HOW WOULD YOU DESIGN AN INFORMATION POSTER?

Since the begining of the Pandemic, we have heard and learnt lots of phrases to remember what to do to keep us and others safe.

To start with it was **'STAY AT HOME - Protect the NHS - Save Lives'**

Can you list below some of the other ones? Can you remember what song we were meant to sing as we washed our hands? List out as many things as you can remember.

USE THIS FORM AS PLANNING TO TRY OUT YOUR IDEAS.

TASK ONE

Do you want to create a poster for one of the **'SLOGANS'** from your list above? Or do you think you can do a better information / warning phrase? If you think you have some ideas use the space below to work them out.

Should your new phrase rhyme? Have a think about using as few a words as possible.

What **image or picture** could be used with it? What **colour** should be used so that it grabs attention?

TASK TWO

Here is space to draw out your information poster, with your slogan as **BIG** as you can.
Remember you can use your project books to make the final version.
