Location: Old Building, 4th floor roof Terrace  
Construction period: September 2011

### Design Team

LSE Project Manager: Lauren Allier  
Principal Contractor: ANS Group

**LSE** Estates Division  
Capital Development

*The Living Wall formed part of LSE's Campus Greening initiatives which aimed to improve biodiversity in the urban habitat, provide breeding and nesting possibilities and 'soften' the concrete façade. The plants chosen for the Living Wall are ever-green and suitable for shaded areas. An automatic irrigation system ensures regular watering. The wall is maintained by a specialist contractor twice a year who ensures the plants always look their best.*
