

Joint BSPS & PGRG Day Meeting

Is Internal Migration slowing down?

Thursday 11th January, 2018

LSE, London

House-keeping

➤ Fire Alarm

➤ Toilets

➤ Lunch

➤ Reception

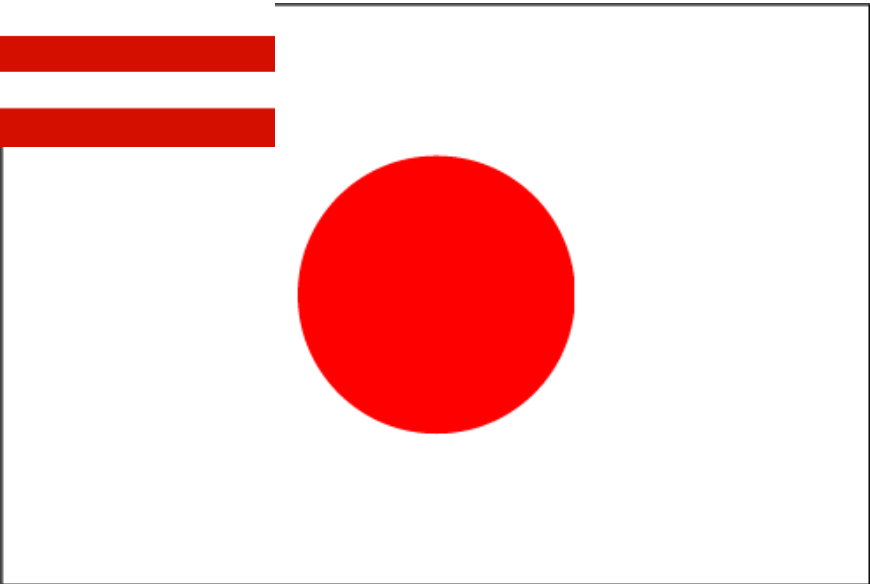

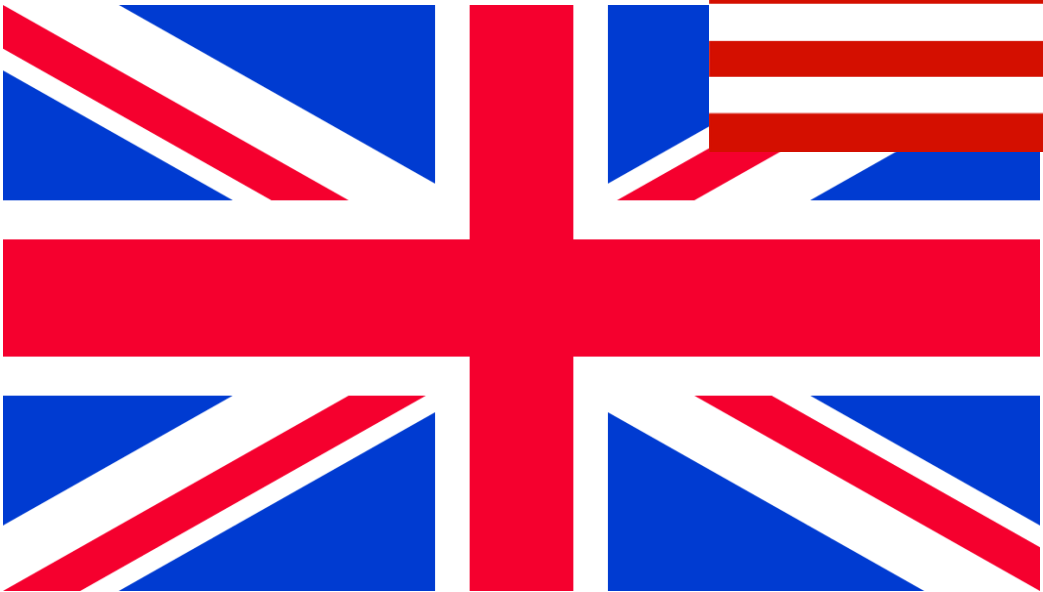

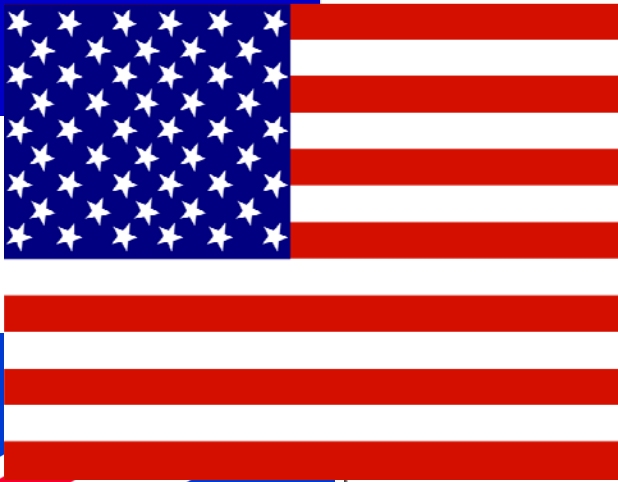

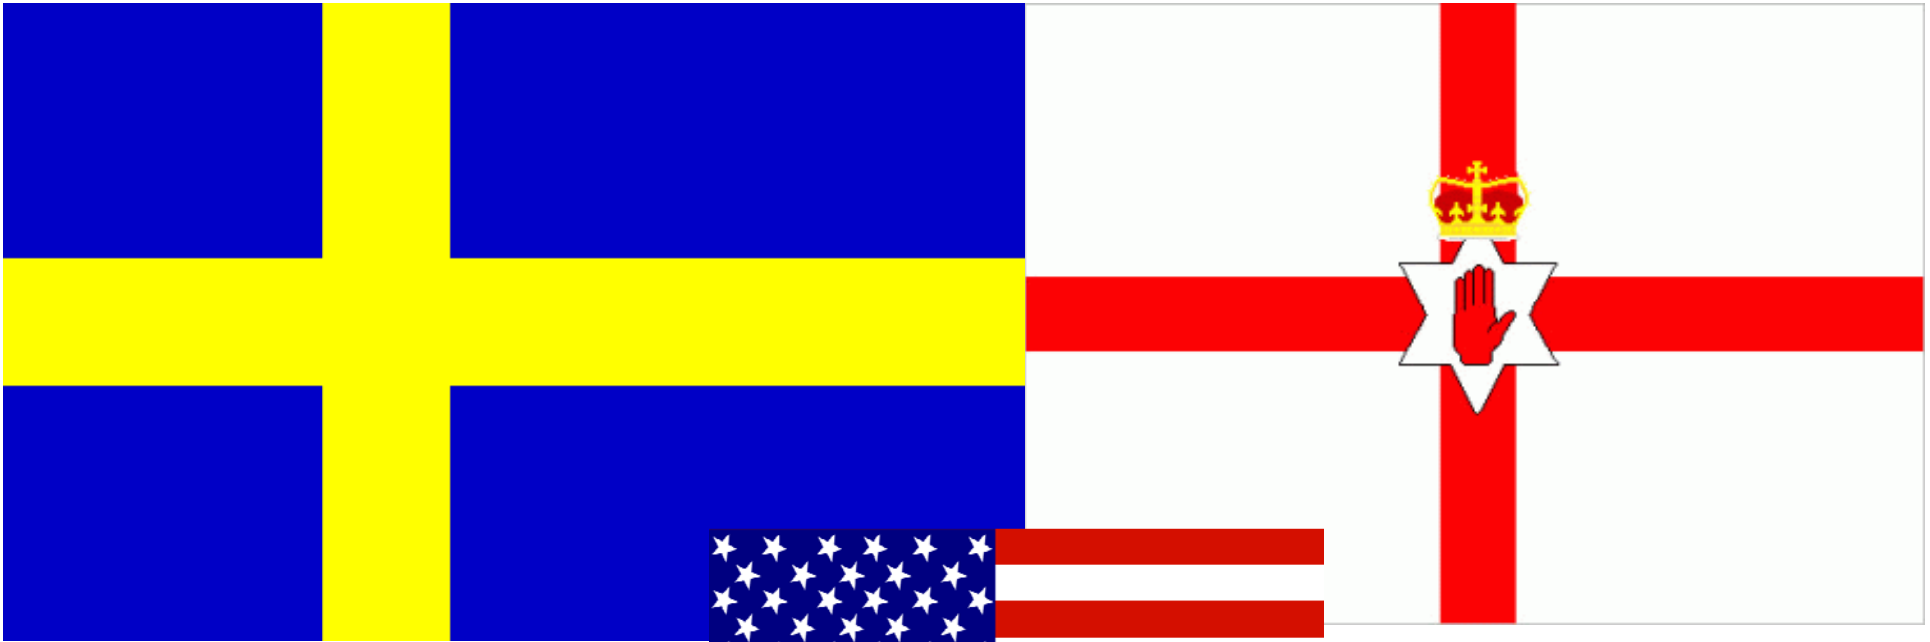

Figure 1. Annual % rate of within-USA address changing, 1947-48 to 2016-17 (Source: Current Population Survey data by Tony Champion. Note that the one-year move question was excluded from the CPS through most of the 1970s.)

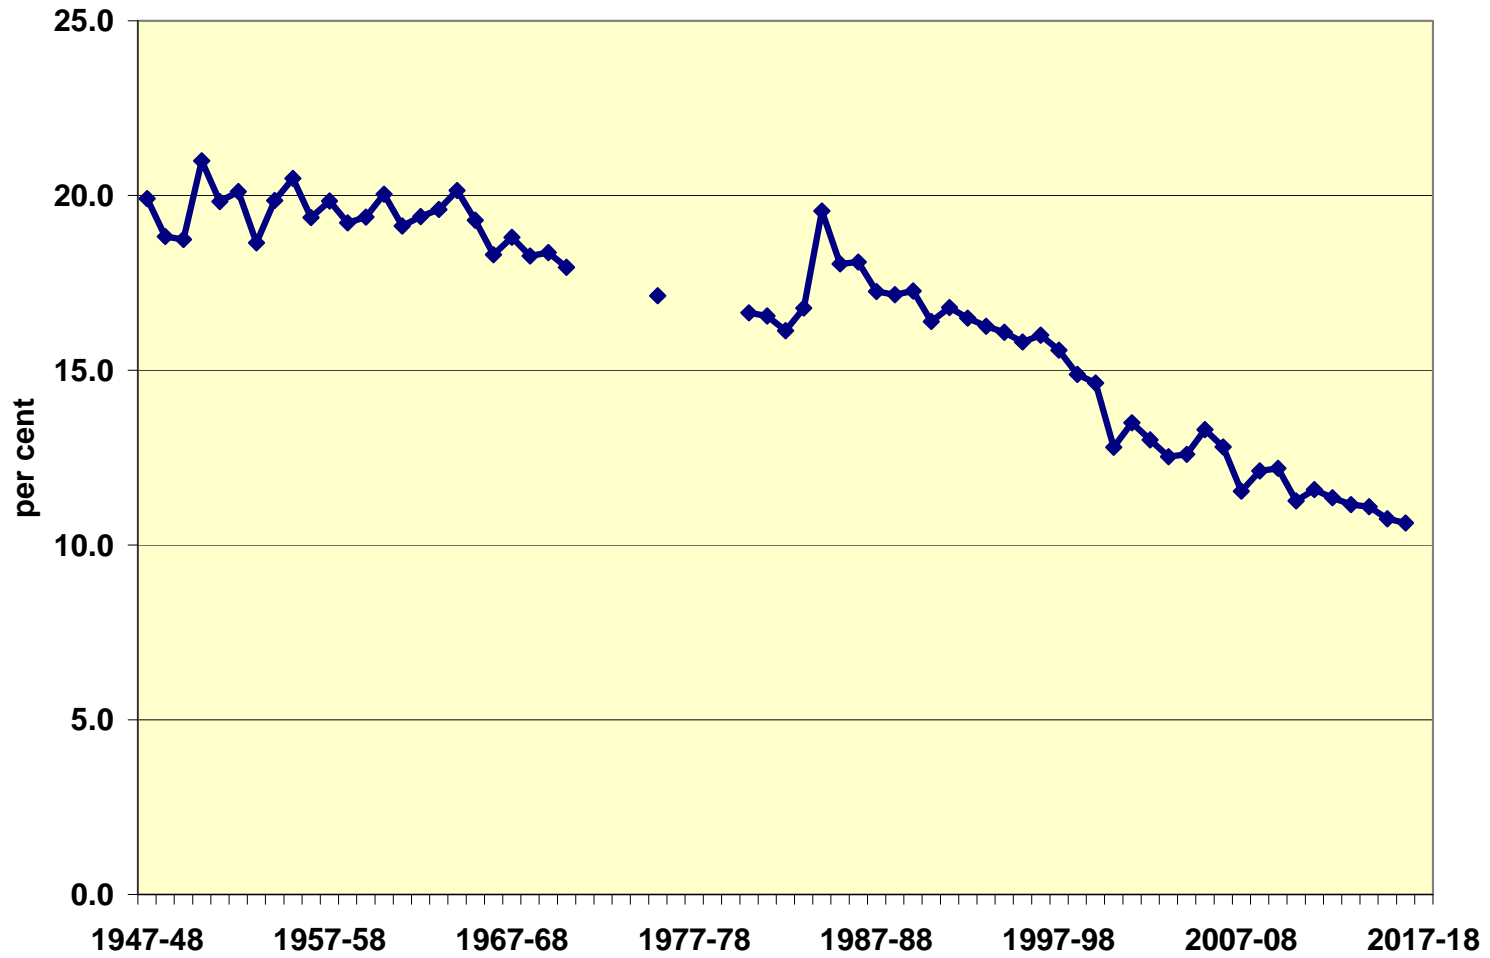

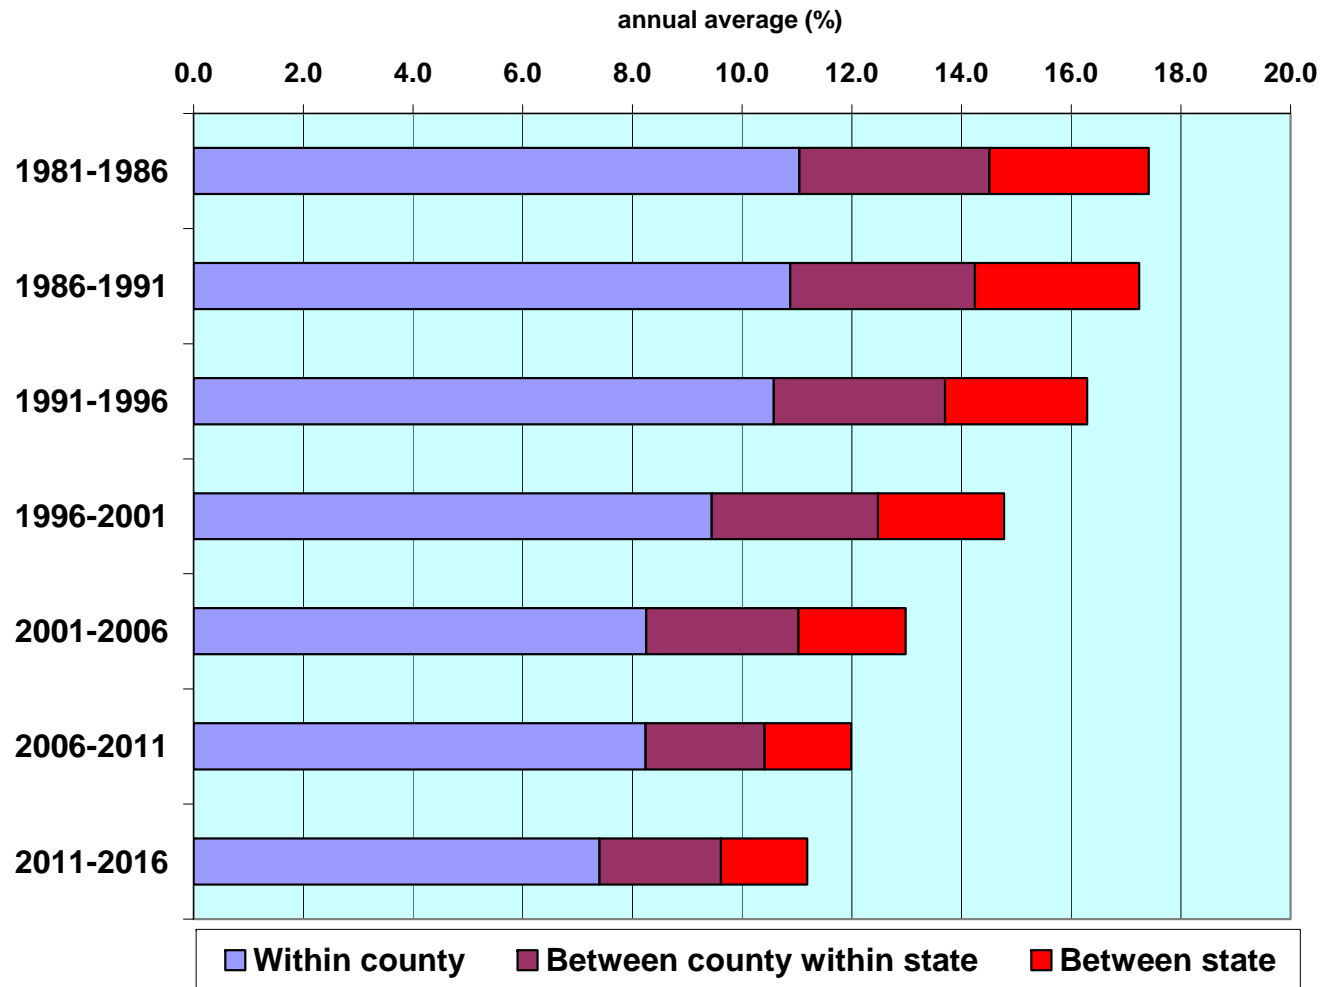

Figure 2. Within-USA migration rates, 1981-2016, 5-year annual averages, by type of move (Source: calculated from Current Population Survey data by Tony Champion)

A more mobile world or not?

- House Prices – downwards
- Housing Supply – downwards
- Lower Home Ownership - upwards
- Increase in Student uptake - upwards
- Job insecurity - upwards
- Partnership dissolution – upwards
- Ageing population & Social Care -
- Family size -
