Section 1: Welcome from the Head of Department

Dear Social Policy Student,

A very warm welcome to the LSE and the Department of Social Policy.

The Department of Social Policy is recognised internationally as a centre of excellence in teaching and research. Starting out as the Department of Social Science and Administration in 1912, since its inception the Department has carried out cutting edge research on core social problems and helped to develop policy solutions. The original department not only trained welfare workers but also received funding from the Ratan Tata Foundation in India for research into poverty. Influential research on poverty and inequality, nationally and internationally has remained central to the Department's work.

The Department has historically had a strong influence on national social policies. Clement Attlee was one of the earliest lecturers before he became Prime Minister from 1945-51 – a period of dramatic change in social policies; and the first Professor of Social Administration, Richard Titmuss, inspired a generation of students who formed the backbone of the welfare state.

Subsequently, the Department developed Social Policy as an interdisciplinary field of applied research, drawing on disciplines including economics, political science, sociology, and history, and addressing international as well as national core social issues.

Reflecting this interdisciplinary and international evolution, the current interests of the Department are varied and include work that focuses on: poverty and inequality, welfare states and labour markets, social security, family demography and family policies, education policy, migration, race/ethnicity, gender, criminology and criminal justice policy, health and social care, social policy and development, and the role played by non-governmental organisations and civil society among many others.

The Department continues to inform policy both directly and indirectly through the highest standards of research, treating many of the big issues of the day. Our influence is also felt through the ongoing contribution of its alumni to policy-making in the UK and internationally.

The interdisciplinary nature of Social Policy means that when you graduate you will be equipped with a broad range of knowledge and skills that can be applied in many different settings. Many Social Policy alumni apply their academic training directly, working as policy specialists in the government, NGO and private sectors. The high-level analytical and research skills developed by our programmes are also highly valued by employers as diverse as the media, management consultancy, teaching and the development sector.

You will find LSE to be a vibrant and exciting place. There is much to enjoy, both academically and socially. In particular, you will quickly discover that there are major public events – lectures, debates and so on – almost every day of the week. Being in the centre of the capital city, close to the heart of government and all the main media, LSE hosts the most distinguished of visitors. The Department itself hosts many such events, lectures and panel discussions. These occasions focus on areas you study, as well as matters well beyond, and I would urge you to make the most of these opportunities.

I hope that your time here will be both rewarding and stimulating, and I look forward to meeting you.

Warm regards,

Professor Coretta Phillips
Head of Department

Connect with the LSE community
studenthub.lse.ac.uk/welcome

Section 2: Your Programme

Welcome to MSc International Social & Public Policy degree programme.

Students on this Programme will have chosen either to study ISPP on a specialist 'stream' within the Programme, or on the general ISPP stream. Your final degree will reflect the stream which you have studied. For example, students on the Development, Education, Migration, NGO or Research streams will be awarded an MSc International Social & Public Policy (Development), MSc International & Social Public Policy (Education), MSc International Social & Public Policy (Migration) or MSc International Social, Public Policy (Non-Governmental Organisations) & MSc International Social & Public Policy (Research) respectively. All other students will be awarded the MSc International Social & Public Policy.

All streams of the ISPP Programme share a common core of courses. Students on the specialist streams (except the LSE-Fudan Double Degree) are also required to take specialist options as specified in their **Programme regulations**. All streams share a common engagement with the core concepts and debates within International Social & Public Policy including the policy process, wellbeing, poverty and exclusion, global institutions and the aid system, sustainability and livelihoods, rights and citizenship.

Programme Support and Administration

Programme Director

Dr Sonia Exley

s.exley@lse.ac.uk

Your Programme Director is a member of the academic faculty.

They are responsible for:

- The delivery and development of programmes on both operational and strategic levels
- Liaison with Student Academic Representatives and attending meetings of the MSc Programmes Forum (MPF)
- Ensure any issues arising at programme level area addressed effectively
- Supporting student community within the Department's programmes.

Postgraduate Programmes Support Team

You should contact your Programmes Support Team by emailing socialpolicy.msc@lse.ac.uk in the first instance. Please note that if you email the team email, you are more likely to receive a response quickly, as the whole team checks the shared team mailbox regularly. However, if you need to speak to a particular member of the team, you will find their contact details below.

You can also contact the team by phone. Tel: +44 (0)20 7 955 6001

If you would like to speak with a member of the programmes support team, there are also appointment slots, bookable via the Student Hub each week of term time.

Dr Craig Stewart

Teaching Operations Manager

c.j.stewart@lse.ac.uk

Responsible for: MSc and PhD study, student welfare, course choice, timetabling and programme regulations.

Barry Singh

Programme Officer (Assessment)

g.singh29@lse.ac.uk

Responsible for: Assessment & assessment feedback, coursework extensions, deferrals, exam boards.

Nathaniel Ocquaye

Programme Officer (Student Experience)

n.ocquaye@lse.ac.uk

Responsible for: Moodle, reading lists, events and Student Representation and MSc Programmes Forum.

Sevilay Erdogan

Programme Officer, PhD and Research lead

s.erdogan1@lse.ac.uk

Postgraduate study, MPhil/PhD study and support.

Kylie Patterson

Academic and Professional Skills Officer

k.b.patterson@lse.ac.uk

Responsible for: Academic and Professional Skills Development workshops and events and the alumni mentoring programme.

Clare Gorman

Student Community and Wellbeing Manager

c.gorman@lse.ac.uk

Responsible for: Student wellbeing support, student community, My Adjustments, settling into LSE and London.

Any student who feels that they have concerns which cannot be dealt with by their Academic Mentor should feel free to approach first the Programme Director, and then the Deputy Head of Department, Dr Timothy Hildebrandt (OLD 2.26) if the issue has not been resolved.

In addition to the above, the contacts of other Faculty associated with the Programme can be found online [here](#).

Section 3: Course Selection and Timetables

Programme Structure and Regulations

To complete the Programme, you need to meet the requirements laid out in your 'Programme Regulations'. The MSc is a full-year programme. Students must take courses to the value of four units. These must include your one unit Dissertation; and any Core courses required by your Programme Regulations. The remainder of the four Units should be made up by optional courses.

Social Policy MSc students are also strongly encouraged to take the non-credit bearing **SP403 – Academic and Professional Skills Development course**, which will support the development of your Academic skills at LSE and support you in developing professional skills for life beyond LSE.

The two core required courses upon which most ISPP students will be automatically enrolled are SP400 – International Social and Public Policy; and SP401 – Understanding Policy Research. The exception to this is students on the ISPP (Research) stream who will take SP401 and SP420 – Understanding Policy Research (Advanced). The specialist core courses, and the list of optional courses from which you can choose can be found within your **Programme Regulations**:

The optional courses listed in your Programme Regulations are ones which your Programme Director has agreed are relevant to your degree. You do not need permission to apply for a place on these courses. You can also apply for a place on any other courses at LSE outside of your Programme Regulations, but you must obtain the approval of your Programme Director through **this form**.

Further information on all social policy (those with the pre-fix SP) courses is set out in the **graduate course guides**. Course guides include information such as who is convening, syllabus, course content, assessment and indicative reading lists.

See **LSE Timetables Pages** for information on timetabling.

Auditing Courses

Some LSE courses allow for students to 'audit'. This is an informal arrangement where you do not go to classes or take the assessments. These courses do not appear in your course selections or timetable and will not appear on your transcript. Some students choose to audit courses to expand their knowledge in other areas. If you would like to audit a course, contact the relevant Course Convener and ask permission to audit their course. You must not attend any classes for courses you are auditing.

You are also encouraged to audit MY400: Fundamentals of Social Science Research Design (not assessed).

Full and Part Time Students

Full-Time students – you will take the MSc over one year starting in September and complete with the submission of the dissertation in August.

Part-Time students in your first year you should enrol for your core courses as well as an additional one unit's worth of courses. If you are registered on a specialist stream, you should also enrol for your specialist core course. In your second year you should take the equivalent of another unit from the options list and the SP499 dissertation. You should choose option courses across both years that allow you to complete the required four units to allow you to graduate.

The Department does its best to schedule classes so that part-time students can complete their degree in two years in a way that suits their commitments and requirements. However, given the wide range of options on offer, it is impractical to schedule all classes with part-time students in mind. You may, therefore, need to choose your options depending upon your personal circumstances.

Section 4: How to select your courses

Selection of your courses is done on the **'LSE for you' (LfY)** system, and you can find further information on the process through the LSE **course selection webpages**. You should be automatically enrolled on your compulsory 'core' courses within LfY, but will have to choose your optional courses, in line with the Programme Regulations for your degree.

When you sign in to LfY to make your Graduate course selections, you should find your core courses and your Dissertation already ticked. Please do not untick these as you choose your optional courses.

If you are a part-time student entering your first year ONLY, you should untick the dissertation, as you will take the Dissertation in your second year. You can only choose courses for one year at a time, and will choose courses for your second year at the beginning of the following Academic year.

When to select your courses

LfY will be open for 'browsing' from **10am on Monday 21 September**. Use this period to familiarise yourself with LfY and your course options. **Please note: No selections made during the browsing period will be saved.** You can also look at the Moodle pages of courses you are interested in, which may have more information to inform your choices. Please note: 'Joining' a Moodle page does NOT mean you have joined a course. **Course Selection can only be done on LfY.**

Autumn term Course Selection Period

From **10am on Thursday 24 September until 5pm on Friday 9 October 2026**. LfY will be open for **Course Selection**:

- Please note: Social Policy courses (those which have a prefix 'SP') will not start **offering places** to students until **1pm on Monday 28 September**. This is to give Social Policy students some additional time to consider their choices.
- However, if you are applying to a course/courses **outside** of Social Policy, you should **apply as soon as you can after the Course Selection period opens**. Other departments have different policies on when they begin to accept students onto courses.
- You should **select courses for your FULL YEAR** – both Autumn AND Winter term. This will allow you to plan your year better, and may mean that you are more likely to get a place on more of the courses you want through the year.
- Amendments to course selections can be made **until 9 October 2026**. After this no changes can be made, no matter the circumstances.

Winter term course selection period

Course selection will re-open at the start of Winter term. You are able to change your Winter term courses during the first two weeks of Winter term provided the newly chosen half unit courses are not oversubscribed. Late course changes are not permitted in Winter term once course selection has closed. We strongly advise that you do not change more than one half unit course during this period.

Will I get accepted onto the courses I want?

Please note that it is not always possible to offer students a place on all of their preferred courses. However, be assured that the vast majority of Social Policy students each year do get on the courses that they want. Be aware also that your selection may be constrained by timetable clashes or because there are upper limits ('caps') on the number of students who can take a course. This is particularly the case where courses are offered outside the Department of Social Policy (i.e. not prefixed with 'SP').

Controlled access courses

Many graduate courses, including all those in the Department of Social Policy, have 'controlled access' and require department approval to take. This means that only a certain number of students will be allowed to take these courses.

Selection of any course is also subject to availability and timetabling constraints. Controlled Access courses may ask you to provide a statement in support of your request. All Social Policy courses will require such a statement. If asked, **make sure you write an answer** – this will be used to determine which students will be accepted on the course (in Social Policy, students are NOT enrolled on a 'first come, first served' basis but according to their statements). If you write nothing, you will have less chance of being accepted onto the course. Your statement should be 250-300 words including the reasons why you would like to take the course. For example: why it is a good fit for you and your career goals, why the topic interests you, your experience in the topic area etc.

Social Policy students get priority on Social Policy Courses, and to those courses on your Programme's Regulations. However, you still need to write a statement.

You can find details of the Social Policy courses available in [**Course Brochure**](#).

Can I select courses outside Social Policy and/or outside my Programme Regulations?

You can register for a course/courses outside your Programme regulations. However, please note that **you must obtain the permission of your Programme Director**, and are advised to contact the Department offering the course to ensure that you are eligible to register for it. Remember, selecting a course online is no guarantee that you will be allowed to attend this course. In exceptional circumstances students are allowed to take courses offered at other University of London colleges. Enquire at the Student Services Centre (SSC) and with your Programme Director if this applies.

If you do wish to take a course that is not listed on the Programme Regulations remember that you must obtain the approval from the ISPP Programme Director. You can do this by completing the **MSc Social Policy Outside Course Request Form** which will be circulated to all students before the course selection process begins. You will receive a response from the Programme Support Team if/when permission has been granted. You can apply for a place before you have obtained permission, but must be aware that if you do not subsequently obtain permission, you will be required to drop the course and choose an alternative.

How long will it take to be accepted onto a course?

Once your request is submitted, you will be notified of the outcome via email. You will then have **48 hours** to accept the place and formally register online for that course. If you do not respond, the offer will be withdrawn and the place will be offered to another student.

Providing your selected courses are ready in Moodle, you should be automatically enrolled on their Moodle pages a few hours after selecting your courses on

[LSE for You.](#)

Seminar Allocation and Timetables

Once you are accepted onto a Social Policy course, you will be able to allocate yourself to a seminar, and where this is not the case, the Programmes Support Team will allocate you to a seminar in LSE For You and your personal timetable will be automatically updated. Please note:

- Seminar reallocation will only be allowed where there are clear reasons for this: priority is given to part-time students, students with children/family commitments etc. Timetable convenience is **not** a sufficient reason for a seminar to be reallocated.
- We will try to accommodate students where possible – for example where there are spare places in a seminar.
- **Please remember that your place in a seminar is provisional until week 4 of term.** On occasion, in order to accommodate as many students as possible, we may have to reallocate students. If we do need to make such a reallocation, we will email you. This would normally only be to accommodate a student with priority needs (e.g. with childcare or a part-time student with work commitments).

Getting help

For queries about the course selection process, you can contact the **Student Services Centre (SSC)** via **their enquiry form**. The SSC can help if you are experiencing issues with the **LSE for You** system.

If you are not able to access **LSE for You**, you can contact **Tech Support**.

If you have a question about Moodle, please contact **eden.digital@lse.ac.uk**.

For advice around which courses to take and how your programme fits together please contact the Programmes Support Team **socialpolicy.msc@lse.ac.uk**.

Information on the content of courses is published in the **LSE Calendar**.

Section 5: MSc Academic and Professional Skills Development Programme

The Academic and Professional Skills Development Programme is made up of a series of workshops, events and activities designed to support our students with their academic studies and professional futures. The programme encourages students to connect what they learn during their time at LSE with the opportunities and requirements of the professional world.

Workshops and Networking Events

SP403 – Academic and Professional Skills for Social Policy Students

Academic skills workshops provided as part of **SP403 – Academic and Professional Skills for Social Policy Students**, provide MSc students with academic skills training (e.g. in presentations, academic reading and writing) to support you during your academic career and help you get the most out of your courses and programme.

SP403 is a course which all Social Policy MSc students are **strongly advised** to choose as part of their course choices. The course is uncredited (so taking the course does not take up any of your required 4 units, or stop you from choosing any other course you are interested in) and unassessed. However, it is designed to support you at LSE by helping you develop the academic skills which will allow you to excel in all of your courses. It is also designed to help you develop your skills to help you move into and excel in the world of work beyond LSE. Students who attend and complete the course are provided with a Certificate in Academic and Professional Skills.

SP403 is delivered by a mix of professionals from the Department, LSE Life, the Careers service, independent professionals from beyond LSE in relevant fields, and Social Policy Alumni.

Alumni talks and Networking

Through the year, there will also be a range of Alumni talks and networking opportunities where you will be able to hear from and interact with Alumni from varied fields who have used their Social Policy degrees in diverse ways – get ideas on what you might do next, make connections and find out more about what our Social Policy Alumni have done! Look out for these throughout the year!

Section 6: ISPP-Fudan Programme

Students on the ISPP-Fudan double degree are registered on the MSc ISPP in the first year at LSE followed by the Masters in Management in Public Policy at Fudan University in their second year.

Please be aware that the LSE-Fudan double degree has some specific requirements for completion of the two degrees:

- **A student who is admitted on the LSE-Fudan double degree cannot opt out or change their programme on arrival at LSE. If you wish to transfer to a programme other than the LSE-Fudan double degree, please do so via your Graduate Applicant Portal before the deadline for accepting your offer.**
- A student who has completed year one and is unable to complete year two of the programme in Fudan will not receive an interim award.
- It is the student's responsibility to seek funding for their second year at Fudan. Gaining admission to the LSE-Fudan double degree programme does not automatically qualify you for funding at Fudan University. Please contact Fudan University about funding options before making a decision on your offer. You can ignore this statement if you are a self-funded student.

For more information, please see the [MSc ISPP programme page](#) or contact the MSc Programme Administration team at socialpolicy.msc@lse.ac.uk.

Fudan Handbook

Alongside this MSc ISPP programme handbook, we will also provide you with a copy of the latest Handbook for your second-year programme. Please note that this will be for the previous year as it will not be updated until 2026. However, it will still provide useful information in relation to dissertation preparation, your Fudan application, Scholarships, Visas, accommodation, and credit transfer. You will receive the latest handbook when it becomes available in 2026.

Fudan Programme Administration Contacts

The second year of the programme is managed by the Fudan Institute for Global Public Policy. Please do feel free to contact the Fudan team if you have any questions relating to your second-year programme.

**Man Xu**

IGPP Programme Administration

Email: igppadmin@fudan.edu.cn

For queries relating to: Fudan Programme Administration, Online Application Process, Credit Transfer, Accommodation.

Tel: +86 21 65642019

<https://igpp.fudan.edu.cn/>

For academic queries such as those relating to your Fudan thesis, supervisor and courses please contact **Assistant Professor, Meijun Liu:**
meijunliu@fudan.edu.cn

Mandarin Course at the LSE Centre for Language Studies

All instructions, both at LSE and Fudan, are in English. However, students will have the opportunity to take an introductory course in Mandarin during the year at LSE; and there will be further opportunities for Chinese language study during the year at Fudan. Courses at LSE are taught at the [Centre for Language Studies](#). To apply for a language bursary please complete the [online application form](#).

Meetings with Fudan Programme Administration

There will be a number of online meetings with the Fudan IGPP Administration while you are in London. Two of these meetings will be focused specifically on important topics pertaining to your second-year programme and help you prepare for your transition to Fudan.

The first such meeting will take place during Welcome and will cover an introduction to the programme in Fudan, programme requirements, courses, credit transfer and other important activities.

The second meeting will cover information about the Fudan online application process and instructions relating to your progression into the second year.

You will receive confirmation and invites to both meetings after to you arrive at the School.

There will also be regular meetings with Fudan at which you will get updates and important information to prepare you for your second Degree, and some seminars which you may find useful/interesting.

LSE-Fudan Global Public Policy Hub

The LSE-Fudan Global Public Policy Hub supports collaborative research on global public policy, fosters multi-disciplinary cooperation and enhances communication between Fudan and LSE to generate research of global impact. The Hub is a sub-Centre of the LSE-Fudan Research Centre for Global Public Policy, located in Fudan University, Shanghai and is jointly operated by the two universities. The academic events organised by the Hub are open to the LSE-Fudan double degree programme students.

You will be notified of interesting or relevant activities hosted by or undertaken by the Hub through the year.

Please visit the Hub's homepage for detailed information at:

lse.ac.uk/school-of-public-policy/Research/LSE-Fudan

Fudan application for second year

You will need to formally apply to Fudan for your second year through an online application. Please be aware this is only a formality but necessary as part of the registration process. The cost of the application is approximately £90 and the process usually starts in April. You will be given further detail about the application process at the meeting in March.

As part of the application process, you will need:

- Valid Regular Passport Photocopy (Personal Info Page)
- Bachelor's Degree Certificate
- Undergraduate Transcript Record
- Statement of Recommendation Letters
- LSE offer letter or registration certificate
- Proof of No Criminal Record in Chinese or English
- Proof of Financial Capacity or the Statement of Financial Support for International Students of Fudan University

During the application process, if you need any assistance, please feel free to contact the ISPP Administration: igppadmin@fudan.edu.cn

General Timeline for and transition into the second year (including 2nd year dissertation schedule) *

- Online meeting with Fudan Administration (March)
- Online application to Fudan opens (April)
- Fudan Admissions Decisions Communicated (June/July)
- Admissions Package sent to students (June/July)
- Accommodation Booking Opens (July/August)
- Fudan Registration (August/September)
- Course Registration and Classes begin (August/September)
- Choose Thesis Supervisor (October)
- Thesis Proposal defence (December)
- Credit Transfer Application (to be finalised before March)
- Thesis pre-defence (March)
- Thesis Blind Review (April/May)
- Thesis final defence (May)
- Graduation (June)

* Please note that this timetable is provisional. All dates will be confirmed by Fudan. Their Academic Calendar is normally released in the Spring of each year. You will be provided with further clarification on the timeline during the April meeting with the Fudan.

Fudan Dissertation

You are not asked to start working on your Fudan thesis before you start your second year of study, however, although not obligatory it is recommended that you consider your research topic in advance.

Some useful information in relation to your Fudan dissertation:

- The Dissertation will be completed predominantly in English
- 20,000 wordcount
- The wordcount includes all related text (cover page, contents, 3000-character Chinese abstract, English abstract, text of thesis (in English), references and bibliography, acknowledgements, and declaration)
- The Fudan dissertation can be related to your first year LSE dissertation. Content and research questions should be different, but use of some literature, referenced material etc can be shared and arguments may be paraphrased. You should be vigilant to avoid self-plagiarism.

Visa Applications and Accommodation

The **Fudan International Students Office (ISO)** is responsible for the management and coordination of the education of international students, such as admission, accommodation, and visa services.

Website: <https://iso.fudan.edu.cn/isoenglish/>

In the admissions package you will receive from the ISO (usually in sent in July) there will be a guidance about applying for a Chinese visa, including how and when to apply and the required material.

Accommodation at Fudan

The ISO package will also include information about applying for accommodation.

Scholarships

International students have opportunities to apply for the Chinese Government Scholarship that is offered by China Scholarship Council (CSC) for their second-year study in China. These scholarships cover on-campus dormitory, tuition, and a monthly stipend. Only a limited number of students will be qualified to apply for scholarship according to their first-year performance at LSE. The final decision will be made by the CSC. The Institute for Global Public Policy (IGPP) will provide the list of recommended names to the CSC.

The CSC Scholarship application period is between early January and early April every year. You are advised to check the websites for the [CSC website](#) as well as students' country's embassy for updates.

Credit Transfer at Fudan

Transferring core courses:

Students can transfer 0.5 units from LSE courses to replace one corresponding Fudan core course credits (3 credits) if the two courses are deemed interchangeable. Students should provide the LSE course syllabus to IGPP. The IGPP course instructors will need to assess and approve whether the course can be transferred.

Transferring elective courses:

Students can transfer no more than 12 credits of elective courses at Fudan with their LSE course units. All LSE courses are transferable for elective courses. 0.5 unit of LSE courses is equivalent to 3 credits of course at Fudan.

Credit transfer applications are usually submitted in the December following your first-year results (released in November). The credit transfer process is usually completed by March.

Section 7: Your Academic Mentor is your Dissertation Supervisor

At the start of your degree programme, you will be assigned an Academic Mentor (AM), who will also be your dissertation supervisor. Your Academic Mentor will guide and assist you in your learning development and is also available to help with any personal difficulties.

The primary focus of your meetings will be supervision for the dissertation. Your Academic Mentor is also the first person you should contact if you have a problem you wish to discuss with a member of staff. If they cannot help you themselves they will be able to refer you to the correct person.

Please be aware that you are responsible for contacting your Academic Mentor for Dissertation support. If you do not approach your academic Mentor they will not chase you – you need to take the initiative. You will be able to contact and meet with your mentor **until the end of the Spring term**. This is because Academics are expected to spend the spring vacation on research and fieldwork, as well as attending meetings, conferences and taking holidays. Therefore, you **MUST** make sure to meet with them early, and throughout the Teaching year to discuss your Dissertation – and **BEFORE** the end of Spring term.

What should you discuss with your Academic Mentor?

Social Policy students should expect to receive the equivalent of a minimum of two meetings per term with their Academic Mentor (AM) - no less than three hours in total – before the last day of Spring term. These may be individual or as part of their Mentor Group.

Social Policy students should expect to receive comments on draft written work (eg, a draft chapter such as a literature review) by the end of the Spring term. AMs should advise students by when they will need to submit work in order that the AM will be able to provide comments by the end of the Spring term.

- As Supervisor support concludes at the end of Spring term, students are advised to start work on their Dissertation, and discuss this with their AM, from early in the Programme and throughout the teaching year – and not to leave working on their dissertation until the Spring, after teaching.

Please note that it is STUDENTS' Responsibility to contact/book an appointment with their AM if they wish to speak to them on a 1-1 basis.

On the following page is a guide to topics which you may wish to discuss with your Mentor at various points in the year. This is intended as a guide– your pattern of meetings with your Mentor may differ depending on you and your Mentors’ timetable and needs. NB: Mentors will combine AM sessions on specific topics into group sessions for their Mentees, where sensible. However, they will continue to be available for 1-1 advice where students book appointments.

In addition, remember that you have been organised into Mentor groups for the year. You should think creatively about how you could use these productively – are there any topics or subjects it might be helpful to discuss with your peers? As a Mentor group, would you like to discuss any issues collectively with your AM? You are particularly encouraged to use your Mentor groups throughout the year as a source of support and peer feedback in relation to your dissertation.

Academic Mentoring Programme

Autumn term	
Welcome Week Week 1 AMs will meet with the Mentor Groups they are Mentoring during Welcome or Week 1	Half of this meeting will relate to the ‘Meet the Researcher’ activity with which Mentor Groups are tasked in Welcome. The second half of this meeting will include: • Introduction to the AM Role – Academic and Pastoral elements; AM and Mentor Group getting to know each other; availability and how to arrange an appointment • Signpost to other support (eg. Programme Support Office; LSE Life; DWS): Please note – if you believe that you may need an Inclusion Plan* from the Disability and Wellbeing Service (DWS), it is advantageous for you to contact them as early as possible • Your Academic Interests – what would you be interested in studying during the year? Early thoughts on Dissertation topic(s)? Course selection
Weeks 7 – 10 Your Mentor Group will meet with your AM at the end of AT (Time TBC) as part of the SP498/9 ‘Dis-co’ (Dissertation Conference)	• The main purpose of the Mentor Group Dis-Co meeting is to allow members of each Mentor Group to informally discuss their Dissertation progress so far with the Mentor Group and their AM • Your AM may also wish to use this meeting to discuss: Any issues affecting your studies? Positive lessons from this term? Anything which could be worked on/improved next term?
	Please note that in addition to these Mentor Group AM meetings, each student can book appointments with their AM where necessary – in most cases, these can be booked through the Student Hub. Details on how to book appointments with all faculty can be found on the Department’s People webpage .

Winter term Reminder: Your Dissertation Outline form is due in WT Week 1.	
Week 4 – 8 Your Mentor Group will meet with your AM at the end of AT (Time TBC) as part of the SP498/9 'Dis-co' (Dissertation Conference)	Useful topics of conversation may include: • Formative & summative feedback/lessons/issues? • Dissertation Progress so far; Are there any ethical considerations? • Any pastoral issues/wellbeing or academic support that is needed/not being received?
Week 9 – 11 SP498/9 'Dis-Co' 2 Mentor Group-AM meeting	• Mentor Groups and AMs will meet (time TBC) to allow students an opportunity to present on their dissertation to the Group and their AM, and receive feedback at this more advanced stage of their dissertation.
	Please remember that each student can book appointments with their AM where necessary – in most cases, these can be booked through the Student Hub .
Spring term Reminder: if you want feedback on a draft Dissertation Chapter by the end of ST, your AM must have time to read this – check with them when is the deadline they need the Chapter by to provide you with this feedback	
	Things you may find useful to discuss with your AM in ST: • Preparation for exams (if relevant) and summative assessments • Remember the various sources of support through the exam period: Programme Support Office; SSC – if in doubt, Programme Support Office can advise. • Next Steps: what do you want to do after your career? Remember that you have access to the Careers Hub and LSE Life, who may also be able to help you think about your next steps.

***MyAdjustments** are put in place to ensure that all students are able to learn on a level playing field. They are tailored to individual students' needs, to ensure each student receives any support they need. If you feel you may need MyAdjustments due to anything which may adversely affect your ability to study (this can include anything from a physical disability, specific learning disabilities such as dyslexia, or anxiety and mental health issues). Please contact DWS as soon as possible if you feel you may benefit from that support.

Section 8: SP499: International Social and Public Policy Dissertation

You can find lots of information about the requirements for your dissertation on the SP499 Dissertation Moodle page.

Purpose and Content

The Dissertation is an important opportunity for you to study a research or policy problem in depth by reviewing the relevant literature and providing a coherent analysis of your work. Dissertations have often involved original perspectives or empirical

work and some have subsequently been published. Work on the dissertation often complements your studies for the taught options. However, you must bear in mind that the dissertation forms only one quarter of the course requirements and you should therefore allocate your time and effort accordingly.

Dissertations may draw on library-based research and possibly fieldwork (special archives, surveys or interviews etc.). If you choose to include the latter option, you must take care to design your research timetable in such a way as to allow enough time for data processing, analysis and write-up.

Before committing yourself to a particular research strategy or dissertation format, you may wish to consult some of the past dissertations that are relevant to your field. You will find these, where available, on your SP499 Dissertation Moodle page. If you draw on material they contain, this must be adequately referenced in your script.

Never forget that this is a discrete piece of work for a Master's degree and is not a prototype for a Doctoral thesis. You should therefore resist temptations to engage in over-exhaustive literature searches and fieldwork.

Supervision

Students are entitled to **a minimum of two consultations per term with their Academic Mentor (no less than three hours in total) before the last day of Spring Term, at which time supervision ends..**

Students can expect comments on draft written work (e.g., a draft chapter such as a literature review) by the end of the Spring term.

Please arrange an early meeting with your Academic Mentor. Your Mentor's main responsibilities in relation to your Dissertation are to help you define your topic, to guide you in developing your topic, and to comment on a single draft chapter. The draft chapter must be submitted to your Mentor no later than the **end of 6th week of Spring term** if you want to receive any feedback.

From the start of Autumn term, you should discuss your ideas about the dissertation subject, the research methods you propose to use and the research timetable that you envisage to work to. You should continue to regularly meet with your Mentor during the Winter term and Spring term to discuss the form and substance of the dissertation.

Please note: your supervisor may not be a subject specialist in your area, but will be able to offer advice on how to approach and write a successful Social Policy Dissertation. You are also encouraged to approach and discuss your thesis with relevant Academic specialists by booking into their Advice and Feedback Hours throughout the year – please do make sure to take advantage of this opportunity!

Dissertation outline deadline

You should submit your dissertation proposal form through the submission portal which will be available on the SP499 Dissertation Moodle page by **Thursday of Autumn term Week 1.**

Submission

You should submit your Dissertation through the Electronic portal on the SP499 Dissertation Moodle page **before 12pm (Midday) on the deadline date (advertised on the Dissertation Moodle Page).** Please also refer to the **Examination and Assessment** information in the 'Department' section of this handbook for guidance on the submission of summative coursework.

Methodology courses

If you are taking one of the Methodology courses MY400, MY425, MY428 you are permitted to utilise the same topic, ideas, and research design in your dissertation. There might be some overlap between the Methodology course assignment and dissertation methods section in outlining the methods. However, what is written for the dissertation would/should include more critical reflection on the methods/data/ethics, especially in light of the process of carrying out (not just designing) the research. You can cite the Methodology coursework as you would any other source (e.g. Lomotey, 2020), or even quote from it. Please note that unattributed cut-and-paste of text **must** be avoided; previously submitted material will be picked up by Turnitin and flagged for investigation.

Section 9: Your Department

How we share information with you

Email

Email is the primary channel of communication within the School. Your Programme Support staff and members of Faculty will send important information via email throughout the year, for example: **instructions for assessments** and **exams**.

Make sure you check your LSE email account regularly so you don't miss any important emails!

Weekly Briefings

Each week the Department sends a weekly briefing email to all students. The briefing will provide you with Departmental announcements and updates, School-wide news, events, tips on Wellbeing and information on opportunities available to students.

Tip: Make sure you check your spam folder and adjust your settings so you don't miss out any of our emails! If you need help doing this, you can visit the [**IT Service Desk**](#). This is especially important at the start of the year for the weekly briefings.

Department Web Pages

Our webpages are a central source of factual information about the Department, its members and activities. The webpages are updated regularly to display information current to each period within the academic year. For example, in our '**Current Students**' section you will find handbooks, course brochures and advice relating to assessments.

You will also find information on [**Student Academic Representation, and opportunities**](#) available to you in the Department of Social Policy.

Tip: Why not 'bookmark' the Department webpages in your browser, to save you time searching!

Moodle

The **Moodle page** for each course is where course specific information and updates are shared (including course guides, lecture handouts & slides, and reading lists). It is also where you will submit your assessments electronically. You should check the Moodle pages for your courses regularly.

The **Moodle page for the Department** includes sections on Welcome, Wellbeing, Student Community, Student Opportunities and Events.

Tip: Use Moodle as an additional source of information when choosing courses

Student Hub App

You will use the **Student hub** to book appointments with your Academic Mentor and teachers in their Advice and Feedback hours, LSE LIFE advisors and the Programme Support Team. You can also view your timetable through the app as well as collaborate with other students through dedicated groups.

The Department uses the app to announce events and share news so make sure you follow us when you download the app!

Tip: Make sure you download the Student Hub app and follow the **Department of Social Policy page**.

Social Media

The Department of Social Policy uses social media to reach and engage current and new audiences, highlight the work of our academics and create interest in the research, activities and life of the #LSESocialPolicyCommunity and wider LSE community.

 [Instagram](#)

 [BlueSky](#)

 [Linkedin](#)

 [Facebook](#)

 [YouTube](#)

Join the Alumni group to network with our alumni, and to keep up to date with any relevant opportunities: [**LSE Social Policy Alumni**](#).

Student Noticeboards

There is a Departmental noticeboard and an electronic noticeboard outside the Programmes Support Office (OLD 2.03) as well as in the Student Common Room (OLD 2.19).

Section 10: Social Support

Student Common Room

The newly refurbished Student Common Room is in OLD 2.19 and is available for Social Policy students both as a social and as a general study space. To ensure that the room is secure, it is fitted with a lock which you can access open with your Student ID Card. Please do not give access to anyone from outside the Department. We encourage you to use this space to get to know one another and we will hold some Departmental events for you within this space occasionally, too. If you need to contact anyone about any issues with the Common Room, please get in touch with your Programme Support Team by emailing socialpolicy.msc@lse.ac.uk

Social Policy MSc Away Day

As an MSc student in the Department of Social Policy you benefit from an enhanced programme of events and activities which will add to your learning. This includes a compulsory event on **Friday Week 6 of Autumn term (Reading week)** which provides an important integrative and social function in the Department's MSc programmes. The event will be held at the Barbican! Further details of the event will be confirmed in Autumn term.

Mentor groups

LSE is defined by excellent research and high-quality education, but also by the opportunity it gives you to make valuable connections and friendships which will not only support you this year, but will last long after you graduate. In the Department, an important way that we support the development of these friendships and support networks is through the creation of Mentor Groups – small groups of students who work together through the year on a variety of Departmental academic and community activities. Mentor groups are central to the Social Policy Departmental community. You will receive further information along with your Mentor group allocation in a dedicated Welcome introductory session.

Section 11: Financial Help and Support

The Department operates three funds to support students who experience temporary economic hardship during their studies:

Titmuss Meinhardt Hardship Fund

Available to all Social Policy students in cases of unforeseeable financial need or emergency and where students have been unable to obtain assistance from the School's Financial Support Office.

Contact: Damian Roberts, Department Manager: d.p.roberts@lse.ac.uk

MSc Conference and Research Fund

To provide up to £100 to help with the cost of attending events such as workshops or conferences, or with the cost of research-related activities such as travel or participant interview expenses. Applicants should provide a statement of not less than 250 words detailing how attendance or activities would benefit their studies and/or dissertation research. Successful applicants will also be required in due course to provide a short testimonial detailing how they benefitted from the funding.

Contact: Damian Roberts, Department Manager: d.p.roberts@lse.ac.uk

Eleanor Will Fund

To provide up to £300 to current Social Policy students to assist with travel abroad for opportunities connected with their programme of study (BSc, MSc or PhD). Applicants should submit a one-page outline to explain the purpose of the travel, how it relates to their programme of study, and the use to which the funds will be put. Legitimate costs include direct travel costs and accommodation, but not conference fees. NB Funds cannot be used to fund trips to the applicant's normal country of residence and students cannot receive more than £300 in total from the fund during the course of their programme of study. Successful applicants will be required to submit a report of their trip (500-1000 words) within four weeks of its completion.

Applications can be submitted at any time and will be reviewed on a rolling basis.

Contact: Damian Roberts, Department Manager: d.p.roberts@lse.ac.uk

Section 12: Department Committees and Student Representation

Each term, a number of Departmental meetings allow staff and students the opportunity to meet and discuss issues relating to their programme of study as well as wider School issues.

MSc Programmes Forum

Academic Representatives from the programmes are elected in the first two weeks of Autumn Term to represent the views of their peers at their departmental MSc Programmes Forum. The Social Policy MSc Programmes Forum is the Department equivalent of what some other Departments call 'Staff Student Liaison Committees' (SSLCs) and has the same role. The MSc Programmes Forum meets once in the Autumn and once in the Winter term and is jointly chaired by the Deputy Head of Department, Teaching and a student rep. These meetings address Departmental and School issues, mainly focussed on matters relating to the student teaching and learning experience.

Normally in attendance are the Programme Directors, core course Convenors, the Programmes Support Team and Student Academic Representatives.

Student representatives are also encouraged to attend the Department Teaching Committee to ensure that the student voice is heard when issues affecting your teaching are discussed.

School Committees

The Department Representative will be elected alongside the Student Academic Representatives at the beginning of Autumn term.

Section 13: Student Community and Opportunities

There are a number of opportunities for Social Policy students to be involved with the Department and its activities. You can find further information about these opportunities on the [**Social Policy website**](#).

Social Policy Green Team

Are you interested in sustainability? Are you keen to promote green practices and initiatives? Then get involved with the Social Policy Green Team! As part of the team, you'll have the opportunity to create, initiate and lead on green-themed projects throughout the year with involvement from staff, faculty, and students in the department.

Student Academic Representation

Please see the above section on MSc Programmes Forum for further information about the role of a Student Academic Representative in the Department. Students interested in the position will find out more information about how to apply, during Welcome week.

How can I get involved?

An active student body taking part in these opportunities really makes a difference to the experience for you and your fellow students, so if you think you have something to offer – or want to get involved and gain some valuable experience – please do consider taking part. We'll also be holding a session and circulating an online form, as part of your Welcome, to enable you to learn more and take part in these opportunities.

Other Opportunities

Language Bursaries

The Department provides you with the opportunity to take a non-degree language at LSE's **Centre for Language Studies**. The Department offers **a limited number of part-funded bursaries** to students in the department who wish to study a language while at LSE. Learning a language can give you a fantastic opportunity in the workplace in today's global society and can help you in your personal development.

You can find out more about how to apply [here](#).

Teaching

Lectures are an integral part of your programme and will introduce themes and ideas on a particular topic before the corresponding **seminar**. Every lecture at the LSE is open to all students, subject to space in the lecture theatre, so if you would like to attend additional lectures out of interest, and your timetable permits, do take advantage of this opportunity*. **Attendance at seminars is compulsory and recorded.**

Section 14: Teaching and Academic Support

Advice and Feedback Hours

The purpose of “advice and feedback hours” is to give students regular access to teachers. This gives you the opportunity to talk to your course teachers on a 1-2-1 basis. If you need clarification on a particular topic, are having any difficulties with the course, or if you are interested in their particular field of study and want to know more, you can speak to the course teacher during their advice and feedback hour. You can speak to any teacher during their advice and feedback hour, even if you are not a student on one of their courses.

All teachers hold an advice and feedback hour at least once a week during term time. Some teachers operate a drop in session, whilst others ask you to book an appointment via LSE for You. You can check a teacher’s advice and feedback hour on the **People pages** of the departmental website, on the sign outside their office door and, for some courses, on Moodle. If you are unable to attend a particular advice and feedback hour, for example because of a timetable clash, you can contact the individual teacher to arrange an appointment at an alternative time.

Academic Mentor

At the start of your degree programme, you will be assigned an Academic Mentor, who is also usually your dissertation supervisor. Your Academic Mentor is your tutor and will guide and assist you in your learning development and is also available to help with any personal difficulties.

The Academic Mentor’s responsibilities include:

- Providing academic guidance and feedback on students’ progress and performance and to discuss any academic problems they might experience.
- Providing pastoral support on non-academic issues and referring students to the appropriate support services within the School.
- Implementing the provisions outlined in Teaching and Learning Adjustments (TLAs) for disabled students, in liaison with the School’s Disability and Well-Being Service.
- Advising /approving course selection.
- Informing the Programme Manager and Departmental Tutor and School of any student whose progress is not satisfactory.

You should make arrangements to speak to your mentor and aim to do so at least twice each term, or more frequently if you are having particular difficulties. You can also use the advice and feedback hour system to keep in touch with your Academic Mentor. Any issues that cannot be resolved with your mentor can be taken to your Programme Manager.

Please refer to the [**Academic Mentoring and Dissertation Supervision in the Department of Social Policy**](#) webpage for more information.

Other Support For You

You can speak to the Postgraduate [**Programmes Support Team**](#) at any time if you need support throughout your studies.

The team is based in the Programmes Support Office (OLD 2.03). The office is open 10am-4pm on Monday, Tuesday, Thursday and Friday, and please amend to 12-4pm on Wednesdays (other than during School Closure periods).

You can arrange an appointment to speak to a member of the team via the Student Hub or alternatively by visiting the Programmes Support Office in person.

Further details on how to book an appointment and office opening hours will be provided as part of your programme induction.

You can also contact the team by email: [**socialpolicy.msc@lse.ac.uk**](mailto:socialpolicy.msc@lse.ac.uk).

Section 15: Examination and Assessment

Formative Assessment

Formative (non-assessed) coursework is designed to prepare you for the summative (assessed) work that you will complete later in the course. Formative assessment might include essays, problem sets, presentations or mock examinations. The purpose is to provide you with an opportunity for feedback on your work. All courses include some kind of formative assessment and you will be given full information about the required piece(s) of work by the course convener and/or your Programme Administrator.

Summative Assessment

Summative assessment counts towards your final degree award. Summative assessment may take the form of an in person or take home examination, an essay, a presentation or a combination of two or three of these modes of assessment. The modes of summative assessment are set out in each course guide and you will be given full details of your summative assessment by the relevant Programme Administrator.

Extensions

If you believe that you will be unable to meet a summative assessment deadline because of illness/injury, bereavement or other serious personal circumstances, and you need to request an extension to the submission deadline, you should do so as early as possible and in advance of the deadline.

Extensions will be granted only where there is good cause backed by supporting evidence (e.g. medical certificate), and where the circumstances are unforeseen, out of the student's control and proximate to the submission deadline. All evidence must be in English, or accompanied by a certified translation.

Useful information outlining the School's Extension Policy is available [here](#).

You can find further information on the Department's extension process [here](#)

Exceptional Circumstances

Exceptional circumstances are those which you feel may have had a significant impact on your academic performance during an exam or other summative assessment. You can find more information [here](#).

Penalties for the Late Submission of Summative Coursework

If you do not submit a piece of summative assessment by the set deadline (or extended deadline as appropriate), a late penalty may apply. For assessments of longer than three weeks, five marks (out of 100) will be deducted for coursework submitted within 24 hours of the deadline and a further five marks will be deducted for each subsequent 24-hour period (calendar days, not just working days) until the coursework is submitted. Late penalties may vary depending on the type of assessment (e.g. 24 hour or one week take home assessments), full information on the range of penalties is available [here](#).

After five working days, coursework will only be accepted with the permission of the Chair of the Sub-Board of Examiners.

Word Limits

Any written work for Social Policy courses will specify a word limit and you should not go beyond this when writing your work.

If a piece of coursework exceeds the set word limit, the markers will make a judgement based only on the content up to the word limit.

Other Departments may have different rules on word limits, so do be sure to check these if you are taking courses from Departments outside of Social Policy, before you start your work!

Section 16: Social Policy: Departmental Assessment and Feedback Strategy¹

Section 1 – Assessment Aims

Social Policy is an interdisciplinary and applied subject concerned with the analysis of different societies' responses to inequality and social need. The Department's teaching and assessment approach builds on LSE's commitment to connecting theory with empirical research, and the application of research to 'real world' policy problems.

Learning outcomes

Upon successful completion of their studies, students will be able to:

- Outline and evaluate contemporary concepts and empirical evidence in relation to the main areas of social policy formulation and implementation
- Critically evaluate the suitability, implications and effects of social policies in different social sectors and across different national contexts
- Construct persuasive, theoretically informed oral and written arguments in relation to key debates in contemporary social policy
- Apply a comprehensive understanding of social policy as a multi-disciplinary field of study to the analysis of social problems
- Understand and deploy basic qualitative and quantitative research skills in the study of social policy problems

Each degree programme also has specific learning outcomes linked to QAA standards.

Each programme has a conceptual "spine" of core courses which, in combination with option courses, ensure the full range of learning outcomes.

Section 2 - Assessment Process

The Department provides a combination of different assessment methods within each programme. This approach ensures students develop the relevant knowledge and skills, and allows the Department to test their learning effectively.

Formative assessment develops the knowledge and skills that students come to LSE to acquire. *Formative* assessment is a compulsory part of every course and includes: class/seminar discussions and presentations; essays; problem sets; dissertation proposals and mock examinations. Formative assessment does not count towards the calculation of a student's overall degree classification.

¹ This document has been drafted with reference to the LSE Academic Code

Summative assessment tests whether students have acquired the learning outcomes that are described above. This is achieved through a variety of methods including closed book and take-home examinations, presentations, coursework and dissertations. *Summative* assessment counts towards the calculation of a student's overall degree classification.

Marking

A marking framework is used by markers for all summative and formative assessment. The Departmental marking framework is included in each programme handbook and is also discussed in classes/seminars. Several courses also have course specific marking frameworks, which you will find on the course's Moodle page. These are designed to help you as much as possible when planning your work.

All courses in the Department mark Summative work by Double Blind Marking (where two markers independently mark the work and agree a common mark); by Sighted Second Marking (Where a second marker marks the work with sight of the first marker's mark and comments, and then both markers agree a mark); or by moderation (where a moderator looks at a sample of work to check the robustness and consistency of marking).

Whatever form of marking is used, an external examiner also receives a sample of scripts and other assessed material from the top, middle and bottom of the range in order to confirm that internal marking has been consistent and of an appropriate standard. This provides a third level of assessment scrutiny.

Extremely careful consideration is given to ensuring that appropriate methods of assessment are used on each individual course and all proposals must be approved at an All Department Meeting. Once approved, final consideration is given by the School's Undergraduate or Graduate Studies Sub-Committee.

Plagiarism

The Department ensures that the School's rules on plagiarism are clearly communicated to all students. Each programme handbook clearly sets out the Department's policy on plagiarism, signposts students to the School's guidance, and provides examples of what constitutes plagiarism and how to avoid it. Additional sessions that cover plagiarism are incorporated into the teaching for dissertation courses.

Section 3 – Feedback

What is feedback?

- Feedback is information about students' work that they can use to make improvements.
- Feedback is an integral part of the teaching and learning process.
- Feedback is a two-way process which is most effective when students engage with it fully.

The Department is committed to providing timely, regular and constructive feedback to students and promotes 'feedback literacy' among all its teachers and students. We ensure students understand the full range of feedback methods and opportunities available to them. This encourages them to engage actively with feedback, by learning to recognise when feedback is being given, the different forms it takes, and by understanding how best to use it.

When and how is feedback given?

Feedback is given in accordance with the School's Academic Code and the Department makes every effort to ensure that it is delivered in a timely and effective manner.

Formative

Feedback on *formative* work is normally provided within three term-time weeks of the submission deadline. It is provided to support and foster student learning, and to prepare students for *summative* work. Assignments are returned to students with constructive commentary and guidance for future progress. Feedback is provided in two main forms: in writing (normally using the standard form, including a mark), or orally (students are expected to take notes).

Students are also provided with additional feedback opportunities at Academic Mentor meetings and Advice and Feedback Hours.

Summative

For assessments set in Autumn or Winter term: feedback is normally provided to students within four term-time weeks of submission and, where possible, prior to future *summative* assessment. Along with written feedback, a provisional mark is provided.

For assessments set in the Summer term: for students whose degree programme is continuing, feedback is normally provided within four weeks of the beginning of the following term. **Please note:** no feedback will be given for Summative assessments set in the Spring term, if the students' concerned are not continuing into the next year (i.e. are not Part Time, or do not need to resit an assessment).

Final year graduates and undergraduates will receive feedback on their dissertations within four weeks of the beginning of the following term in which the dissertation was submitted.

Further guidance on how to make the most of feedback to improve future performance can be found on each course's Moodle page.

Support on Using Feedback

Here is a link to a [helpful guide](#) on how to make the most out of your feedback. You will also find this on each Moodle course page for your courses.

Section 4 – Communication

Students are informed of the guidelines on assessment and feedback through the following platforms:

- This Departmental Assessment Strategy document is included in each programme handbook.
- This document is also circulated to student representatives at the AT SSLC meeting (the minutes of which will be available to all students); and is also provided to External Examiners.

The main formal opportunities students have to receive and discuss feedback are

- Seminar Meetings
- Advice and Feedback Hours
- Via email
- Via Moodle

Students are expected to:

- Understand when feedback is being given and what it means
- Ask the person giving feedback for clarification if it is not clear
- Discuss feedback with fellow students – peer review can also be useful feedback

Degree Classifications

Degrees are awarded according to the classification scheme applicable to the year in which you started your programme. These schemes are applied by the Boards of Examiners when they meet to ratify your results. You can find the classification schemes at lse.ac.uk/calendar. The scheme of award for a taught masters degree (four units), which is applicable to MSc ISPP students is available [here](#).

Section 17: Academic Integrity and Academic Misconduct

The Department and the School takes Academic Integrity seriously, and Academic Misconduct - including Plagiarism and unauthorised use of Artificial Intelligence - can have serious consequences.

Plagiarism

The School section provides some information regarding plagiarism. Please read the information in this section carefully. It is important to understand the School's definition of plagiarism and to avoid plagiarising in your work, as the School and Department take this very seriously.

We want to support you to avoid plagiarism. Here are some ways in which you can find more information on study skills, citation and referencing:

The [LSE Life webpage](#) and [Moodle](#) site, or speaking to your Academic Mentor. They are there to help!

You can also find further help and information via the [Department's webpages](#).

Detection of Plagiarism

Examiners are vigilant for cases of plagiarism and the School uses plagiarism detection software to identify plagiarised text. Work containing suspected plagiarism may be referred to an Assessment Misconduct Panel, which may result in severe penalties. In a case of suspected plagiarism, the Department will act according to the School's Regulations on Assessment Offences.

The Department of Social Policy does permit you to run your work through a plagiarism detection software called 'Turnitin' before you submit, so that you can make sure that you are not inadvertently plagiarising in your work.

More information can be found on course Moodle pages

Use of Artificial Intelligence

Please be aware that unauthorised use of Artificial Intelligence constitutes Academic Misconduct, and will be treated seriously according to the School's regulations.

Each course in the Department of Social Policy includes on its Moodle page a statement as to whether AI can be used in that course, and guidance as to how it can be used if it is allowed. You must adhere to this guidance – not doing so will also constitute Academic Misconduct.

Please note: as the decision on whether AI use is allowed (and to what extent) on each course is made by the Course Convenor, please make sure that you adhere to each course's guidance for assessments on that course.

Please also note that what is allowed in other Departments/courses elsewhere in the School may differ -if you are taking an external course, please make sure to check what is their policy on AI use and make sure to follow this for assessments in those courses.

Marking framework: MSc programmes

This is a guide to the principal criteria used for the marking of both assessed and 'formative' written work. The descriptors given are merely illustrative of the standards that markers apply. Overall marks/grades awarded will reflect an overall judgement, based on all criteria, but will additionally take account of the extent to which students have substantively answered the question(s) set.

Class	Mark	Criteria			
		Structure and clarity of expression	Awareness and use of literature	Knowledge base and understanding	Argument/critical analysis and conclusion
Distinction	80+	Exceptionally well rounded argument; persuasively written	Excellent use of extensive literature well beyond the reading list which is impressively exploited	Excellent understanding and outstanding exposition of relevant issues; impressively well informed; insightful awareness of nuances and complexities. No major room for improvement, given constraints of essay form	Argument marshalled in an outstanding manner with excellent integration of theory/conceptual framework; searching questioning, unbiased approach; unambiguous evidence of original and independent thought
Merit	70-79	Excellent, logically developed argument; very well written	Very good use of wide range of literature to support argument / points	Very good understanding and exposition of relevant issues; well informed; good awareness of nuances and complexities	Well constructed arguments with appropriate use of theory/conceptual framework; questioning, unbiased approach; clear evidence of independent thought; good demonstration of originality of thought
	65-69	Very well developed argument; well expressed	Good use of wide range of literature to support arguments	Clear awareness and exposition of relevant issues; some awareness of nuances and complexities but tendency to simplify matters	High standard of critical analysis with appropriate choice and use of theory/conceptual framework; some questioning of literature
	60-64	Logically presented argument; clearly expressed	Adequate use of standard literature to support arguments	Shows awareness of issues but lapses into description in places	Appropriate choice and use of theory/conceptual framework; attempts analysis
Pass	50-59	Poorly developed argument; meaning not necessarily or entirely clear	Use of narrow range of standard literature to support arguments	Work shows understanding of issue but at superficial level; no more than expected from attendance at lectures; some irrelevant material	Weak understanding or use of chosen theory/conceptual framework; too descriptive and/or analysis too superficial
Fail	40-49	Confusingly structured and argued; meaning unclear	Relies on superficial repeat of lecture/seminar notes	Establishes a few relevant points but superficial and confused; much irrelevant material	No choice or use of theory/conceptual framework; essay almost wholly descriptive; no grasp of analysis with many errors and/or omissions
Bad Fail	<40	Lacking structure and meaningful argument; difficult to understand	No significant reference to literature	Very little or no understanding of the issues raised by the topic or topic misunderstood; content largely irrelevant	No choice or use of theory/conceptual framework; essay almost wholly descriptive; no grasp of analysis with many errors and/or omissions

NOTE: marks <30 signifies work that is significantly flawed or seriously inadequate; marks <15 signifies work representing only a minimal or no serious attempt.

Section 18: LSE beyond your department

- 67 Own your learning
- 69 Centre your self
- 71 Build your community
- 74 Broaden your horizons
- 76 Make your impact
- 79 Expand your skills
- 81 Shape your future

LSE beyond your department

Your department is at the heart of your LSE experience – your academic home. But it's only one part of a large, dynamic university full of opportunities to learn, connect, and grow. It can take time to explore what's available, and you're not expected to do everything. Your experience is yours to shape.

This section of your handbook introduces that wider offer and is structured around a set of themes covering different aspects of your LSE experience – from developing as a scholar and looking after your wellbeing to building connections, broadening your horizons, and shaping your future. You can explore each of these themes further with [LSE LIFE](#) – your one-stop shop for opportunities beyond your programme. There's no need to have it all figured out – just start where you are, follow your curiosity, and take opportunities that feel right for you.

You will also see mention of [LSE Students' Union](#) (LSESU) – the student-led organisation that represents all LSE students. It is independent to LSE, and organises student-run societies, activities, and campaigns.

LSE LIFE – your personal guide to LSE

So many opportunities, so many choices, so much to explore. Think of LSE LIFE as your personal guide to LSE – helping you find the skills, experiences, and opportunities that feel right for you during your time with us. LSE LIFE is here for you throughout the year – both online and on the Ground Floor of the Library:

- The **LSE LIFE events and opportunities listings** are regularly updated, central listings of all the extracurricular happenings across LSE. You can filter by provider and theme, or just browse and see what strikes your interest!
- **LIFE Conversations** are one-to-one appointments providing personalised guidance about student life, settling into London, or making the most of what's on offer. LSE LIFE advisers can help clarify your goals, make a plan for your next steps, and help you find the teams and programmes that best fit your interests.
- The **LSE LIFE space** is a bright, open space located right on the ground floor of the Library. Perfect to study by yourself or with friends, attend a workshop or event, or drop by at the reception with any questions you might have.

Own your learning

Shape your intellectual journey – whether for success in the classroom or world-changing research

Studying at LSE is probably unlike anything you've done before – and that's part of what makes it exciting. You'll encounter ideas that challenge your assumptions, arguments that demand a response, and questions that don't have easy answers. You'll be expected to read critically, write persuasively, question evidence, speak up in classes and seminars, and develop a point of view that is genuinely your own. It can feel like a shift from being told what to think to working out how to think: reading independently, testing ideas, and deciding how to use your time. Lectures and seminars matter, but much of your progress happens in the hours around them.

That's a lot to ask. It's also one of the most rewarding things you'll ever do. You're not expected to arrive knowing how to do all of this, and you won't get there simply by putting in more hours. A common misconception is to confuse effort with progress: reading endlessly or spending long days in the library can feel productive without making your thinking much clearer. Progress tends to come from smaller, more deliberate habits – reading selectively, turning notes into arguments, and testing your understanding in discussion with your peers.

Your department, teachers, and academic mentor are your first point of contact – but there's extensive support beyond that. Across LSE, specialist teams can help you at every stage of your academic journey.

- **Learning Lab** is there for you at every stage of your learning journey – from finding your footing to thinking more critically, writing more convincingly, and getting more from your reading. **Workshops** run throughout the year on a variety of topics such as academic writing, critical reading, research planning, exam preparation, dissertation writing, and using AI tools critically and effectively. You can also book **one-to-one sessions** with Learning Lab Study Advisers to discuss specific aspects of your work.
- **LSE Library** is a central part of your learning environment, providing access to course readings and extensive research collections, alongside a wide range of study spaces. From Winter Term, it's open 24 hours a day. You can also discover alternative study spaces across campus with the **Facilities Guide**. Each department also has a **dedicated librarian** who can help with any Library questions, such as finding, evaluating, and referencing resources.

- The **Centre for Language Studies** offers free **English for Academic Purposes (EAP)** courses in Autumn and Winter Terms. EAP focuses on the skills required to perform in an English-speaking academic environment across the core subject areas you will encounter during your time at LSE.
- The **Department of Methodology** runs research design and methods courses, required on some master's programmes and optional on others. It also offers **one-to-one support** and **short courses** to complement your learning and support you through your dissertation and other research projects.
- **Digital Skills Lab** can support you in developing key digital and data skills that underpin many courses and assessments.

Using these resources early can help you find your footing more quickly. It's also worth coming back to them at key points in the year – for example, before your first summative assessments or when you start working on longer pieces of research. Over time, you'll develop a sense of what works best for you – whether that's how you organise your study, approach your reading, or make use of different kinds of support.

Three ways to start

- Join a Getting Started with the Library session during Welcome to learn more about what it has to offer!
- Attend a **Learning Lab session** in your first fortnight.
- Find a study space that works for you – the Library, a café, or your hall's common room.

Discover more – **LSE LIFE: Own your learning**

Centre your self

Prioritise your wellbeing, adapt to change, and build strength from the inside out.

Looking after yourself isn't a distraction from your studies. It's the foundation on which you build everything else, and it means different things at different times. Sometimes it's about building habits that help you stay on track: managing your workload, knowing your limits, finding routines that work for you. Sometimes it means genuinely switching off – a yoga session, a workout, or a mindful break. Sometimes it means recognising that you need support and knowing how to find it.

Unwind and recharge: make time to relax and enjoy yourself

Whether you're deep in revision or simply spending time on campus between lectures and seminars, it's important to make space to relax, recharge, and enjoy yourself – even during the busiest periods of the academic year. From sports and wellbeing sessions to creative arts and crafts events: explore upcoming activities and events with the [Unwind and recharge](#)-filter on the [LSE LIFE events](#) listing.

You don't have to measure whether an issue is "serious enough" to raise with someone. A better question is whether it's making it harder for you to work, think clearly, or stay steady. If it is, that's enough reason to seek support – and early help usually gives you more options than late help. The following teams are here for you at every stage:

- The [Student Wellbeing Service](#) offers [wellbeing appointments](#), counselling, workshops, and guidance when you're struggling or simply unsure what kind of support would help. They can help you talk through stress, anxiety, low mood, loneliness, homesickness, or a situation you're finding hard to manage. For students with disabilities, long-term health or mental health conditions, or specific learning difficulties, there's also a dedicated [Disability and Mental Health Service](#).
- [Peer Supporters](#) are trained student volunteers who help by offering a non-judgemental, confidential listening space to any LSE student. They will listen, and if you wish, can help you explore options for how to move forward. Any student can speak to any peer supporter and reaching out is a chance to build connections and speak to students you might not otherwise meet.

- The [Faith Centre](#) offers spaces for worship, quiet reflection, chaplaincy, and interfaith activity for all students, whether faith is central to your life or not. For some it's a place of worship, and for others it's a calm, reflective space. They offer weekly [Ashtanga Yoga and Tai Chi sessions](#) throughout the year. The [Faith Centre Director and Chaplain to LSE](#), Revd Canon Prof James Walters, offers confidential support regardless of your background or beliefs. You can also directly contact our Muslim, Catholic, Jewish, and Orthodox [Associate Chaplains](#).
- The [Halls Wellbeing Team](#) can provide wellbeing support and guidance if you live in LSE halls of residence. Check the [Halls Life platform](#) for more halls wellbeing information and resources.
- [LSESU Sports](#) has plenty of options to get involved, from the gym and drop-in sessions to sports clubs, the inclusive sport programme, and departmental sport. Staying active is a great way to support your wellbeing, lift your mood, and ease your stress – whether you're trying something new or getting back into a routine.

Three ways to start

- Make time to attend one [Unwind and recharge](#)-event that strikes your interest.
- Pick up a wall calendar from the [LSE LIFE reception desk](#) to help you stay organised.
- Take a walk through Lincoln's Inn Fields between lectures or seminars.

Discover more – [LSE LIFE: Centre your self](#)

Build your community

Get involved, connect with others, and make the most of what LSE and London have to offer.

LSE is a genuinely global institution. Your peers come from every corner of the world, bringing with them different perspectives, experiences, and ways of understanding the challenges that define our time. You'll meet people whose beliefs, backgrounds, and ways of seeing the world differ profoundly from your own. That's one of the most valuable things LSE offers – and it asks something of you in return: the willingness to listen and to engage thoughtfully, even if that means experiencing the discomfort of genuine difference. An LSE education doesn't just consist of lectures and assignments: it's also built from conversations, collaborations, and debates that don't appear on any transcript. Sometimes those conversations will challenge you. Sometimes they'll change you. The relationships you build and the communities you find here are fundamental parts of your experience and your education.

Building that community takes a little intention – showing up, trying things, and being open to connections you didn't necessarily expect. Societies, student groups, volunteering, and School-wide events are often the easiest routes in, but different things work for different people. Find what feels right for you, and don't try to do everything at once: one society, one regular event, or one study group will do more for your sense of belonging than signing up to many things and struggling to commit to any of them.

Find your people at LSE

Whatever your background, interests, or experiences, you are at home in the LSE community.

One of the best ways to meet new people is to connect over something you already share. The [Find your people](#)-filter on the LSE LIFE [opportunities listings](#) is designed to help you do just that. It gathers activities built around a common background, identity, or interest – covering cultural and national societies, sports clubs, music groups, and faith communities. You'll also find peer mentoring for undergraduate and neurodivergent students, [Professionals at LSE](#) events for students with five or more years of work experience, alumni mentoring for ethnic minority students, tailored programmes for female, disabled, and LGBTQIA+ start-up founders, and an [LGBTQIA+ role models directory](#), among many other events and programmes. The School also hosts celebrations for Black History Month, LGBT+ History Month, and Women's History Month, amongst others. You will be able to find many of these online on the EDI calendar and on campus in the Hall-Carpenter Room – a dedicated space to cultivate an environment of inclusivity, available for student use.

Creating an inclusive experience for every student is a core priority for the School. The [Equity, Diversity and Inclusion \(EDI\)](#) team actively works with the community to deliver action plans that advance equity and inclusion for students with protected characteristics and those who are underrepresented at the School through targeted work and initiatives. There is also work to foster good relations and positive dialogue across our diverse School community which you can find out more about on the [Campus Relations webpages](#).

Last but not least, don't forget London itself is part of the offer, too! Our campus is located right in the centre of the city – moments from the River Thames, Covent Garden, the Royal Courts of Justice. Make time to explore! You can find detailed accessibility guides on [AccessAble](#), that cover all buildings on campus and include route maps.

- **LSESU Societies** are one of the main ways to meet fellow students through shared interests, identities, and activities. With over 200 individual societies covering academic interests, cultural identities, sports, politics, media, the arts, and more, they are great for getting together with others on a regular basis.
- The **Faith Centre** is home to the LSE's diverse religious activities, transformational interfaith **leadership programme**, and a quiet, reflective space for both students and staff.
- **LIFE in London** is a series of free events and trips designed to connect you to London, fellow students, as well as some of the great experiences the city has to offer. From concerts and workshops to heritage-themed trips, there is something for everyone.
- **Halls Life** is the platform for student life in LSE accommodation, offering events, student-written guides and experiences, and key information to help you make the most of your time in halls.

Three ways to start

- Check out the Discover LSE Fair and the LSESU Welcome Fair in Autumn Term, and the Welcome Back Fair in Winter Term – the offer is vast!
- Explore a London neighbourhood you've never been to.
- Talk to someone on your programme you haven't talked with before.

Discover more – **LSE LIFE: Build your community**

Broaden your horizons

Develop a global perspective and engage with ideas, cultures, and questions that challenge and inspire you.

LSE is a place where people come together to debate, question, and explore the major issues shaping the world. Your degree is part of that conversation, but the intellectual life of the School extends far beyond your programme. Public events, lectures, discussions, and research talks give you the chance to encounter ideas, arguments, and perspectives that sit alongside – or sometimes challenge – what you study in class.

You don't need to attend everything. In fact, it's usually more valuable to engage selectively and thoughtfully: follow a question that genuinely interests you, explore a topic just outside your subject, or listen to people whose views differ from your own. Sometimes a single event or conversation is enough to change how you think about an issue, or to introduce you to a field, debate, or perspective you want to pursue further.

- **LSE Events** hosts one of the most active public lecture programmes of any university in the world. From heads of state and Nobel laureates to leading researchers, journalists, and policymakers: this is your chance to hear from some of the most influential figures in the social sciences first-hand. You can join the debate by posing your questions to the panel and even possibly meet the speakers at a book signing or reception after the event.
- **LSE Research Showcase** is a series of regular coffee-break research talks on campus, with free hot drinks and pastries, showcasing some of the fascinating research from our academic community.
- **World Cafés** are your chance to discover and debate important questions and ideas alongside students, teachers, researchers, alumni, and others from the LSE community. Short presentations from leading LSE researchers are followed by informal round-table conversations with scholars and other students.

Discover more – [LSE LIFE: Explore the big questions](#)

Broadening your horizons also means more than studying global topics though: it means learning from the people around you and becoming more curious about lives and perspectives beyond your own. The opportunity is to leave LSE not only with expertise in your subject, but with a wider frame of reference: more aware of complexity, more comfortable with uncertainty, and more connected to the world beyond your own experience.

- **CIVICA** is the [European University Alliance of the Social Sciences](#), of which LSE is a member alongside nine other European universities. Through CIVICA, you can take part in a range of activities and programmes, including immersive learning experiences abroad and online collaborative courses.

The world at your doorstep

You don't need to travel to encounter different cultures and perspectives at LSE: you can also engage with our international community right here on campus! [The LSE Language Community](#) – run by the Centre for Language Studies – offers bitesize speaking sessions with native speakers, weekly conversation circles, and tandem learning partnerships. The LSESU's [national and cultural societies](#) host events, food and film nights, and celebrations throughout the year. The [Faith Centre](#) offers interfaith events and activities open to students of any background, where you can learn about and connect across different cultures and traditions. Their [Beecken Faith and Leadership programme](#) is designed to help you develop key skills in reasoning and leadership in the context of engaging with religious difference, covering diverse topics, including the climate crisis and geopolitical conflict.

Discover more – [LSE LIFE: Connect across cultures](#)

Three ways to start

- Attend a [public lecture](#) on a topic completely outside your degree and note one idea or name to follow up afterwards.
- Join a [LSE Language Community](#) session or find a tandem learning partner.
- Visit the [Faith Centre spaces](#) – if you have a moment, why not take a break in The Cave, their silent room for meditation, prayer, and reflection?

Discover more – [LSE LIFE: Broaden your horizons](#)

Make your impact

Discover what matters to you and contribute to creating change, big or small, at LSE and beyond.

LSE's approach to social sciences is understanding the causes of things *for the betterment of society*. After more than 130 years, that tradition still flourishes in the research produced here, in the public debates hosted here, and in the careers of the people who've studied here. It's also alive in what students do while they are here.

We invite you to ask yourself: what are the causes that matter to you? Meaningful action isn't necessarily about doing more. Often, it's about committing to something you care about deeply and staying with it long enough to understand it properly. The value of that kind of involvement lies not only in what you achieve, but in what it teaches you – about responsibility, about other people, and about your own limits.

- The **Volunteer Centre** is there to inspire and empower you to volunteer for causes that you are passionate about during your time at LSE. They provide a range of long term, short term, and one-off opportunities to suit your interests and schedule. You can also drop in to their space in Lincoln Chambers or book an appointment to talk through what might suit you.
- **Sustainable LSE** is the School's sustainability team, where you can learn about contributing to sustainability on campus and in residences while building new skills – whether you want to come to a one-off event or volunteer with the team more regularly. Their activities range from beekeeping and wildlife workshops to carbon literacy training and sustainability auditing.

Discover more – **[LSE LIFE: Change the wider world](#)**

Impact at LSE doesn't only happen outside the School. It can also come from helping to shape the institution itself, from contributing to discussions about how LSE operates to simply showing up for another student who needs support. Alongside sharing your feedback at [departmental level](#), you can also take part in a wide range of School-wide groups and programmes.

- [LSESU Student Voice](#) gives you countless opportunities to make yourself heard in what is one of the most politically active Students' Unions in the country – whether that's getting involved with ongoing [campaigns](#) or starting your own, submitting a [policy proposal](#), or standing in the [LSESU leadership elections](#).
- [Student Education Panels](#) are a chance to share your perspective and discuss your LSE experience with peers from diverse backgrounds, programmes, and levels of study, helping to inform processes and improvements across the School.

Discover more – [LSE LIFE: Shape your school](#)

Support your peers

Your greatest impact on other students' experience at LSE can sometimes take place on a personal level, through supporting fellow students and helping to build a strong, welcoming community. There are several formal programmes through which you can support your peers:

- The **Student Academic Mentoring Programme** is an undergraduate-only initiative that helps first years to settle into their department and meet other students by matching them with second- and third-year undergraduate mentors. Neurodivergent undergraduate and postgraduate students can also apply to the **Neurodivergent Student Academic Mentoring scheme** – you don't need a formal diagnosis to take part.
- **Peer Supporters** are trained student volunteers who offer a confidential, non-judgemental listening space to any LSE student. All students who have already been studying at LSE for at least a year can become a peer supporter, including continuing undergraduates and those in the second year of a two-year master's programme.
- **Widening Participation** offer a range of paid roles, including Student Ambassador, Tutor, and Mentor positions, enabling current LSE students to share their experiences of applying to and studying at LSE with prospective students and young people considering higher education.

Three ways to start

- Drop by the **Volunteer Centre** on campus to learn more about your options.
- Join a **Student Town Hall** to learn about and debate policies that shape the way the LSESU runs.
- Attend a Meet LSE leadership event to get to know leaders from across LSE in an informal setting – keep an eye out for upcoming events in Student News.

Discover more – **LSE LIFE: Make your impact**

Expand your skills

Unlock the talents, tools, and mindsets that set you apart.

You've arrived at LSE with a distinctive set of abilities, built on everything you accomplished, studied, and experienced before you got here. You'll apply, test, and extend those skills every day: speaking up in a seminar, shaping a group project, and adapting to new ways of thinking and working. Some strengths deepen in new contexts, and other gaps only become visible when you're stretched. Part of university is learning to recognise both, and to think about what else you want to be able to do.

It's natural to think about skills in terms of outcomes – what mark will this help me get, or how can I highlight this on my CV. Some skills are worth being deliberate about, and focusing on one practical skill with long-term value is often more effective than an ambitious self-improvement plan. If you want to study or work abroad, invest in the language skills that will get you there. If your dissertation or internship is likely to need technical skills, build them gradually before they become urgent.

- The **Digital Skills Lab** offers practical, face-to-face workshops, bootcamps, and self-paced resources covering data analysis and visualisation, coding, AI literacy, and assistive technology – including tools like Excel, Power BI, Python, R, Stata, SPSS, and generative AI (Claude and Copilot). It's open to all students and designed to be accessible whether you're a complete beginner or building on existing knowledge.
- The **Centre for Language Studies** runs non-degree language courses at all levels, from beginner to advanced, designed to fit around your programme commitments.
- **Student Media** is your chance to practise writing, editing, production, presenting, and media management with a genuine audience – across video, radio, *The Beaver* student newspaper, and the student-run journals within Houghton Street Press.

Some skills develop without you even thinking about it though – you pick them up just by being here, doing the work, and being around other people doing the same. In fact, you could pick any programme, event or initiative listed in this guide – whether it is related to making your impact, broadening your horizons, or building your community – and it would help you grow. Volunteering, leading an LSESU society, building a start-up, working on your academic skills, or pulling together a study group – each is a chance to get better at communicating clearly, leading and collaborating, or approaching problems creatively and critically.

Reflect on your skills

Reflecting on how you're developing is hard to do alone – it's easier to explore, understand, and articulate your experience with someone who can help you take a step back.

- **LSE Careers** offers [one-to-one appointments](#) with Careers Consultants to help you identify and assess the skills you're building, and think about how to develop and articulate them for the path you want to take.
- **LSE LIFE** offers [one-to-one conversations](#) to help you make sense of everything LSE offers beyond your academic programme, and figure out which opportunities might be right for you.

Three ways to start

- Identify one technical skill that you might need during or after your degree – when would be a good time to learn it?
- Try one thing outside your comfort zone – leading a meeting, presenting a new idea to your classmates, organising a group trip, or speaking first in a seminar.
- Use the [LSE Careers Skills Framework](#) to recognise your skills, reflect on your experiences, and identify areas for further development as you prepare to enter the world of work.

Discover more – [LSE LIFE: Expand your skills](#)

Shape your future

Prepare for life after LSE by exploring your options and following your ambitions.

Thinking about life after university is a fundamental part of being at university. The futures LSE graduates go on to build are as diverse as the people who study here – in every corner of the world and every kind of organisation, and across every sector. What they share is a capacity to explore carefully, act purposefully, think critically, and keep learning. Some students arrive at LSE with a clear sense of the path they want to pursue. Others discover it gradually, through conversations, experiences, and opportunities they couldn't have foreseen.

Ask an Alum

Many cohorts of LSE students have gone on to build and shape their own unique career paths before you – and there's a great deal you can learn from their experiences. During your time at LSE, and even after graduation, you can access our global network of more than 240,000 curious and accomplished minds through [Ask an Alum](#), our online platform that connects students and alumni for advice, support, and networking. Whether it's exploring different career options, developing your professional skills, or building your first business, just submit your questions and we'll connect you with someone who can help.

As you begin to think about your own future and explore the possibilities available to you, teams across LSE can help you navigate and pursue your options. Early conversations can be valuable for testing ideas, understanding different sectors, and learning what employers really mean when they describe particular roles. If you already have a specific career path in mind, it's equally important to understand the expectations and timelines associated with it, especially in fast-moving sectors, where work experience opportunities like short placements, vacation schemes, and internships often begin recruiting early.

The important thing to remember is that thoughtful and curious people rarely settle their futures once and for all. Instead, they keep shaping them. Explore what intrigues you, build familiarity with different kinds of work and sectors, and begin to understand how your interests and strengths might translate into possible next steps.

- **[LSE Careers](#)** can help you explore your career options, reflect and build upon your skills, and offer insight into the world of work. They offer appointments, varied events and workshops, application, interview and assessment centre support, sector insights, and access to opportunities and vacancies through [MyCareer](#).
- **[LSE Generate](#)**, our entrepreneurship hub, is here to help you innovate for the betterment of society. Drop by their co-working space on campus, or join their events, programmes, and mentoring schemes to develop entrepreneurial skills, test business ideas, and meet others interested in innovation.
- **[LSESU Careers Societies](#)** are run by students, for students. From finance and consulting to technology and the creative industries, they offer opportunities to explore different sectors through networking events, conferences, workshops, and talks.

Three ways to start

- Register with LSE Careers and browse [MyCareer](#).
- Attend one [Shape your future](#)-event in your first term – even just to see what's out there.
- Ask an alum or anyone working at LSE how they've shaped their professional path so far.

Discover more – [LSE LIFE: Shape your future](#)

Section 19: Navigate your LSE

- 85** Navigate your LSE
- 87** Term dates and LSE closures
- 89** Systems and online resources
- 92** Your programme and courses
- 98** Exams and assessments
- 102** Codes, charters, and action plans
- 103** LSE campus

Navigate your LSE

Find the resources, guidance, and support you need to thrive throughout your time at LSE.

There are moments at university when you need further advice – about administrative and procedural matters related to your degree or more generally about navigating student life and London. Where you start often depends on the nature of your question.

Here are three key teams at LSE who can act as a good starting point for any general queries, even if you're not sure exactly what you're looking for. If they can't help you directly, they can connect you with someone who can.

- The **[Student Services Centre \(SSC\)](#)** is your first point of contact for advice on a wide range of administrative and programme-related enquiries including enrolment, visa advice and compliance, course selection, exams, and graduation. Contact them via their **[Live Chat](#)** or use the **[SSC enquiry form](#)**.
- **[LSE LIFE](#)** is your one-stop shop for extracurricular opportunities and support at LSE. Browse the **[LSE LIFE events and opportunities page](#)** and if you'd like some personalised guidance, **[book a one-to-one LIFE Conversation](#)** to talk through any aspect of your experience and find the programmes, events, and groups that are right for you.
- The **[LSESU Advice Service](#)** offers free, impartial advice on a wide range of issues – from academic matters and assessments to finances, funding, and housing. As part of the LSE Students' Union, they are independent from LSE, and thus free from a conflict of interest. To contact them, fill out the **[Advice Service Form](#)**.

This section covers some of the mechanics behind your programme and the wider School: how things work, who's responsible for what, and where to go when something needs sorting. You can use it as a reference throughout the year – when a term isn't clear, when you're not sure what your options are, or when you need more information on a procedure or regulation. Click through to the webpages linked for the most up-to-date information and don't hesitate to reach out to someone if you need further advice.

Specialist guidance and support

For those times when you do have a specific question or concern, you may want to seek specialist advice and support directly. Here are some of the teams you might turn to.

- **Fees, finances, and money matters**

[LSE Fees Office](#) manages queries relating to the payment of tuition fees, tuition fee refunds, sponsor invoicing, and US or Canadian student loans. The [Financial Support Office](#) administers a range of bursaries, scholarships and studentships. Use the [Student Finance Hub](#) to check your fees, invoices, payments and instalment arrangements.

If you are facing unexpected financial difficulty during your programme, the LSE Financial Support Office or the independent LSESU Advice Service may be able to help you.

- **Wellbeing and counselling**

The [Student Wellbeing Service](#) offers confidential one-to-one wellbeing and counselling appointments, and workshops. If you need to speak to someone on the phone immediately or outside of working hours, you can call the 24/7 mental health support line provided by our partners [Spectrum.Life](#).

- **Disability and mental health**

LSE's [Disability and Mental Health Service \(DMHS\)](#) offers advice and support to all disabled students, including those with physical or sensory impairments, long-term health conditions, mental health conditions, neurodivergence, specific learning difficulties, and autistic spectrum conditions. DMHS will work closely with you to explore any academic adjustments ([My Adjustments](#)) that may be available and provide tailored support to help make your time at LSE as accessible and inclusive as possible. It is recommended that students contact DMHS before arriving at LSE, or as soon as possible afterwards, so they can collaborate with you to put in place appropriate support from the start of the academic year.

- **Discrimination, bullying, harassment, or sexual misconduct**

If you experience or witness discrimination, bullying, harassment, or sexual misconduct you can report it – anonymously or with your contact details – on [LSE's Report and Support](#) system. You do not have to navigate these situations alone; you can contact any of [LSE's Safe Contacts](#) for confidential guidance. The School also partners with [external specialists, Rape Crisis South London](#) and [SurvivorsUK](#) who offer an Independent Sexual Violence Adviser (ISVA) service.

In an emergency, call 999 for the emergency services (police, ambulance, or fire brigade). On campus, [LSE security](#) can also help; call them on 020 7955 6555.

Term dates and LSE closures

The academic year has its own rhythm – terms, breaks, reading weeks, exam periods. It's helpful to see the whole picture before you get into specific procedures and regulations. This table shows the key dates for 2026/27. The notes below give a sense of what you can expect from each period and ideas about ways to approach them. Always check the [Term Dates](#) page for the latest information.

Academic year 2026/27

Welcome week	Friday 18 September – Friday 25 September 2026
Autumn Term (AT)	Monday 28 September – Friday 11 December 2026
Reading week	Monday 2 November – Friday 6 November 2026
Winter break	Monday 14 December 2026 – Friday 8 January 2027 <i>School closure:</i> Wednesday 23 December 2026 – Friday 1 January 2027
January exam period	Monday 4 January – Sunday 10 January 2027
Winter Term (WT)	Monday 11 January – Thursday 25 March 2027
Reading week	Monday 15 February – Friday 19 February 2027
Spring break	Friday 26 March – Friday 23 April 2027 <i>School closure:</i> Friday 26 March – Thursday 1 April 2027
Spring Term (ST)	Monday 26 April – Friday 11 June 2027
Spring exam period	Tuesday 4 May – Friday 11 June 2027

Welcome week is the week before teaching begins. Systems come online, departments run their introductions, and the practical infrastructure of being an LSE student gets set up. It's also a chance to find your feet, meet people, and begin to feel at home. There will be other Welcome activities running before and after Welcome week, so you don't have to try and do everything in seven days!

Autumn Term is the first 11 weeks of teaching of the academic year. For many, it's a period of adjustment where you settle in and learn ways to manage independent study. You might see term weeks referred to as "AT4" or "AT week 4", for example – the fourth week of Autumn Term.

Reading weeks fall midway through Autumn and Winter Terms, though not every programme has them. It is not a holiday, but a pause to catch up and consolidate the work you've already done in the term so far.

The **January exam period** is the final week of the **Winter break**, bringing exams and coursework deadlines into sharp focus.

Welcome Back is a series of events and social gatherings at the beginning of Winter Term where you can make a new start, meet new people, and explore more of what LSE has to offer, once you've had one term to learn your way around. **Winter Term** is also 11 weeks. Longer projects, the start of dissertation work, and other deadlines tend to land here.

Spring break runs from late March to late April, with the School closed for a week around Easter. For most students with exams in May and June, this is when you'll do most of your revision. **Spring Term** is seven weeks long, and most of it is taken up by the **Spring exam period**. There is generally very little teaching: this is a term defined by assessment.

Outside term time, during closure periods and bank holidays, services and opening hours may change. During [School closure](#), most School services are not available, though some buildings, such as the Library, may still be open.

Systems and online resources

LSE uses a set of core digital systems, but they do different jobs. It can be helpful to get an overview of which platform is for which task.

System	What it does	Find out more
Claude for Education	Generative AI chat from Anthropic, free to all LSE students. Each course sets its own AI use policy on Moodle, so check what is permitted before using Claude in assessed work.	Claude for Education ; Academic integrity
Digiexam	The software platform used for e-Exams, in-person exams where you use a laptop computer. It locks down your personal laptop to create a secure exam environment. Not all courses use e-Exams – check your specific course regulations.	e-Exams ; Exams
eduroam	The Wi-Fi network available across LSE and at universities worldwide. Connect using your LSE email address and password.	eduroam at LSE
Library Search	The online catalogue for finding books, journal articles, and other materials held by the LSE Library.	Library Search ; Library
LSE Calendar	The official publication containing programme regulations, classification schemes, assessment offence regulations, appeals regulations, and codes of practice.	LSE Calendar
LSE for You	LSE's system for completing your course selection.	LSE for You
LSE LIFE events	Your starting point for browsing and booking onto events outside your department. Because teams promote events in various places, using different booking systems, this is the easiest way to find most opportunities in one place.	LSE LIFE events

System	What it does	Find out more
Moodle	LSE's virtual learning environment. Each course has its own Moodle page where you'll typically find lecture slides, recordings, reading lists, quizzes, discussion forums, and where you submit assignments and receive marks and feedback. Important: joining a Moodle page is not the same as enrolling on a course – course selection can only be done through LSE for You.	<u>Moodle</u>
MyCareer	LSE Careers' online portal. Use it to register for careers events, browse the jobs and internships board, book one-to-one appointments with Careers Consultants, and set preferences for sector-specific information.	<u>MyCareer</u> ; <u>LSE Careers</u>
Parchment	The electronic platform through which final transcripts are issued and can be shared with employers or other institutions.	<u>Accessing Parchment</u> ; <u>Transcripts</u>
Student Finance Hub	An online portal where you can review your tuition and accommodation fees, invoices, payments, and instalment arrangements once you're enrolled.	<u>Student Finance Hub</u> ; <u>Paying fees</u> ; <u>Tuition fees</u>
Student Hub	LSE's app (iOS, Android, and web) for everyday student life. Use it to view your timetable, check deadlines, browse the campus map, read about news and events, and book appointments with academic staff, LSE LIFE advisers, and departmental support teams.	<u>Student Hub</u> ; <u>About Student Hub</u>
Student LfY	LSE's main administrative system. You'll use it for updating your address, finding your candidate number, accessing your assessment results and booking appointments with some School services.	<u>Student LfY</u> ; <u>What's in LfY</u>

System	What it does	Find out more
Turnitin	LSE's text-matching software. It produces a similarity report that can be used to monitor for potential plagiarism. Some departments allow or require you to submit drafts through Turnitin before your final submission, so you can review the report and use it to improve your writing and referencing.	Academic misconduct guidance ; Moodle

If you run into IT issues, you can visit the [Data and Technology Services \(DTS\)](#) team at the [Tech Centre](#) on the first floor of the Library, or raise a request via the [DTS Service Portal](#). They offer a range of support services, including the [iRoam Laptop Loan Service](#), and guidance on [cyber security, assistive technology, educational discounts](#) on tech and software, and free software available to LSE students. This includes free access to [Microsoft Office 365](#), which provides essential tools like Word, Excel, and Outlook. Outlook is LSE's main email platform and primary method of communication, so it's important to check it regularly.

DTS also provides support for [printing on campus](#). There are lots of printers available across the LSE campus, which you can connect to and use both from LSE computers and your personal devices. If you need to get something printed professionally, there is also a dedicated [Reprographics](#) team on site. They can help with anything from printing posters and leaflets to dissertation binding.

Your programme and courses

Glossary

The language of course choice, units, and regulations can seem unfamiliar at first. The [LSE Calendar](#) is the School's official resource for programme regulations, course information, and other important details related to studying at LSE. This list is here to help you get your bearings. It's a friendly introduction to terms you'll hear mentioned often, but it's not a substitute for the Calendar or advice from your department. For the most comprehensive, up-to-date, and relevant information, always consult both the [Calendar](#) and your department's guidance.

Term	What it means	Where next
Programme	The full degree comprising of all units studied, for example a BSc or MSc.	LSE Calendar
Programme regulations	The formal rules governing your degree. They specify which core courses you must take, which optional courses are available to you, how many units you need, and any dissertation or project requirement. Published in the LSE Calendar.	LSE Calendar
Unit	The measure of a course size at LSE. A half-unit course is typically taught over one term; a full-unit course is typically taught over two terms. A master's degree usually requires four units; an undergraduate degree usually requires 12 units (usually four each year).	LSE Calendar ; Course selection
Core course	A compulsory course required by your Programme regulations.	LSE Calendar
Optional course	A non-compulsory course you choose alongside the core requirements, from a list in your Programme regulations (or, with approval, from elsewhere at LSE).	Course selection ; LSE Calendar
Auditing a course	An informal arrangement where you follow a course's lectures for interest, but do not attend classes/seminars or sit assessments, and the course does not appear on your transcript or timetable. You need the course convener's permission to audit their course.	Course selection ; your course guide
Controlled access/ capped course	A course where the number of places is limited. "Controlled access" courses require departmental approval (you may need to write a supporting statement). "Capped" courses fill on a first-come, first-served basis through LSE for You. Some courses are both.	Course selection
Course selection period	The main window in Autumn Term, when you formally choose your courses for the full year through LSE for You. A second, shorter window reopens in January for changes to Winter Term half-units only. Deadlines and processes vary by department.	Course selection

Term	What it means	Where next
Timetable clashes	When two of your courses are scheduled at the same time. LSE for You has a “Student Timetable Clashes” screen to help identify simple clashes. Complex clashes may require contacting your department or the Timetables Team.	Timetables
Course guide	The guide for an individual course, giving details such as the convener, syllabus, course content, modes of assessment, and indicative reading lists.	Course selection ; Moodle ; your department pages
Seminars/Classes	Small-group teaching sessions where you discuss readings or work through problems with a class teacher and peers. Attendance is compulsory and active participation is expected, so come prepared. Master’s programmes tend to call these seminars; undergraduate programmes tend to call them classes.	Moodle
Office hours	Regular weekly slots when academic staff are available for one-to-one conversations. You can speak to any teacher during their hours, even if you’re not on their course. Some are drop-in; others require booking via the Student Hub.	Student Hub ; Academic support

Making changes to your programme

If you would like to make changes to your programme or mode of study, you have options. An **interruption** is a year-long approved break in your studies, with a return the following academic year. **Withdrawal** is permanent. A **programme transfer** moves you to a different degree at the same level, with approval from both old and new departments. A **change of mode** switches you between full-time and part-time study, usually on postgraduate programmes. All of these should be discussed with your department and may have implications for your visa, fees, and funding.

Who's who – the people behind your degree

There are plenty of people within your department who can support you, and knowing who handles what will get you to the right answer faster. The entries below indicate typical roles and job titles of people in your department.

Role	Who they are
Academic Mentor (AM)	A member of staff in your department assigned to you personally. They are there to support your progress – both in your studies and more broadly – and are an excellent point of contact whenever you have a question or concern. Your AM may also provide references for employment. On some taught Master's programmes, your AM may also be your Dissertation Supervisor, but check your department's arrangements.
Class Teacher	The person who leads your weekly class or seminar group. They may be a member of academic staff or a Graduate Teaching Assistant (GTA; possibly a PhD candidate). They mark work, give feedback, and hold office hours, where you can discuss topics from class further.
Course Convener	The academic responsible for running a particular course – setting its content, syllabus, assessments, and policies.
Departmental Senior Student Adviser (DSSA)	A confidential point of contact when something non-academic is affecting your studies. DSSAs can help you think through options around extensions, deferrals, changes to your studies (interruption, transfer, withdrawal), and how to access wellbeing and support services. Not all departments have DSSAs; some provide this support through other roles.

Role	Who they are
Programme Director	The academic responsible for the overall delivery and development of your degree programme. They handle programme-level issues and can approve requests to take courses outside your Programme Regulations.
Programmes Support Team/ Professional Services Team	The administrative team in your department and a valuable source of knowledge when you have practical queries about course selection, timetabling, Moodle, assessment processes, and student representation. They are led by the Department Manager.
Student Academic Representative	A student selected to represent the views of their peers at departmental committees such as the Student-Staff Liaison Committee. Selection takes place shortly after the start date of your programme, mostly from the first week of Autumn Term onwards.

One-to-one appointments with academic staff can usually be booked via [Student Hub](#). If you need to get in touch about anything via email, you can find contact details for your programme director, course conveners, and teachers on [Moodle](#). For any other contacts, check out your department's People page.

Student Voice: feedback on your programme

Your feedback is extremely important. There are several ways you can use your voice and shape the teaching and learning on your courses and programme.

Within your department, [Student Academic Representatives](#) (or programme reps) are students recruited to represent the views of their peers. They sit on [Student-Staff Liaison Committees \(SSLCs\)](#) (or Programme Forums), the main forum where elected reps discuss your feedback on your teaching and learning experiences with departmental staff on a termly basis.

There are also broader [Undergraduate/Postgraduate Taught Consultative Fora](#), made up of SSLC reps from across the School, as well as the LSESU Education Officer and Pro-Vice Chancellor for Education, allowing for School-wide feedback. Some of your reps will also attend your [Departmental Teaching Committee](#) each term, which oversee teaching and learning within departments, and help ensure effective student participation in educational decision-making.

You will have a chance to give feedback through [regular surveys](#) at both course and programme level, alongside broader surveys of the whole student experience including the [National Student Survey](#) for final-year undergraduates. These are generally coordinated by the [Teaching Quality Assurance and Review Office \(TQARO\)](#).

Beyond your department, you can shape LSE at a School-wide level, for example, through [LSESU Student Voice](#), [Student Education Panels](#), and [LSESU leadership elections](#). See [Make your impact](#) earlier in this handbook for more opportunities.

Exams and assessments

Assessment at LSE comes in two forms. **Formative assessment** is practice – essays, problem sets, presentations, or mock exams that don't count towards your final grade. Formative assessments are where you can test ideas, experiment, and get helpful feedback. **Summative assessment** does count towards your final mark for a course, and might take the form of exams, coursework essays, group projects, presentations, or a dissertation.

Each department publishes **marking criteria** describing what markers are looking for – typically covering knowledge and understanding, use of literature, argument and analysis, and clarity of expression. Most written work also has a **word limit**, with rules on what exactly counts towards it and penalties for exceeding it set at department level.

If your programme includes exams, they'll usually take place in either the January or Spring exam period. Before you take any exam, read the School's official [Exam Procedures for Candidates](#) for full details of all exam regulations including personal items you're allowed to take into the exam room, writing in exam booklets or using computers for e-exams, and your **candidate number** – a unique five-digit number that ensures anonymous marking.

Another important element of exams that you'll find explained fully in the exam procedures is the School's [Fit to Sit](#) policy. This means that by entering an exam room or submitting an assessment, you declare yourself well enough to do so. If you are unwell or affected by serious circumstances, request an extension or deferral *before* the assessment – your [options](#) are much more limited afterwards.

Re-taking an exam or re-attempting an assessment is called a **resit**. Resits are normally held in one of two formal periods: the **In-Year Resit and Deferred Assessment Period (IRDAP)**, which typically runs in late August, or the **Resit and Deferred Assessment Periods (RDAP)**, which take place during the main Winter and Spring assessment periods the following year. Full details of taking resits and deferred assessments can be found on the [School's Re-entry pages](#). Eligibility, timing and rules vary by programme, so check the [Calendar](#) and your department's guidance.

If you think a result or decision needs to be challenged, there is a formal appeals process. Full details about the appeals process can be found [here](#).

Who can I talk to?

You can talk with your academic mentor, course convenor, or class teacher about feedback you receive.

You can talk with a [Learning Lab Study Adviser](#) about interpreting the marking criteria for an assignment or ways to use feedback to make progress.

For questions about the exam procedures, resits, or other administrative matters around exams and assessments, contact the [SSC Student Advice and Engagement Team](#).

The [SSC Student Regulations Team](#) handles appeals, allegations of misconduct and plagiarism, and complaints about academic matters. They also administer the process around exceptional circumstances and deferrals.

Academic integrity

Academic integrity is the principle that the work you submit is your own and that you've taken responsibility for referencing others accurately and following your department's guidelines on working with other people and with AI tools. Here are some specific terms you should understand.

Plagiarism is presenting other people's words or ideas as your own, whether deliberately or accidentally, including failing to reference sources properly.

Collusion is collaborating with others on individually assessed work beyond what is permitted. **Contract cheating** is having someone complete an assessment on your behalf, and can also include the unauthorised use of GenAI tools. **Self-plagiarism** is reusing material from your own previously submitted work without proper attribution. More information about academic misconduct is in the [Regulations on Assessment Offences](#).

LSE provides all students with access to [Anthropic Claude for Education](#) and [Microsoft Copilot](#), however each course has its own **AI use policy**, set out on the course's Moodle page. Some courses permit some forms of AI use; others prohibit them entirely. **Turnitin** scans submissions for matches against other sources. Some departments let you submit drafts to Turnitin first to check your referencing. The **Turnitin similarity report** shows what percentage of your submission matches other sources. There is no safe maximum score: a low percentage can still be investigated and a high one does not automatically indicate misconduct.

When you submit summative work, you confirm an [academic integrity statement](#) affirming that the work is your own, that you have not colluded, and that you have followed AI and referencing rules. Suspected cases of misconduct are considered by an **Assessment Misconduct Panel**, and penalties can be severe.

Who can I talk to?

If you have questions about Turnitin, referencing, paraphrasing, using generative AI tools, or any other aspect of academic integrity, you can book an [Academic integrity one-to-one appointment](#). Sessions take place online and everyone will be seen individually in order to provide personalised advice – no question is too silly! The [Learning Lab](#) and [Library](#) also provide general guidance on academic integrity, referencing, and paraphrasing, through workshops, one-to-one appointments, and online resources.

Do note that some rules and regulations may vary from department to department, so it is worth checking your course guides and speaking to your teachers or academic mentor when in doubt, too.

The [SSC Student Regulations Team](#) handles allegations of misconduct and plagiarism, and complaints about academic matters.

When something affects your work

LSE has formal routes for situations where circumstances affect your assessed work. Ideally, these circumstances should be addressed before the work is due or attempted.

An **extension** is extra time on a coursework deadline, requested in advance and normally accompanied by supporting evidence. It is the most common route for short-term issues with submitted work. Full details can be found in the [Student Guidance on Extension Requests](#) document.

A **deferral** postpones an assessment to a later sitting, usually the next exam period. It is used when an extension is not enough or when the assessment has a fixed date, such as an exam. Like an extension, it is requested in advance, normally at least 24 hours before the deadline or exam start.

LSE publishes guidance on [religious observance and assessments](#) for students whose faith commitments may affect assessment participation.

[My Adjustments](#) refers to personalised plans of reasonable adjustments to adapt teaching, learning, and assessments to the needs of students with sensory or physical impairments, mental health conditions, or specific learning difficulties. They include **Teaching and Learning Adjustments** (TLAs) and [Central Exam Adjustments](#) (CEAs) and might feature extra time in exams, assistive technology, or changes to your study environment.

There is also a procedure to follow where circumstances cannot be addressed in advance. Submitting **Exceptional Circumstances (ECs)** is the only way to inform examiners about circumstances beyond your control that affected an assessment you have already attempted or were absent for. Find out more on the [Student Services Centre pages about ECs](#).

Who can I talk to?

The [Disability and Mental Health Service \(DMHS\)](#) is the service who puts My Adjustments in place, including Central Exam Adjustments. There is no requirement to tell the School about a disability. However, letting the DMHS team know about any long-term condition that has a substantial impact on your studies or your day-to-day life enables them to arrange adjustments and support.

The [SSC Student Advice and Engagement Team](#) answers questions and provides advice about academic matters including ECs, progression, deferral, interruption, withdrawal, and the School Regulations and Codes of Practice more generally.

Codes, charters, and action plans

LSE has several codes and charters in place that outline the standards of education, conduct, and partnership between LSE, its staff, and students. Below is a selection of important codes, charters, and plans. A comprehensive list of School [Policies and Procedures](#) is available online.

- **[LSE Academic Code](#)**: Sets out what you can expect from your education in four areas: teaching standards, academic support, assessment and feedback, and student voice.
- **[LSE-LSESU Student Charter](#)**: Describes the community you're joining and how its members are expected to relate to each other.
- **[Codes of Good Practice](#)**: Explain the responsibilities of staff and students in relation to teaching, learning, and assessment.
- **[Ethics Code](#)**: Sets out the values the LSE community is expected to live by – covering responsibility, integrity, intellectual freedom, equality, collegiality, and sustainability.
- **[LGBTQ+ Inclusive Action Plan](#)**: Outlines six priorities to advance LGBTQ+ equity and inclusion.
- **[Race Equity Action Plan](#)**: Outlines six priorities to advance racial equity and inclusion, as part of the [Race Equity Framework](#).

LSE campus

Find out more on the [LSE campus map webpage](#).

[AccessAble](#) provides detailed accessibility guides for campus buildings, residences and study spaces, including route maps between locations to help students navigate campus confidently and independently. Explore more campus facilities with the [Facilities Guide for Current Students](#).
