

Contents

Chapter 1. Introduction	1
Frameworks: The Social, Unpredictable, and Innovative Use of ICTs	17
Chapter 2. Beyond User-Centric Models of Product Creation <i>Ilkka Tuomi</i>	21
Chapter 3. Following the Emergence of Unpredictable Uses? New Stakes and Tasks for a Social Scientific Understanding of ICT Uses <i>Alexandre Mallard</i>	39
Chapter 4. The Innovative Use of ICTs <i>Leslie Haddon</i>	54
Empirical Studies: Users as Innovators and Critics	67
Chapter 5. Supporting Creativity – Co-experience in Mobile Multimedia Messaging <i>Katja Battarbee and Esko Kurvinen</i>	71
Chapter 6. The Social Shaping of New Mobile Devices Among Italian Youth <i>Fausto Colombo and Barbara Scifo</i>	86
Chapter 7. Creative User-Centered Design Practices: Lessons from Game Cultures <i>Olli Sotamaa</i>	104

Innovation and Artistic Users	117
Chapter 8. Artistic Deviance and Innovation in Use <i>Emmanuel Mahé</i>	121
Chapter 9. The Mobile Multimedia Phone and Artistic Expression: A Case Study of Moby Click <i>Heli Rantavuo</i>	136
Problems of Researching and Involving Users in Design	151
Chapter 10. Questioning the “Rural” Adoption and Use of ICTs <i>Rosemarie Gilligan</i>	155
Chapter 11. Dealing with Dilemmas in Pre-competitive ICT Development Projects: The Construction of “The Social” in Designing New Technologies <i>Sander Limonard and Nicole de Koning</i>	168
Chapter 12. Test Scenarios and the Excluded User <i>Jarmo Sarkkinen</i>	184
The Politics of User Involvement in Programmes of Innovation	201
Chapter 13. The Construction of “Equal Agency” in the Development of Technology <i>Marja Vehviläinen</i>	203
Chapter 14. Community–Technology Interfaces in Participatory Planning: Tool or Tokenism? <i>Somya Joshi</i>	218
Chapter 15. Conclusion	233
