

CONSENT FORM FOR EU KIDS ONLINE III STUDY

Researchers' Name: Dr Leslie Haddon

Research Centre: London School of Economics and Political Science

To be completed by the HEADTEACHER

I am happy to support the EU Kids Online project in our school and have no objections to children from School participating in this study about children's use of the internet. Children from this school can take part in either a focus group or individual interview.

The research will be used to help make the internet safer for other children and young people in the future. I understand that the children's responses will be kept totally private. The research is anonymous and neither the school nor the children will be identified in the EU Kids Online findings or reports.
