A close-up of a black microphone with a silver mesh grille, positioned diagonally from the bottom left. The background is a blurred red and white pattern, possibly a wall or a large screen. “The FYC has given me the opportunity to meet friends. I am glad to say that my groupmates and I still keep in touch”

“Insightful and engaging way to start my first year education in LSE”

“The challenge was certainly very edifying. Rigorous research on the GFC gave me numerous insights that really bolstered my understanding of economics in general. It also further ignited my passion for the subject to see these economic concepts in action in the GFC. Very importantly, through the challenge I have made some of my closest friends in LSE and for that I am very grateful”
