### Work experience:

**3/2001 – 9/2015**

**Ministry of Social Development**

**Analyst at the Research Department**

**Santiago, Chile**

- Part of the team of three in charge of the 2012 National Survey on Children and Adolescent Activities. The work in this project included designing and developing the questionnaire, implementing and supervising the pre-tests and the survey, and evaluating focus group and cognitive interview reports. As part of the data analysis, this project included processing of databases, statistical analysis and writing of reports based on results.
- Developed elaborate statistical reports for the Survey of Socioeconomic Characterization and the Social Protection Record.

- Technical advisor of the Subjective Well-being team for question design of the Survey of Socioeconomic Characterization.
- Part of the team of evaluators in the ex-ante evaluation of social programs.
- Developed studies that raise the role of women and incorporate a gender approach in the design of social programs.
- Member of the National Committee for the Eradication of Child Labour, in collaboration with the Ministry of Labour and the International Labour Organization.
- Representative of the Chilean Government in the Third Global Conference on Child Labour (Brazil, 2013).

**6/2016 – 8/2016**

**World Health Organization**

**Intern**

**Geneva, Switzerland**

- Research intern in the project “Estimating health sector investment needs towards the attainment of the SDGs” for 67 countries (low and lower middle income countries). The health sector needs analysis covered all six health systems areas (health financing, governance, infrastructure, workforce, health information systems, logistics), plus all major diseases and health programmes.
