INSTRUCTIONS

The questions and items in the main EU Kids Online questionnaire are in three colours: black, green and red.

(1) **Black questions and items** are the **CORE** questions. These must be used by everyone who collects data for the EU Kids Online 2017 survey.

(2) **Green questions and items** are **EXTENDED CORE** questions. These questions are important, but optional, due to the overall length of the questionnaire versus the wish to include modules.

(3) **Red questions and items** are **OPTIONAL**. You can select any of them if it fits to your research interests. Please note that black + green + all red questions will make a very long questionnaire.

(4) **Topical Modules** – these can be found in a separate document. Please include the modules relevant for your area. When assembling your questionnaire, please bear in mind these time estimates (young children): **CORE** (30 mins); **EXTENDED** (15 mins); **2xMODULE** (15 MINS).

Please make sure to test the amount of time the completion of the questionnaire needs, in your own language, before collecting data!

Questions for children and young people

How to fill in this survey

Please read each question and take your time to answer.

You do not need to answer all of the questions. If you see a question that you cannot answer, or you are unhappy about answering, please tick “I don’t know”, “Prefer not to say”, or move onto the next question.

“WORDS WRITTEN LIKE THIS” are instructions to tell you how many answers you need to give for each question.

Please make sure you read the bits written in grey boxes, these are important in helping you to understand the questions.

Many of the questions are about the internet. Children and young people use the internet in lots of different ways and for lots of different reasons. When thinking about what you do, keep in mind all the technologies (e.g. laptop or mobile) and places (e.g. at home or somewhere else) where you may use the internet.

When we talk about ‘face to face’ we mean talking to someone in person at the same location rather than through the internet, over the telephone or through a webcam.

This is not a test and there are no right or wrong answers. This survey is all about you so it is important to the researchers that you are as honest as possible.

We thank you for your participation in this study,

The EU Kids Online team

PLEASE READ:

There are lots of great things to do on the internet that many children and young people enjoy, but there are also some things on the internet that are not always good. Some children can find some of these upsetting, while others might not get upset. We want to learn about the things that can upset children online so we can help children avoid these things or deal with them better.
