It may be possible for students to take courses offered by other LSE Departments, but this is not guaranteed. Constraints may include timetabling clashes, pre-requisites and availability of spaces for students from outside the department offering the course.

The MPA curriculum and the process of registering for courses will be covered during orientation. There is no advance course registration and the course registration system opens after first year students arrive at LSE. There is nothing that you need to do in advance of your arrival with regard to course registration.
