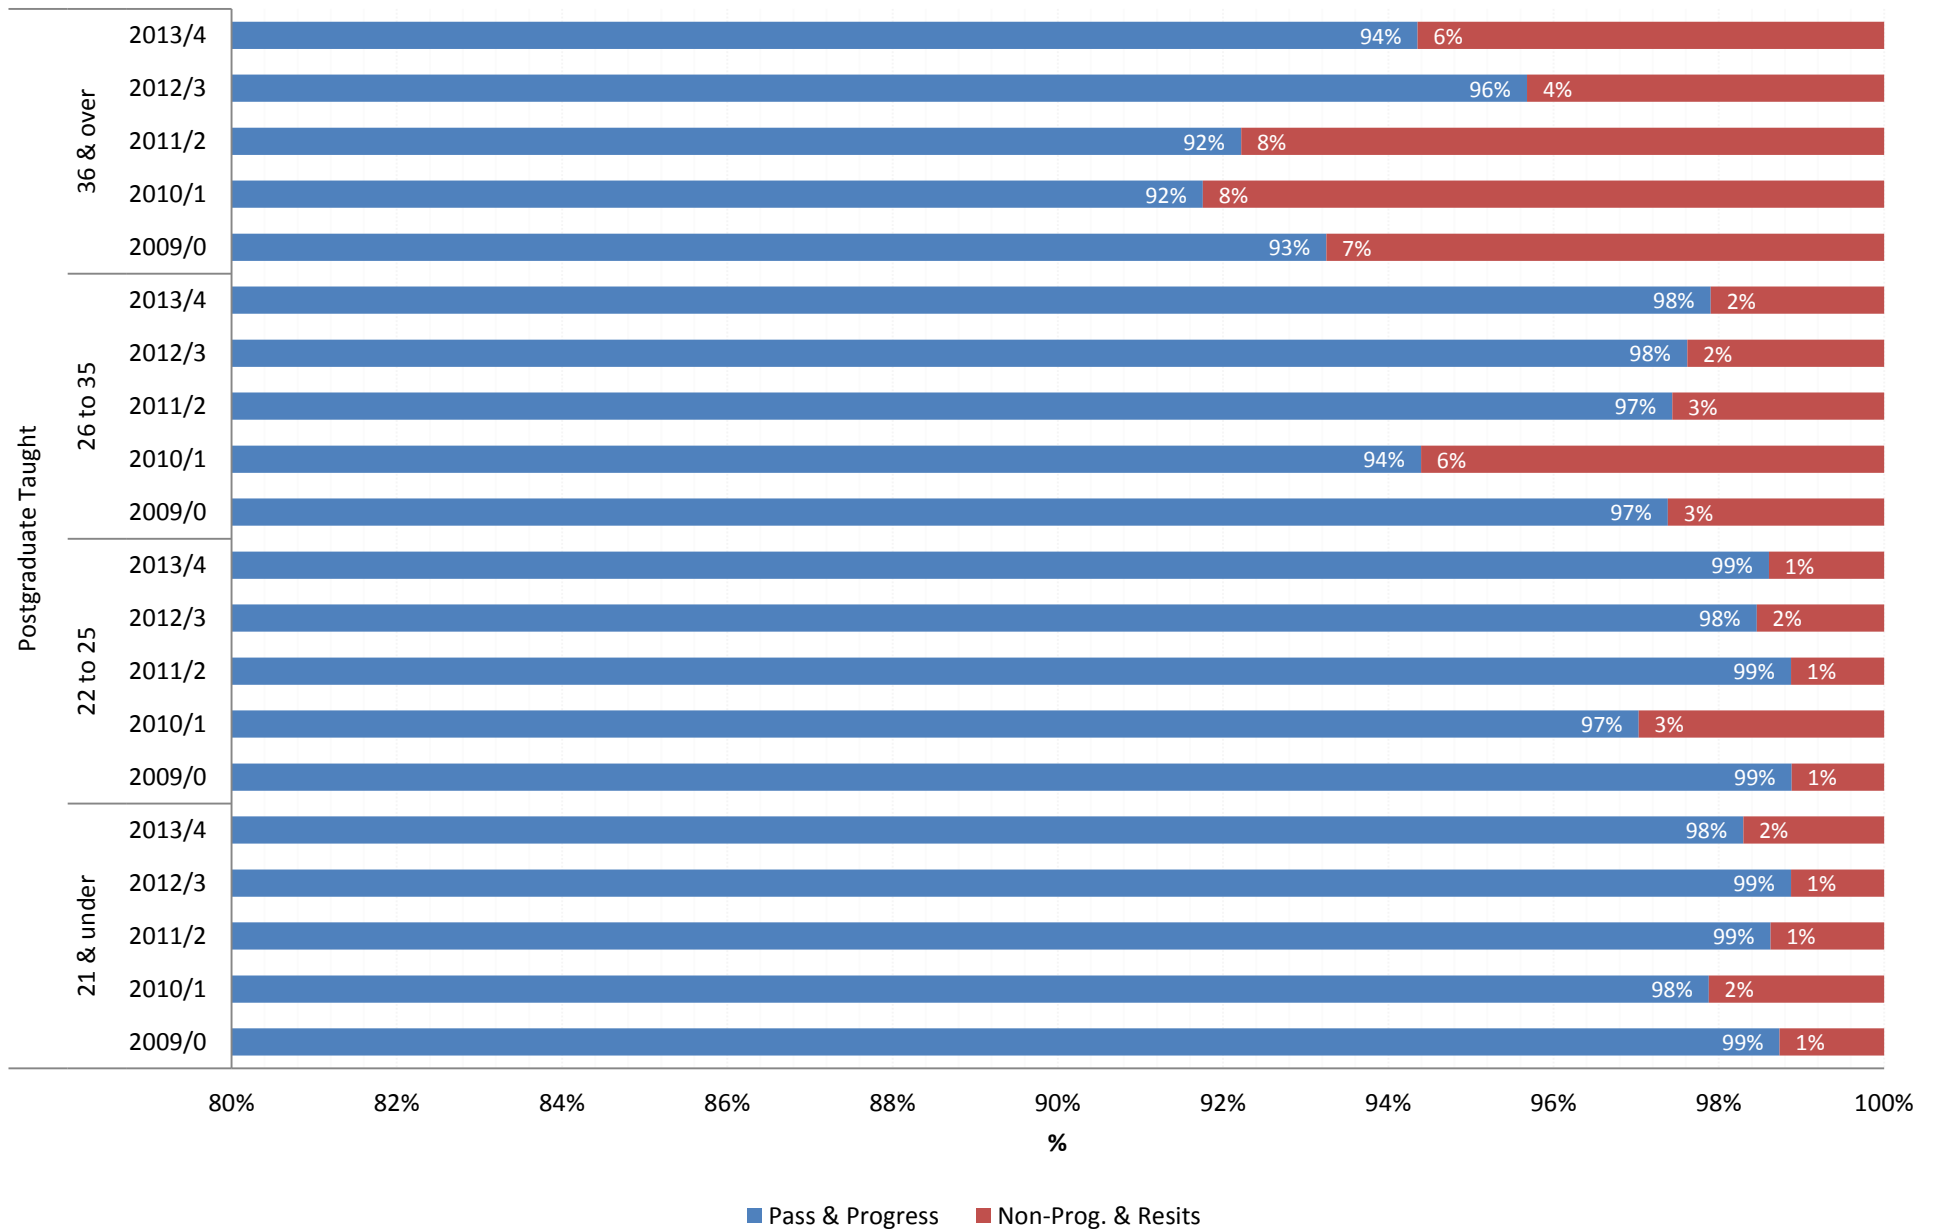

Non-UK domiciles are shown as a whole, but not in detail, in both graphs and tables.

The population for other characteristics (Age, Disability & Gender) is for all students, regardless of Domicile.

The data is displayed in tables and graphs as raw counts and percentages. There is also no attempt to identify where a difference is statistically significant.
