

THE UK HIGHER EDUCATION AND RESEARCH COUNCIL SECTOR TARIFF

UK and International Air Express Services

Effective January 2008

Contract R190/06 – Year 4

WELCOME

Welcome to the new UK and Overseas parcel contract tariff for UK Universities and Research establishments.

The National Postal Distribution and Supplies Working Party have completed a thorough tender process, using EC procurement legislation procedures. After comprehensive submissions by many carriers we are pleased to recommend DHL International (UK) Limited as one of three preferred suppliers for the provision of document and parcel delivery services.

DHL were selected after being assessed as a service provider who are able to meet the needs of the higher education sector for both international and UK parcel delivery needs.

Contract details for this agreement are held by your local purchasing officer (number R190/06). If you require additional information please contact your Regional Consortia office or call me directly at the University of Hull.

Your local DHL sales representative will contact you and provide full details of all services that are available to meet the needs of your individual institution.

This agreement covers the DHL International (UK) Limited, door to door express service and commences November 1st 2006. To help you take full advantage of this new agreement, we have included a ready reckoner showing net rates allowing you to quickly evaluate the costs of shipping your documents or parcels door to door utilising the DHL network. Please note that owing to the current high price of oil, a 13% Fuel Surcharge has been included in all International tariffs for this contract year. Standard domestic shipments are exempt.

Thank you for supporting this National contract.

GUIDE TO SERVICES

DHL can provide your institution with a fast and reliable door to door service for the carriage of urgent parcels and documents to over 228 countries worldwide.

What are Universities & Research Councils sending on this type of service with DHL?

- Examination papers
- Prospectus
- Journals
- Distance learning material
- Confidential reports
- Job offers
- Medical Samples
- Research material
- Research grants
- Tenders
- Manuscripts
- IT equipment

DHL Worldwide Medical Express (WMX)

DHL Worldwide Medical Express (WMX) is a modular 'cool-chain' distribution system.

In addition to Express Distribution, DHL will provide an all inclusive packaging system supporting ambient, cooled and deep frozen services, which will allow for the safe and secure delivery of time and temperature sensitive pharmaceutical products and specimens.

This modular packaging system complies with IATA Packaging Instructions 650(PI650), 602 (PI602) and 904 (PI904). In addition, much of the packaging has been manufactured using recyclable low density polythene (LDPE-2), therefore minimising the environmental impact of waste disposal.

When used in combination with the DHL Worldwide Express network, WMX provides universities, research councils and pharmaceutical companies with an effective integrated service to move finished goods and clinical trials supplies to market. This provides a temperature-controlled solution without the need to replenish the Temperature Control Units or the Dry Ice during transit.

If you have a **daily** requirement for this service please contact your local DHL Sales Contact for further details.

Dry Ice Shipment Service

With prior arrangement through your DHL Service Centre, DHL can carry your urgent dry ice shipment to most destinations in Europe.

DHL Local Support

At DHL we understand the importance of providing you with an unrivalled local support service.

Our Customer Support Agents are a vital part of your after sales care, providing a hands on approach that addresses the issues that concern you.

With over fifty DHL offices in the UK, it doesn't matter where your institution is located, you'll find a DHL Service Centre near by waiting to help.

Import Express Service

Import Express allows you to order collections from abroad and pay in the UK. Different rates apply please contact your local Sales Executive.

"We have been using the DHL courier service for seven years and have always been able to rely on their commitment and speedy delivery to all parts of the world. Because of this, we insist DHL is the only courier service used by our staff."

SYLVIA NORDEN
University of Cambridge
Department of Engineering

"With previous courier companies we experienced problems delivering items into Africa and the West Indies, DHL have now solved those problems in these two important markets."

CRAIG O'CALLAGHAN
University of London
External & Internal Student Administration

TRACKING

TRACK A PACKAGE

If you're an Internet surfer, you have probably visited DHL's website on www.dhl.co.uk. It's easy to access and you'll discover interesting news of DHL products and services. Amongst them you will find our web tracking facility – just click on the icon and tap in your details and you are straight into our web tracking system.

SPEEDTRACKING

DHL's SpeedTracking is an advanced telephone track-and-trace system which allows you to follow the progress of your shipments from your own touch-tone phone. Faster than calling Customer Services, it allows you to track up to five shipments at a time.

Call DHL on **0844 248 0844**, select SpeedTracking, key in your air waybill number and we will be able to give you the up-to-date status of your shipment.

If your shipment has arrived, it will detail the delivery time and receiving name – you can even request a faxed confirmation of these details.

Additionally, if the shipment is still on its way, we will automatically fax you confirmation of delivery when it arrives.

E-TRACK

Alternatively, if you would prefer to follow the status of your shipment by e-mail, E-Track offers a fast and straightforward solution.

Up to ten shipments can be tracked in one message. To track a shipment, simply send an e-mail containing your air waybill number to track@dhl.com and the current status of your shipment will be e-mailed back to you within minutes.

*I want a fast way of knowing
when my shipment has arrived*

HOW TO USE THIS GUIDE

First turn to the **Tariff and Transit Times Table** and check the zone of your required destination. (If you can't find the destination you require, or you'd like to confirm our delivery times, please give us a call.)

Then look at the **Door-to-Door Rate Table**. Find the weight of your shipment and look along the line until you find the appropriate zone. This figure is the price of your shipment. For example, if your shipment to Spain weighed 2.0kg then the rate (at zone 3) would be £16.72.

For shipments in rate bands 4 to 9 use the appropriate documents or parcels table.

The tariff is divided into six sections:

1. International Timed Deliveries
2. UK Documents and Parcels
3. European Union Documents and parcels
4. Rest of the World Documents and Parcels
5. Importing
6. Global Mail

For parcel shipments heavier than 250kg please contact you local DHL office.

Please note:

- Out-of-hours collection, weekend deliveries and deliveries outside DHL's present service areas can be made on request, possibly with a small additional charge. Please call us.
- Some consignments may be liable to taxes or duty when they arrive at their destination.
- Charges for shipments to destinations in the UK and other EU countries are subject to VAT at the current rate.
- For large lightweight items, you may be charged on the space your consignment takes up in transit. Details of how to calculate the volumetric rate of your shipment can be found at the back of this guide.
- Shipment weight is rounded up to the nearest half kilogram.
- Transit times are in working days and in some cases may require early collection.
- Delivery may take a little longer from and to outlying areas.
- Some consignments may take longer to clear Customs in certain countries due to their nature or value.
- If you require information on times to specific town/cities, or countries not listed please give us a call.
- This Tariff and Transit Guide supersedes all previous Guides and is exclusive to the "UK Higher Education & Research Sector".

HOW TO CALCULATE VOLUMETRIC WEIGHT

If you're sending large lightweight items, you may be charged by what is called the 'volumetric weight'.

This is to compensate for the amount of space your consignment will take up in the aircraft. You'll be charged by the volumetric weight if it exceeds the actual weight.

The figure below shows how to calculate the volumetric weight (kg) of your shipment.

For example:

If the actual weight = 6kg

but the dimensions = $\frac{50\text{cm} \times 40\text{cm} \times 30\text{cm}}{5,000} = 12\text{kg}$

the **volumetric weight** of **12kg** is used

If you have any queries about this or any other international delivery regulation, please call us on **0844 248 0844**.

GLOBALMAIL BUSINESS RATES

No sorting. No franking. No hassles.

Send your international business mail with GLOBALMAIL BUSINESS simply, quickly and reliably to any country in the world.

GLOBALMAIL BUSINESS is an international mail collection and delivery service tailored to give you total convenience and save you money.

HOW IT WORKS? IT'S AS EASY AS 1, 2, 3.

- 1 Collect all of your international mail in the bag we will provide
- 2 Weigh the bag at the end of the day
- 3 Complete the DHL Air Waybill

Then leave the rest to the professionals. Your regular DHL courier will collect from you and our international network will do the rest.
