

LSE Media Studio - Tower 3 Roof Top

Estates Division
Capital Development

Project Information

Budget: £ 330,00.00 (inc VAT)
Area/Size: 45 sq m
Construction Period: July 2013 - January 2014

Design Team

LSE Project Manager: Gabija Bingelyte
Principal Contractor: Sykes and Son Ltd
Studio Equipment fit-out: Television Systems Ltd
Quantity Surveyor: Welsley Property Asset Management Ltd

Utilising a previously redundant security control room at the roof level of Tower 3 a fully equipped broadcasting studio was created. The physical constraints of the space meant that the Studio had to be heavily insulated acoustically from external and structure-borne noise.

The facility has access to live television and radio broadcasting services. The studio will be used for teaching purposes, web broadcasting and video recording using multiple cameras; podcasts and pre-recorded interviews on current affairs.
