

# Development of an Inequality Framework & Toolkit

Collaboration between academic researchers and Oxfam

Atlantic Visiting Fellows Programme

# Key objectives

- To develop a robust and pragmatic Inequality Framework&Toolkit that will help activists and practitioners improve their understanding of inequalities to assist in the design of effective strategies to tackle them.
- To produce an Inequality Framework&Toolkit which builds on the latest academic research on inequality, its measurement and inequality frameworks, combined with the practitioner, activist and policy expertise held within Oxfam.

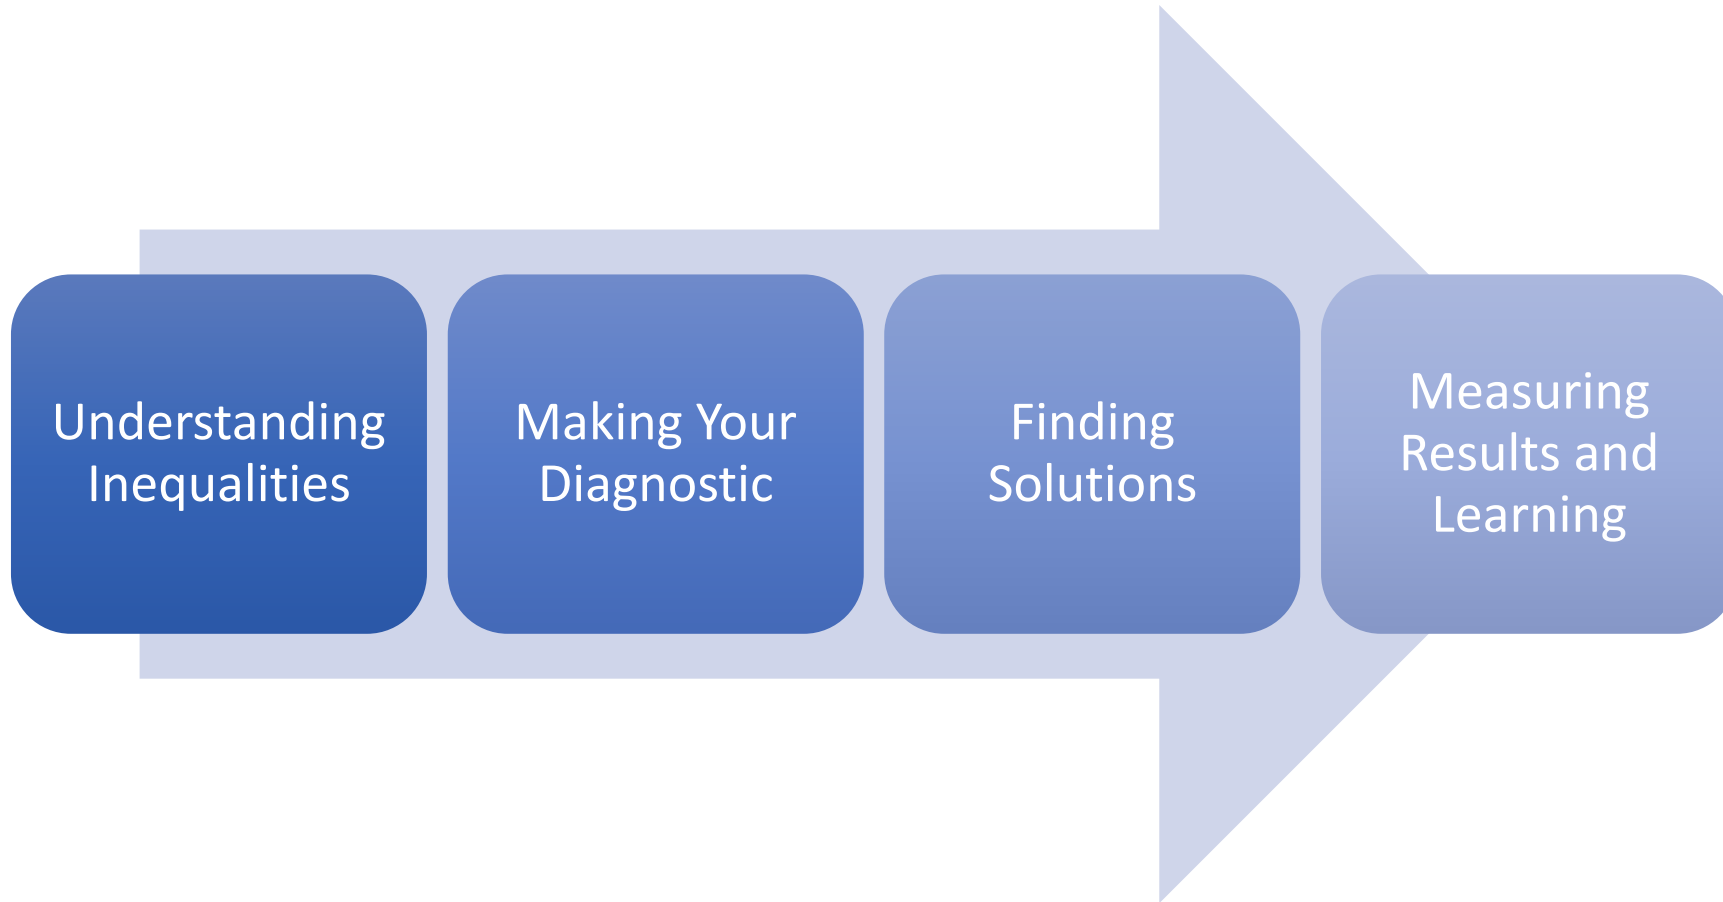

# Framework

## Development of an Inequality Measurement Framework

- To allow Oxfam country teams to produce a snapshot of inequality within their country
- Is multi-dimensional and captures more than economic inequalities
- Is theoretically grounded
- Reflects the link between inequality and poverty
- Practical

# What the toolkit could cover:

# Longer term plans

- Develop a dedicated website
- Pilots in Spain and Guatemala
- Launch 2018 and begin roll-out
- ....
