

THE LONDON SCHOOL  
OF ECONOMICS AND  
POLITICAL SCIENCE ■

# WELCOME TO LSE ECONOMICS

## **Economics in LSE Joint Degrees and other programmes**

**Dr Dimitra Petropoulou**

**Undergraduate Programme Director**

# Economics in Joint Degrees and other programmes

- A joint degree **combines courses** from two different Departments into one degree (PPE from three)
- Structured to **complement each other** and form a coherent sequence
- A joint degree **combines the subjects 50/50**: e.g. BSc ... and Economics
- Economics can also be studied as a **minority subject in proportions 75/25**: e.g. BSc.....with Economics
- Students on many other programmes also study Economics in their first year at LSE

## Joint Degrees

BSc Politics and Economics

BSc Economics and Economic History

BSc Philosophy and Economics

BSc Mathematics and Economics

BSc International Social and Public  
Policy and Economics

BSc Philosophy, Politics and Economics  
(4 year programme)

## 'With Economics' degrees

BSc Geography with Economics

BSc Mathematics with Economics

BSc Environmental Policy with  
Economics

# Introducing our new curriculum (from 2021/22)

- Separate (Year 1 and 2) core courses for students on the BSc Economics and students on other degrees studying economics
- Core courses tailored to the specific needs of different students
- Rigorous, up-to-date and policy relevant.
- Excellent preparation for Year 3 for all.

# How will students on part-economics degrees benefit?

- Take courses together with a **more homogeneous group of students**
- **Tailored courses** to better match students' interests and career objectives
- A **quantitative and non-quantitative track** with scope to switch between the two
- Joint Degree students take Microeconomics, Macroeconomics *and* Econometrics; better preparation for Year 3 courses.

# Two Tracks for core courses

	Quantitative Orientation	Non-Quantitative Orientation
Year 1 Michaelmas Term	Microeconomics I	Microeconomics I
Year 1 Lent Term	Macroeconomics I	Macroeconomics I

**End of Year 1: Switch or stay in track**

# Two Tracks for core courses

	Quantitative Orientation		Non-Quantitative Orientation
Year 2 Michaelmas Term	Microeconomics II	Econometrics I	Microeconomics II
Year 2 Lent Term	Macroeconomics II	Econometrics II	Macroeconomics II

# A rich array of Year 3 options

- Year 3 Economics options:
  - Development Economics
  - International Economics
  - Public Economics
  - Monetary Economics
  - Labour Economics
  - Political Economy...and more!
