AC2091 Financial reporting

This course is concerned with the theory and practice of financial or external accounting. This involves a sound understanding of the concepts and choices that underlie how financial information is measured and disclosed in the financial statements.

Prerequisite

If taken as part of a BSc degree, the following course must be passed before this course may be attempted:

AC1025 Principles of accounting

Aims and objectives

The aims and objectives of the course are to:

- stimulate theoretical enquiry into financial accounting issues
- develop the student's knowledge and understanding of financial accounting
- prepare for further academic study in accounting and related areas
- enable students in the pursuit of a professional accountancy qualification
- equip students for employment in areas where an understanding of accounting issues and tools is helpful.

Essential reading

For full details, please refer to the reading list.

- Alexander, D., A. Britton and A. Jorissen *International Financial Reporting and Analysis*. (London: Thomson Learning, 2014) sixth edition [ISBN 9781408088449]

Learning outcomes

At the end of the course and having completed the essential reading and activities students should be able to:

- ☑ explain and apply a number of theoretical approaches to financial accounting
- ☑ record and analyse data
- ☑ prepare financial statements under alternative accounting conventions
- ☑ describe a number of regulatory issues relating to financial accounting
- ☑ critically evaluate theories and practices of, and other matters relating to, financial accounting.

Assessment

This course is assessed by a three-hour, fifteen-minute unseen written examination including reading time.

Students should consult the appropriate *EMFSS Programme Regulations*, which are reviewed on an annual basis. The *Regulations* provide information on the availability of a course, where it can be placed on your programme's structure, and details of co-requisites and prerequisites.
