

Phase 3: LSEs Action Plan to address areas emerging from the Concordat Gap Analysis conducted in September 2010

Background

The embedding of the [Concordat to Support the Career Development of Researchers](http://www2.lse.ac.uk/intranet/directoriesAndMaps/committeesAndWorkingGroups/researchStaffCommittee/membership.aspx) at the London School of Economics (LSE) has been an extension of existing research staff support provisions at the School. A Research Staff Working Group (RSWG) was initiated in 2007 to look at support provisions for research staff and to provide a forum for stakeholders to participate in consultations on how this work could be further developed. In June 2010 the work of the RSWG was handed over to a Research Staff Committee (RSC) which now has formal oversight for this area. The RSC membership is made up of various stakeholders from the School, including Research Staff, Principal Investigators, Vice-Chair of Appointments Committee (VCAC), Pro-Directors, Heads of Department, Research Centre Directors, Heads of Administrative Divisions (Teaching and Learning Centre and Research Division) and the University and College Union (UCU). Full RSC membership is available here:

<http://www2.lse.ac.uk/intranet/directoriesAndMaps/committeesAndWorkingGroups/researchStaffCommittee/membership.aspx>

Information on Concordat implementation at LSE is available [here](#).

LSE review of support provisions for research staff

The RSC is leading in conducting an analysis of LSE support provisions for research staff in the following phases:

Phase 1: Completion of HEI survey: Strategies for implementing the Concordat - **COMPLETED April 2010**

Phase 2: Identifying LSE progress in implementing the Concordat (Gap Analysis) - **COMPLETED September 2010**

Phase 3: LSE Action Plan to address areas emerging from the Concordat Gap Analysis (Section 1 2010-12) – **COMPLETED 22 October 2010**

Phase 4: Internal review by December 2012 to assess progress of actions – **COMPLETED via RSC 31 October 2012**

Phase 5: Renewed set of actions (Section B - 2012-14) – **COMPLETED 12 December 2012**

Phase 6: 4 year review by Vitae/European Commission – **TO COMPLETE BY 12 DECEMBER 2014**

As part of the RSC's analysis of current support provisions for research staff, the Committee has undertaken a gap analysis (Phase 2 of the project) to determine how closely these provisions align with the Principles contained within the Concordat. The Concordat's seven Principles are:

1. Recognition of the importance of recruiting, selecting and retaining researchers with the highest potential to achieve excellence in research.
2. Researchers are recognised and valued by their employing organisation as an essential part of their organisation's human resources and a key component of their overall strategy to develop and deliver world-class research.
3. Researchers are equipped and supported to be adaptable and flexible in an increasingly diverse, mobile, global research environment.
4. The importance of researchers' personal and career development, and lifelong learning, is clearly recognised and promoted at all stages of their career.
5. Individual researchers share the responsibility for and need to pro-actively engage in their own personal and career development, and lifelong learning.
6. Diversity and equality must be promoted in all aspects of the recruitment and career management of researchers
7. The sector and all stakeholders will undertake regular and collective review of their progress in strengthening the attractiveness and sustainability of research careers in the UK.

Annex C – Concordat Action Plan 2012-2014 - 2 Year Review

Results of Gap Analysis

The Gap Analysis was Phase 2 in assessing the LSE's implementation of the Concordat and it is available [here](#). It identified that the support provisions provided across the School for research staff are closely aligned with the Concordat. However, there are some areas where improvements can be made.

Development of actions to address gaps

The results of the Gap Analysis are feeding into Phase 3 onwards of this project. A two-year Action Plan has been developed from the Gap Analysis, highlighting key areas that require further action from the School in order to ensure that it is supporting research staff during their employment at the LSE. The action plan also incorporates themes that have been highlighted through the 2009 Careers in Research Online Survey (CROS) and the 2009 LSE Staff Survey, as well as other areas identified through the RSC.

Reviewing actions

An internal review will take place every two years to assess the progress of actions. Furthermore, interim updates will be provided by each lead area at RSC meetings on a termly basis. As and when areas are actioned, updates will be made available on the RSC web pages.

I do hope that you will join me in ensuring that good practice is adopted across the School, in line with the Concordat's recommendations.

Professor David Stevenson
Vice-Chair of Appointments Committee
