# Nearly a decade of research (funded by EC Better Internet for Kids)

From [2006-09](#), as a thematic network of 21 countries, EU Kids Online identified and evaluated the findings of nearly 400 research studies to draw out substantive, methodological and policy implications.

From [2009-11](#), as a knowledge enhancement project across 25 countries, the network surveyed 25,000 children and parents to produce original, rigorous data on online opportunities and risk of harm.

From [2011-14](#), the network expanded to 33 countries to conduct targeted analyses of the quantitative survey and new qualitative interviews with children.

In 2015, network coordination passed from Department of Media and Communications at LSE to the Hans Bredow Institute for Media Research, University of Hamburg.

# Ladder of opportunities

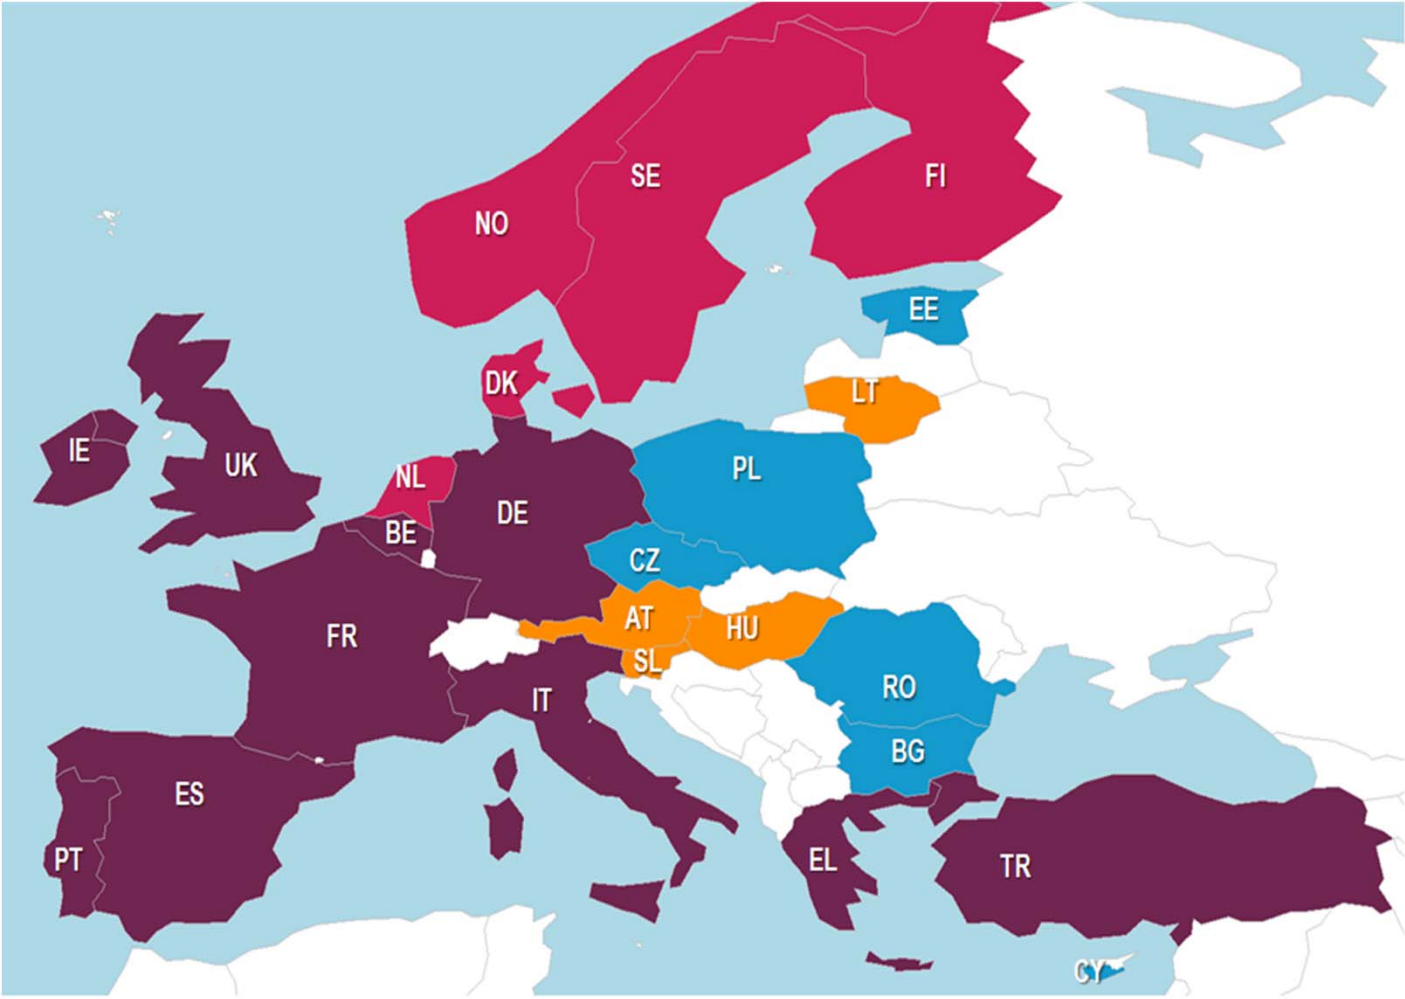

# Listening to children's concerns

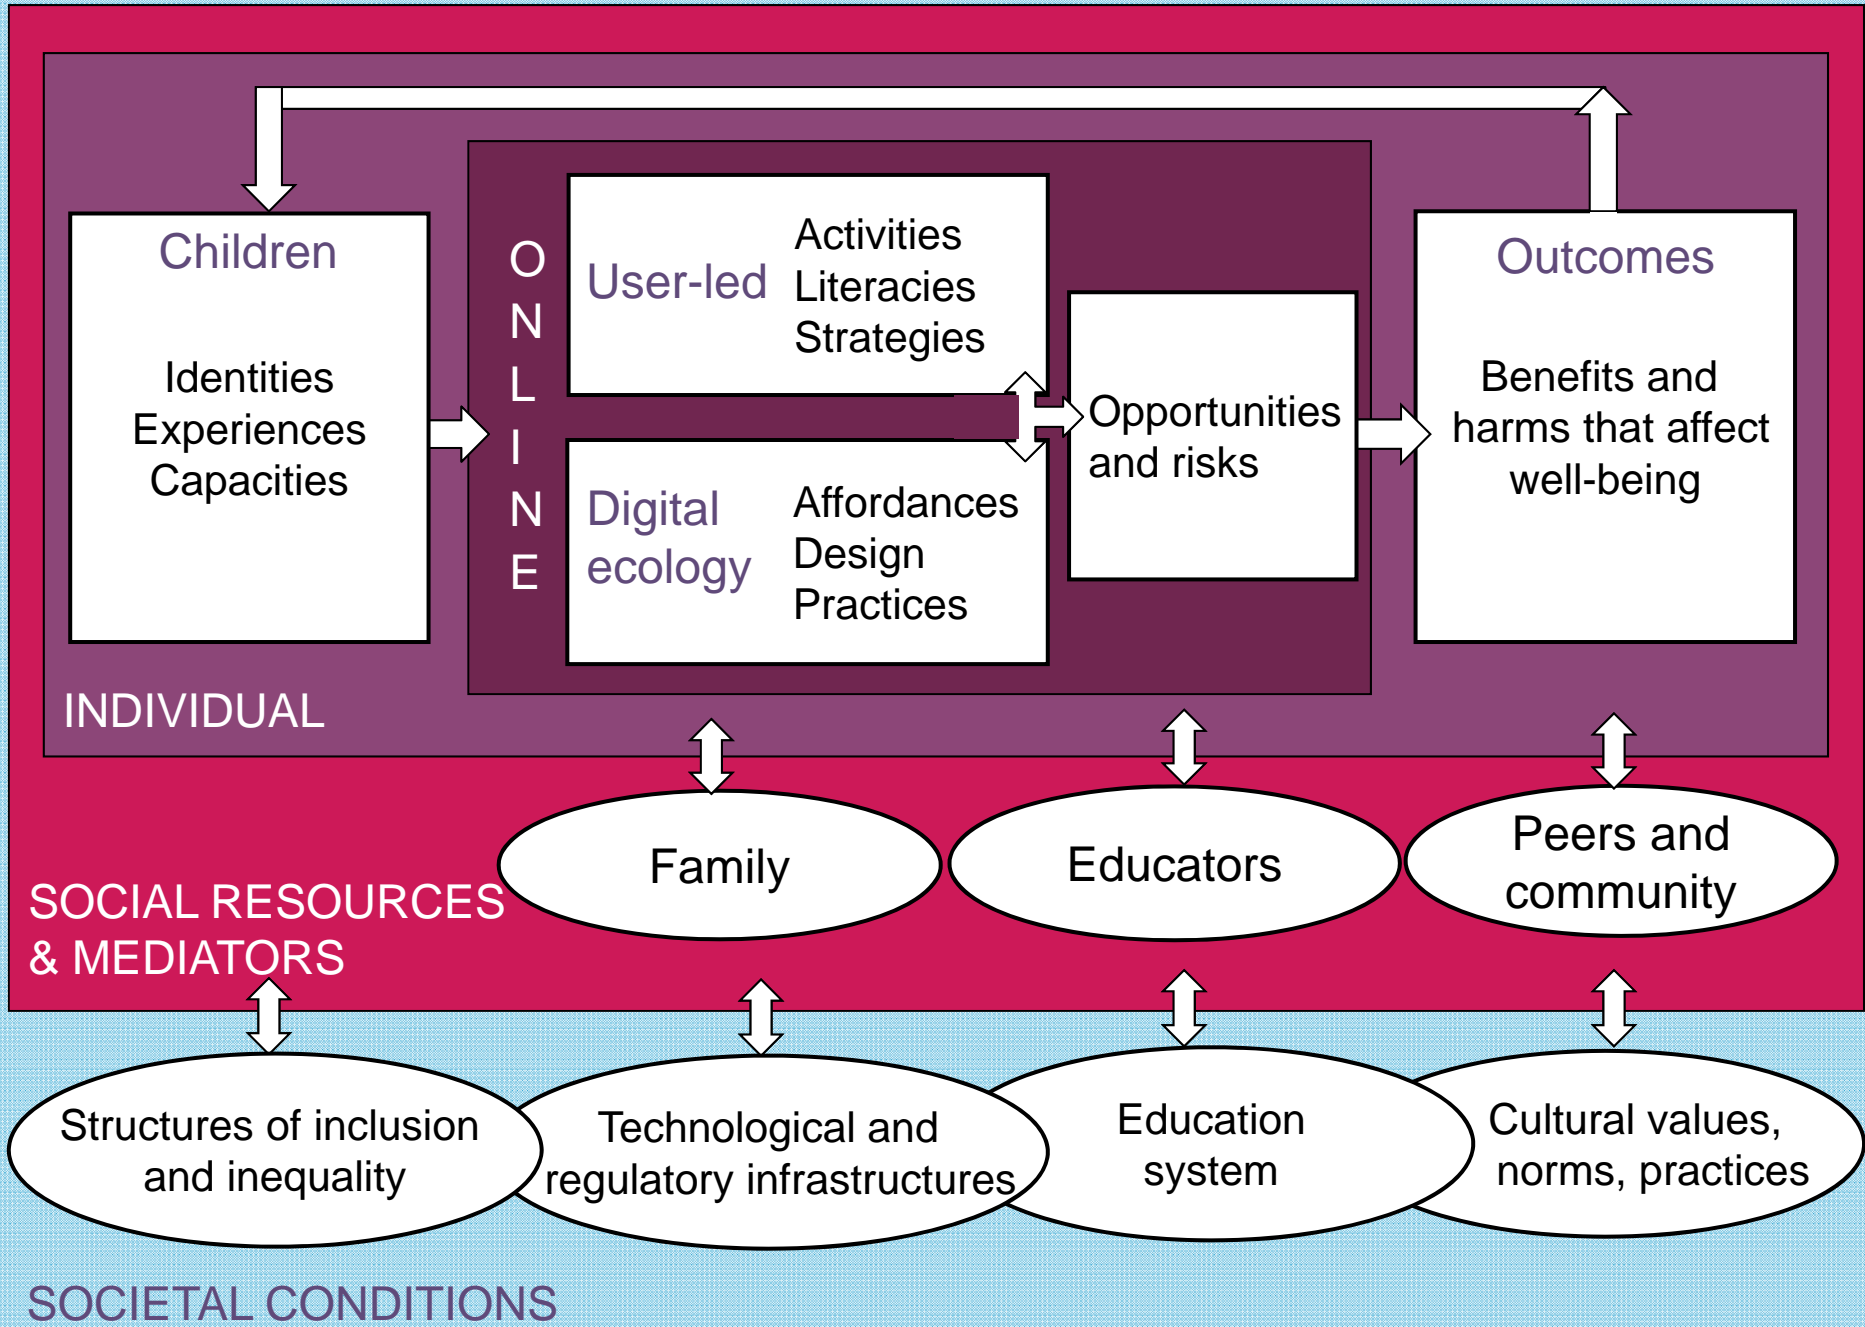

# European diversity

# Affordances shape practices

**What is being designed? What practices are being invited?**

**Does it make sense? Is it fair?  
Is it interesting? Do we want it?**

# Online too, design shapes practice and literacy follows (or doesn't)

Well done! Now, we've had a bit of a redesign.

Check that everything's still set sensibly.

Don't not make everything not private

Not No

Announce my location to potential stalkers

Never

Notify my friends when I'm stalking their friends to see if anyone is hot

Always

No

Notify me when my parents have sex

No

Done

## Yet positive affordances could build great digital literacies

# More questions than answers!
