“Pontypandy Community School is a large rural comprehensive school. Students come to us from a range of backgrounds, including a significant proportion with no family experience of HE. Our small sixth form (150 students) teaches in mixed classes and offers 9 subjects to A2 and a further 4 to AS only. Students study 4 subjects in Year 12, then 3 in Year 13, although the most able are permitted to continue with 4. Students taking new A levels may sit an AS exam in one subject only, chosen in March. AS Further Maths is offered as an off-timetable option with two hours teaching time a week. The EPQ is offered as an enrichment activity to all students, around 30% take this up.”
References: Predictions

• Be supportive, but realistic
• **Please tell us how you are making predictions,** particularly if you don’t have AS grades
• Extra rationale appreciated if you are predicting up or down from academic record

Assessment of student’s academic suitability for their chosen degree, with specific examples:

- Attitude to study: motivation & commitment
- Potential
- Intellectual flexibility & curiosity
- Independent & original thinking
- Analytic ability & logical reasoning
- Ability to cope with sustained workload & flourish in intensive academic environment
- What is the student like as a learner: quiet, thoughtful, bold, lively? What do they stand out for?
References: The Applicant

- Give prominence to subjects most relevant to chosen degree, but include all subjects.
- Include strengths and weaknesses, particularly where grades aren’t perfect.
- Extra-curricular achievements & responsibilities
- Leadership skills, social skills.
- No surprises: tell us about anything that has affected performance or progress.

Robin’s father was recently diagnosed with Arthrofibrolosis. He has to take 240mg of Exprofulene daily. He has had two fibriolocty’s to remove fibroids from his lower sacrolectum and is currently on the waiting list for a diplodoidectomy. Please see attached letter and scans from his consultant.

Robins’ father was diagnosed with Arthrofibrolosis, a curable but debilitating disease in December 2016. He has had two two-week stays in hospital (December and February) during which Robin missed several days of school to visit him. She has also assumed greater caring responsibilities for her two siblings. Her father is on the waiting list for a further surgery which could occur at any time in the next sixth months. This has caused considerable worry to Robin.
Examples

Hannah

Predicted grades: Maths A*, Economics, A*, Psychology, A, Geography A*

Hannah is a highly original, intelligent, analytical student with enormous determination and unusual independence of mind. She is a remarkably quick learner. Her GCSE results, obtained at a time of some personal unhappiness involving absence from school at crucial periods and a change of school, by absolutely no means do justice to her ability. Putting that behind her, she joined us in the Lower Sixth and her attendance has continued to be good. She has taken the lead in lessons, been to class discussions. Above all she has steamed ahead independently, powered by a strong and quirky intellectual curiosity. She obtained four strong grades at AS level and we confident she will achieve her stellar predictions.

Mathematics (261/300 at AS level): Hannah is a natural mathematician who never accepts ideas simply because she is told that they are true; she questions and works away at that which appears inconsistent, illogical or incomplete. She appreciates the beauty and brevity of mathematical solutions and can work quickly and efficiently. This year she has taken up AS Further Mathematics as an extra pursuit outside school, and is predicted a grade A.

Economics (179/200 at AS level): Hannah loves to pursue her own line of enquiry and research new lines of interest independently. She has developed a rich knowledge of economic facts, concepts and theories. She has excellent powers of analysis and her understanding of the links between the different theories, particularly in macroeconomics, is frequently documented in her essays. Her strong mathematical ability enables her to tackle data manipulation questions with confidence. With her independent study of Further Mathematics, she will have no problem meeting the mathematical requirements of an undergraduate course in Economics. As Economics Prefect, she is an assured and persuasive ambassador for the subject at Open Evenings.

Psychology (159/200 at AS level): Hannah reads widely and she demonstrates, in discussion and in her written work, an impressive knowledge and understanding of concepts, theories and case studies far beyond the curriculum. As in Economics, she can argue effectively both orally and on paper; she often pursues a line of enquiry right up to the boundary between Psychology and Philosophy. She has a particular interest in Psychopathology.

Geography (192/200 at AS level): Hannah studies Geography outside school. As with her other subjects, she is keen, very able and self-motivated.

Hannah is independent-minded and self-motivated, but she is also considerate and ready to support others, for example by helping at a games club at lunchtimes at our local primary school. She participated in the Young Enterprise Scheme last year and was a vocal, cooperative but powerful team member with clear leadership instincts.

Hannah is an exceptionally intelligent, curious, deep-thinking and ambitious student who challenges received truths and pursues alternative lines of enquiry, seemingly on a daily basis. Her sense of humour is a bonus. Although often eloquent, Hannah might not perform well initially at interview; perseverance will pay dividends.

Hannah is totally committed to the study of Economics and I very strongly recommend this very interesting young woman to you.

Hannah is independent-minded and self-motivated, but she is also considerate and ready to support others, for example by helping at a games club at lunchtimes. Hannah is a tall, slender and very energetic, who challenges received truths and pursues alternative lines of argument. Although often eloquent, Hannah might not perform well initially at interview; perseverance will pay dividends.

Hannah is totally committed to the study of Economics and I very strongly recommend this very interesting young woman to you.

Nice to see a high B. Why are they predicting up?

Why? Was this also the case at AS? Self-study or taught? Who has provided the prediction?
Hannah

Newtown Sixth Form College serves a diverse community of students from the local area. We offer a broad range of A-Level and vocational courses and are proud to extend educational opportunities to learners who have some of the lowest qualifications on entry of any sixth form college in the country.

Clive has a strong understanding of sociological perspectives that can be applied readily to the wider world. Clive is insightful, well read, and enthusiastic and passionate about sociology. He has been able to make links between other social sciences which has not only strengthened his understanding of the subject but given him a deep philosophical foundation to evaluate and assess cultural aspects of society. He has understood that theory should be underpinned with sociological research and can easily differentiate between positivist and interpretivistic stances. His sociological thoughts are strengthened through political convictions and a general attitude that real sociology is 'action' based. His knowledge of feminism, Marxism, functionalism and other theories has developed beyond classic A Level approaches and is more akin to an undergraduate understanding. He has covered topics such as the sociology of the family, education and research methods and has made a swift transition to the higher demands that a second year of study entails. His written work is detailed and will often go beyond assessment criteria; an A* grade is in his grasp.

Likewise, in Psychology, Clive presents as a conscientious, mature and polite student who has worked exceptionally well throughout the course to develop and maintain his natural flair for the subject. His work ethic has led to a number of outstanding test results and other written pieces. He has an impressive grasp of psychological concepts and theories. He also has an excellent understanding of research methods, which he has applied effectively when preparing for the research methods exam. In addition to this, he has consistently demonstrated that he also has an excellent understanding of the key evaluative issues in Psychology, which he discusses to an impressive level in each of his essays. He has advanced organisational skills, which he has used to complete all work to an exceptional standard by the deadlines set. He has maintained an excellent level of motivation and interest in the subject throughout the course, which has led him to become an admirable independent learner.

Clive is passionate about political, economic and social issues; he writes and speaks eloquently on a range of matters and is able to reflect on issues from a range of standpoints. Clive picks up complex concepts with ease and can analyse political arguments using complex terminology. He enjoys exploring topics which link his Economics and Political studies to Sociology; he is particularly articulate when discussing the impact of fiscal and welfare policy on families in poverty and is very interested in how social policy changes like how the legal position of gay marriage reflects wider social change. Clive works tremendously hard and as a result should gain an A grade in AS Government and Politics; he has already gained a B for Economics A Level.

Clive is an active member of the college, and wider, community. To name just a few examples, he is Secretary for the Student Union, fully utilising his excellent organisational and people management skills; he runs his own society in college (Film and Visual Culture Club) where he has recruited regular attendees and is effective in communicating with staff to follow internal policy and procedures; he confidently represents the college at local secondary schools and marketing events and has even chaired a borough assembly holding parliamentary candidates to account on local issues. Clive is mature, proactive and hard-working. He is an ideal candidate for Higher Education and will be an excellent student and an asset to the university community.
Newtown Sixth Form College serves a diverse community of students from the local area. We offer a broad range of A-Level and vocational courses and are proud to extend educational opportunities to learners who have some of the lowest qualifications on entry of any sixth form college in the country.

Clive has a strong understanding of sociological perspectives that can be applied readily with enthusiasm. Clive is insightful, well read, enthusiastic and passionate about sociology. He has been able to make links between the social sciences which has not only strengthened his understanding of the subject but given him a deep philosophical foundation to evaluate and assess cultural aspects of society. He has understood that theory should be underpinned with sociological research and can easily differentiate between positivist and interpretivist stances. He enjoys exploring topics which link his Economics and Political studies to Sociology; he is particularly articulate when discussing the impact of fiscal and welfare policy on families in poverty and is very interested in how social policy changes like how the legal position of gay marriage reflects wider social change. Clive works tremendously hard and as a result should gain an A grade in AS Government and Politics; he has already gained a B for Economics A Level.

Clive is an active member of the college, and wider, community. To name just a few examples, he is Secretary for the Student Union, fully utilising his excellent organisational and people management skills; he runs his own society in college (Film and Visual Culture Club) where he has recruited regular attendees and is effective in communicating with staff to follow internal policy and procedures; he confidently represents the college at local secondary schools and marketing events and has even chaired a borough assembly holding parliamentary candidates to account on local issues. Clive is mature, proactive and hard-working. He is an ideal candidate for Higher Education and will be an excellent student and an asset to the university community.
Rachel

Predicted grades: Government and Politics A*, RE B, Sociology A*

St Genia’s Sixth Form College is located in the most deprived ward in Manchester. Our students are predominantly from the local area and almost all follow A-level programmes. 45% come from Widening Participation backgrounds. Rachel came to St Genia’s in September 2013 with a very good GCSE profile and has made a smooth transition to the demands of A-level study. She is estimated to achieve the following A-level grades: Government and Politics A*, RE B, Sociology A*

GOVERNMENT & POLITICS: Rachel is a joy to have in a politics class as she as a total politics obsessive. She has one very clear aim for her academic studies which is to learn about and immerse herself in the world of politics and debate. Her considerable motivation ensures that she is incredibly hard-working both independently and in class and is always a lively and enthusiastic contributor. She has worked hard to mature and develop her academic skills, readily taking on board and acting on guidance given. She has gained a number of top marks for assessed past-paper work including a strong ‘A’ for her mock exam. I know that Rachel wishes to study for a politics related degree and I wish her well and recommend her wholeheartedly.

RE: Rachel has a true aptitude for both Philosophy and Ethics, and a genuine passion for the subject. This was evident from the start of the course, and it has made her a pleasure to have in lessons, where she enthusiastically approaches any topic or idea, no matter how complex. She is always keen to understand, and develop, her own knowledge and understanding. She has seldom achieved lower than an A or B throughout the year, further demonstrating her intellectual capacity, as well as her hard work and determination. She is fully capable of independent work: she researches things herself, thus enhancing her philosophical insights and capacity for original thought in the subject. Despite having strong views about certain topics, she is very willing to listen to the ideas of others, and is open-minded about the different perspectives that exist in a given area. She can also consider both sides of an argument effectively, and draw well-supported conclusions. She would be an asset to any degree course, and I fully recommend her to you.

SOCIOLOGY: Rachel is a very mature and responsible student who takes her studies very seriously. Consequently she is hardworking, extremely conscientious and reliable. She organises herself very well. Her written work reflects a deep enthusiasm for all matters sociological and is often effectively organised. It also demonstrates a perceptive understanding of complex sociological concepts and ideas which are consistently articulated to a high standard. She is also very good at analysing a range of sociological data and sees the need for frequent and balanced evaluation. She works exceptionally well as part of a problem-solving team. I have no doubts that Rachel has the maturity, attitudes and skills to be a success in higher education and I therefore recommend her unreservedly to your institution.

Rachel is an open and friendly student who relates well to her fellow students and teachers alike. She enjoys all her studies and consequently her record of attendance and punctuality at St Genia’s is very good. She is considering all her options for future studies since her interests and abilities are wide ranging and she will be researching her chosen courses thoroughly. Outside her academic work, she has demonstrated her leadership qualities as a scout leader and through her teaching work at a supplementary school. She has recently completed her Silver Duke of Edinburgh’s Award and was particularly proud of achieving a high standard in Circus Skills. Her joy in succeeding to juggle three balls after many months of practice was a delight to behold. She has the maturity and intellectual ability to embrace the demands of study at university and I strongly recommend her to you.
