

EU Kids Online III – A New project

A Thematic Network to Stimulate and Coordinate Investigation into the Use of New Media by Children

Project aims

European evidence base

The network will identify all available research, update and extend the *EU Kids Online* publicly accessible database (adding summaries of recent findings and including all member states) to pinpoint strengths and gaps in the existing evidence base.

Hypotheses and comparisons

The network will conduct in depth statistical analyses of the comparative data from *EU Kids Online II* in response to the questions arising from ongoing research and policy debates, and will publish these in a series of concise research reports.

Exploring children's understanding of risk

The network will explore new and creative ways to research the meanings of risk online for children, using methodological innovations and traditional approaches to generate focused and comparable qualitative findings.

Participating countries

Austria, Belgium, Bulgaria, Croatia, the Czech Republic, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Russia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the UK.

Funding

The project is funded by the Safer Internet Programme from 1/11/2011 to 31/10/2014.

Prof. Sonia Livingstone, Dr Leslie Haddon and the EU Kids Online network
