A close-up, low-angle shot of a black microphone with a silver mesh grille, positioned diagonally from the bottom left towards the center. The background is a blurred sea of red stadium seats, creating a strong sense of depth and atmosphere. The lighting is soft, highlighting the texture of the microphone's grille.

Frequently Asked Questions

Frequently Asked Questions

1. How will I get to meet other students? Is it harder to make friends because LSE is not a campus university?
 2. How diverse is LSE? What about gender balance? I hear there aren't many women in economics.
 3. What can students expect when they arrive to start their degree? Will I find others with similar interests?
 4. What opportunities will I have outside of my courses to engage with economics and academic staff?
 5. What if I struggle with my studies or other aspects of life?

#LSEeconFYC19 Group 9d, Fitzrovia Square (second location)

In all seriousness though, we really really enjoyed FYC! Many thanks to the Econs Dept for taking the time and effort to organise it, giving us goofy peeps a chance to meet one another. Hope you guys will like our video too!

“The FYC has given me the opportunity to meet friends. I am glad to say that my groupmates and I still keep in touch”

“Insightful and engaging way to start my first year education in LSE”

“The challenge was certainly very edifying. Rigorous research on the GFC gave me numerous insights that really bolstered my understanding of economics in general. It also further ignited my passion for the subject to see these economic concepts in action in the GFC. Very importantly, through the challenge I have made some of my closest friends in LSE and for that I am very grateful”

„The FYC was a chance to make lasting friendships and gain a better understanding of one of the biggest economic issues of our time. We had a lot of fun visiting the locations and filming the video together. It was a good start to our time in the LSE Economics Department”

„It was a fun introduction to LSE that helped integrate myself into the department community. The challenge allowed me to meet some of my closest friends at the LSE (also we won which is great)”

„A great opportunity to meet diverse talents in the same department and share insights regarding the nature and practicalities of Economics”
