Job title: Widening Participation (WP) Spring/Summer School Course Assistant

Department/Division: Widening Participation Team

Accountable to: Course Leader/Course Director/WP Officer

Widening Participation Summer Schools:

At LSE we believe that all students should have the opportunity to go on to higher education regardless of their background, and that it is our social responsibility to encourage and support them in exploring their options and making their decisions.

LSE has been involved in widening participation and access initiatives since 1998 and our activities aim to address the differences in take-up of higher education opportunities across different social groups. Every year, the WP team run a three-day non-residential Spring School, plus two Top-Up days for Year 8 boys (LSE Promoting Potential – August/November 2020) and a week long, non-residential summer school for Year 11 (July 2020) and Year 12 pupils (LSE CHOICE - August 2020).

LSE’s Promoting Potential Programme offers 12-13-year-old boys, from African and Caribbean backgrounds the opportunity to take part in a three-day non-residential Spring School, plus two Top-Up days to take part in a range of social science classes as well as skill development workshops designed to raise their aspirations and awareness of university.

The Year 11 Summer School is an exciting opportunity for 15-16-year-old pupils to take part in a general summer school exploring the different social sciences, whilst learning more about university.

LSE CHOICE gives 17 – 18-year olds the tools they need to gain entry to a Russell Group institution, through in-depth study, master classes and information and guidance workshops. The 7-month programme starts with a week-long summer school in August.

Both the spring and summer schools enable London state school pupils to learn more about higher education in a supportive university environment.
