

## YOUTH CONSENT TO YOUTH INTERVIEW

**intro** I would like to ask you some questions that are part of a study about young people using the Internet. When I say “use the Internet,” I mean going “online.” The interview will last about half an hour. To thank you for your help, we will send you a check for \$10. The questions have to do with things that have happened to you on the Internet, including whether you have come across people or pictures that made you uncomfortable or upset, along with some questions about safety in other areas of your life.

This is part of a national survey of 2000 young people, ages 10 to 17. You were chosen completely at random to represent the ideas and experiences of young people. You don't have to talk to us if you don't want to, but your help will make a big difference. Everything you say will be completely confidential. We are not allowed to tell your parents, your school or anyone else anything you tell us.

We would like you to try to answer every question that you can, but if there is any question that you don't want to answer, that will be OK. You can stop the interview at any time. Also, if there is any question that you don't understand, please say so. If there are too many people around for you to talk freely, just let me know and I can call back later.

Can we begin now?

## SECTION 8: CONCLUSION

Well, that's about it. I want to thank you for answering our questions and helping us in this study.

### *CHILD IN DANGER CHECK POINT*

Is child possibly at risk from comments or other observations made during interview?

Yes

No

*CATI check point: These computer algorithms will flag the respondent as a possible child in danger:*

*Algorithm 1. If (ser1a=1) and (harm1=3, 4 or 5 or harm3= 3, 4 or 5) and (disc1 NE 1 and (disc4 NE 1)) or (disc1=1 and (disc1a NE 3 thru 9 or disc4 NE 1)), then respondent should be flagged.*

*Algorithm 2. If (onlin6b=1, 2, 3 or 4 and (rel21=1 or rel9a=1 or rel10a=1 or rel22=1)) or (onlin7b=1, 2, 3 or 4 and (rel21=1 or rel9a=1 or rel10a=1 or rel22=1)) or (onlin8a=1, 2, 3 or 4 and (rel21=1 or rel9a=1 or rel10a=1 or rel22=1)), then respondent should be flagged*

*Algorithm 3. If (cbcl14=2 or 3), then respondent should be flagged.*

*Algorithm 4. If vic4=1 and vic4c NE 1, then respondent should be flagged.*

*Algorithm 5. If vic6=1 and vic6c NE 1, then respondent should be flagged.*

*If the computer algorithm flags the respondent as a possible child in danger, or the interviewer has concerns based on comments or other observations during interview:*

*There is someone else connected with our study who may need to call you again. Is there a time that would be convenient? [Get time and check telephone number.]*

I would also like to give you the address of a web site with good information for young people about Internet safety. The address is: [www.safeteens.com](http://www.safeteens.com) or [www.safekids.com](http://www.safekids.com).

### **Take note of length of time survey took.**

F5 We may be doing another survey like this in a couple of years. If we do, would you be willing to be interviewed again?

1 Yes – ask F5B

2 No – go to F6

3 Don't Know – go to F6

F5b. In order to be able to re-contact you in a few years it would be extremely helpful to get your father's or mother's first and last name? Could you give me one or both of their names? [It will be kept confidential and only used to help find you again for another study.]

Fathers name

Mothers name \_\_\_\_\_

F6. OK. Now I just need to get your name and address to send you the \$10 check. It will be kept confidential and only be used to send you this check. Would you like us to send a check in your name or would you like it sent to a parent?

Gave Parent's name

Gave Child's name

What is the first and last name, so we can write it on the check?

What is the address (record house number and street)?

City?

State?

Zip?

You should receive your check with the next 4 weeks. If you do not receive it you can call us at 1-800-659-5432 and ask for Matthew.

Again, thank you for your help. What you've told us is very important, and it will help us let families and young people know how to safely use the Internet. If you have any questions about this study later on you can call us toll-free at [1-800-843-5678, EXT. 8136].
