

What should you discuss with your Academic Mentor?

Social Policy students in each Year of study should expect to receive a set number of meetings per term with their Academic Mentor (AM), as laid out below.

These may be individual or within a group (as part of their Mentor Group).

Please note that it is a STUDENT's responsibility to contact/book an appointment with their AM if they wish to speak to them on a I-I basis

Below is a guide to topics which you may wish to discuss with your Academic Mentor at various points in the year. This is intended as a guide— your pattern of meetings with your Mentor may differ depending on you and your Mentors' timetable and needs. NB: Mentors will combine AM sessions on specific topics into group sessions for their Mentees, where sensible. However, they will continue to be available for I-I advice if students book appointments outside of the suggested timetable laid out below.

Remember that, subject to availability, you can book meetings with any faculty. This is a valuable resource for taking advantage of faculty's specialist knowledge.

In addition, remember that you have been organised into mentor groups for the year. You should think creatively about how you could use these productively – are there any topics or subjects it might be helpful to discuss with your peers? As a mentor group, would you like to discuss any issues collectively with your AM?
