

## Research Funding 2024 – 2025

The Grantham Research Institute on Climate Change and the Environment would like to thank all its funders and partners for their generous support.

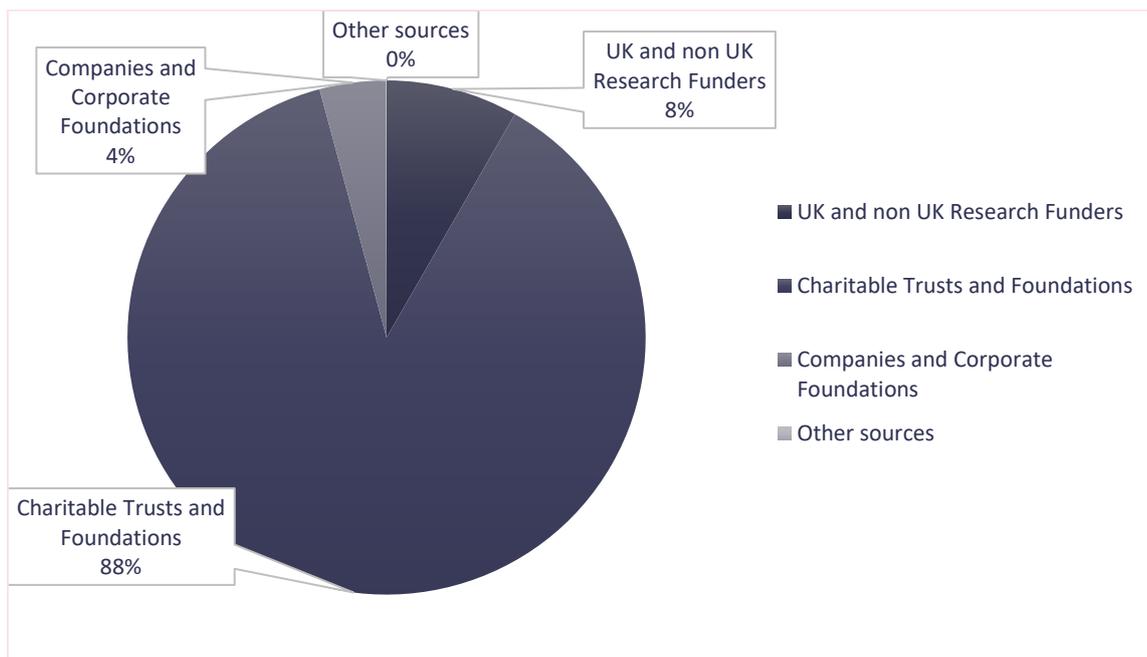

### New Funding Secured (1 August 2024 to 31 July 2025)

During our financial year 2024-25, the Grantham Research Institute secured a total of **£35,887,104** in new funding from organisations listed below.

This was comprised of £2,962,861 from UK Government and Research Council grants, £31,428,718 from charitable trusts and foundations, £1,485,141 from companies and corporate foundations, and £10,384 from other sources<sup>1</sup>.

This income includes new funding sources for the TPI Global Transition Centre, and the Centre for Economic Transition Expertise. From the financial year 2025 – 2026 the Grantham Research Institute will not report income for these, now separate, Research Centres at LSE.

### New Funding Sources FY24-25
