

British Society for Population Studies 2021 Conference: Programme timetable (provisional)

Additional sessions on Monday afternoon 13 September
<u>1.30-2.30pm</u> This session will be on Teams. Developments in official population statistics: Session 1: Census 2021 in England and Wales Chair: Dr. Nik Lomax (University of Leeds) 1. Overview of Census 2021 - Wroth-Smith 2. Addressing in Census 2021 – Doherty 3. Developing Covid-19 relevant Census 2021 outputs – Trace
<u>3.00pm-4.00pm</u> This session will be on Teams Developments in official population statistics: Session 2: Census Outputs and Analysis. Chair: Dr. Alina Pelikh (University College London) 1. Overview of the Northern Ireland Census 2021 - McConville 2. Outputs and analysis release schedule - Morgan 3. Accessing Scottish Census data - Cavin 4. Data visualisation for Census 2021 outputs - Fry
Training sessions/workshops aimed at early-career researchers
<u>2.00pm – 3.00pm</u> Panel discussion on 'How to get a postdoc' Panel: Prof Jane Falkingham, University of Southampton Dr Alice Goisis, UCL Dr Abigail Page, LSHTM Dr Francesca Fiori, University of St Andrews Convenors: Julia Mikolai (University of St Andrews) & Alyce Raybould (University College London). Chair: Dr. Julia Mikolai
<u>3.30pm – 4.30pm</u> 'Improving your image' Visual rhetoric and data visualisation workshop Chair: Alyce Raybould (University College London) In this workshop, Dr. Ben Wilson and Dr. Matt Wallace (Stockholm University) will present their advice and guidance on how to create effective and convincing data visualisations. They will also explore the kinds of discussions and debates they have when deciding on how to visualise their findings in their co-authored papers.

Tuesday 14 September

9.00am: Welcome Dr. Alice Reid (BSPS Vice-President & President-designate)

9.15am – 10.15am

Health & mortality: Child & adolescent health Chair: Dr. Matthew Wallace (Stockholm University)

1. BMI over the life course among only children & siblings – Chanfreau, Goisis, Barclay, Keenan
2. The association between youth unemployment & allostatic load – Wright
3. Worldwide historical child stunting since the nineteenth century – Schneider, Jaramillo-Echeverri
4. Estimating the average age of infant deaths: A flexible model life table based on newly-collected data – Romero Prieto, Verhulst, Guillot

Families & households: Relationships Chair: Dr. Niels Blom (University of Bath)

1. Decomposing trends in educational assortative mating - The case of Ireland – Leesch, Skopek
2. Mother's partnership status and allomothering networks in the United Kingdom and United States - Spake, Schaffnit, Sear, Shenk, Soisis, Shaver
3. Living apart together in Spain: different meanings according to life stage – Nishikido, Castro-Martin
4. Religiosity, sexual frequency and sexual satisfaction in Britain – Peri-Rotem & Skirbekk

Ethnicity: Education, employment, place & ethnic inequalities Chair: Dr. Katrien Vanthomme (VUB)

1. Ethnic representation in public sector employment – Yashaiya, Noh
2. Home, neighbourhood, school or all three: What determines higher educational achievement and labour market success among the Russian-speaking minority in Tallinn Urban Region, Estonia? – Knapp, Kalm, Leetma, Tammaru
3. Is the ethnic penalty worse in less deprived areas? – Jivraj
4. Documenting the lives of ethnic and religious minorities in the pandemic: Reflections from the Evidence for Equality National Survey (EVENS) – Finney, Nazroo, Shlomo et al

Ageing: Social participation, work & retirement Chair: Professor Maria Evandrou (University of Southampton)

1. Population ageing in Italy: A study on retirement from 1995 to 2019 – La Valle, Reynaud
2. Too old to work - says who? Translocational gendered ageing and South Asian British Muslim women in the UK – Ferdous
3. Social participation in widowhood: Evidence from a 12-year panel – Lim
4. Who Marries whom: Intergenerational mobility and assortative mating in Mexico - Daza Báez

Covid-19: Impacts on families, fertility & vaccine hesitancy Opening Remarks: Professor Philip Rees (University of Leeds), Chair: Dr. Paul Norman (University of Leeds)

1. Impact of Covid-19 and lockdowns on fertility – Grenham
2. Changing living arrangements, family dynamics and stress during lockdown: evidence from four birth cohorts in the UK – Evandrou, Falkingham, Qin, Vlachantoni
3. Impact of the COVID-19 pandemic on support available to mothers in the UK and the USA – Hassan, Spake, Shaver, Shenk, Sosis, Sear
4. How does the framing and communication of COVID-19 vaccine side-effect risks affect vaccination intentions? A randomized trial of 10,000 adults from the United States and the United Kingdom – Sudharsanan, Hachaturyan, Favaretti, Baernighausen, Vandormae

Break 10-15am – 10.45am

10-45am – 11.45am

Plenary 1 – Population and politics: Interdisciplinary perspectives on the legacy and revival of eugenics. A conversation between Professor Rebecca Sear (London School of Hygiene & Tropical Medicine) & Professor Shireen Kanji (Brunel University London)
Chair: Professor Wendy Sigle

Break 11.45am – Midday

Midday – 1.00pm

Migration: Union & family formation among immigrants & their descendants Chair: Dr. Julia Mikolai (University of St. Andrews)

1. Parental age gaps among immigrants and their descendants: Adaptation across time and generations? – Ugglu, Wilson
2. Union formation amongst immigrants from Pakistani and their descendants in the United Kingdom: A sequence analysis – Harrison
3. Does health affect migrants' fertility intentions? The role of gender, duration of stay and parity – Alderotti, Trappolini
4. Family trajectories among immigrants and their descendants in four European countries – Kulu, Mikolai, Delaporte, Liu, Campbell, Andersson

Food insecurity: Social & environmental determinants of food & nutrition security Chair: Dr. Thomas Argaw (Lancaster University)

1. Perception, environmental determinants, and health complications of obesity in India: a mixed methods approach – Barua
2. Role of low birth weight in determining poor nutritional outcomes among young children in Sri Lanka: evidence from DHS data – Abeywickrama
3. Using access to examine urban advantage in food and nutritional security in Brazilian Amazonia – Parry, Torres
4. Do higher temperatures increase food insecurity? An observational analysis across Indian states, 2014-2017 – Kroeger, Reeves

Families & households: Family composition & individual outcomes Chair: Dr. Jenny Chanfreau (University College London)

1. Only children and cognitive development in childhood: a cross-cohort analysis over 50 years in the U.K. – Goisis, Chanfreau, Ploubidis
2. Subjective wellbeing of adults with and without siblings in Belarus, Kazakhstan and Moldova – Warmenhoven
3. Patterns of subjective well-being (dis-)advantages in Belarus: the intersectionality of partnership, parenthood, gender, and migration – Deimantas
4. Family demography and intergenerational mobility in Latin America and the Caribbean – Liu, Castro, Batyra

Ageing: Understanding wellbeing & social care preferences across the life course (75-minute session) Chair: Professor Athina Vlachantoni (University of Southampton)

1. Is age 70 the new age 65? A prospective measure of ageing – Coombs, Storey, Giddings
2. Is happiness really u-shaped in age everywhere? A methodological reconsideration for Europe – Bartram
3. Attitudes and preferences towards future old-age support amongst tomorrow's elders in China – Qin, Falkingham, Evandrou, Vlachantoni
4. Factors associated with loneliness among Europeans aged 50 or higher – Verropoulou, Serafetinidou
5. Racial disparities in aging in the USA: A prospective approach - Scherbov, Gietel-Basten

Covid-19: Impacts of ethnic, socio-economic & spatial factors Chair: Frank Heins (Italian National Research Council/Institute for Research on Population and Social Policies IRPPS)

1. Improving local ethnic population estimates for England to monitor infections, deaths and vaccinations before and during the Covid-19 pandemic – Rees, Norman
2. The contribution of socio-demographic variables to COVID-19 cases and deaths in Indonesia: A spatial modelling approach – Tantriana, Wilda Artati
3. Spatiotemporal pattern of COVID-19 mortality and its relationship with socioeconomic and environmental factors in England – Feng
4. Understanding changing spatial mobility during the Covid crisis: Mapping daily activities in Stockholm in 2019, 2020 and 2021 - Shuttleworth, Türk, Toger, Östh

1.00pm – 2.00pm As there are two simultaneous pre-recorded poster sessions, both will also run in this break, to allow attendees the opportunity to watch both sets of presentations

Lunch break

2.00pm – 3.00pm

Historical demography: Fertility Chair: Dr. Alice Reid (University of Cambridge)

1. Female migrants, motherhood, and labour force participation in Great Britain, 1881–1911, a comparative study – Jaadla, Schürer, Reid, Garrett
2. The causal effect of education on female age at marriage and marital fertility: Evidence from compulsory schooling reforms in England – Cummins
3. Socioeconomic and cultural determinants of German families in Southern Transdanubia (Hungary), 19th Century – Koloh
4. Spinners, weavers and leaders in the first demographic transition: female textile workers and small family sizes 1851-1901 – Garrett, Reid, Jaadla, Williamson

Reproductive health & infertility Chair: Dr. Heini Väisänen (INED/University of Southampton)

1. Menarche: a global health indicator? – Leone, Brown
2. Reproductive experiences and loneliness: The role of the mode of conception, gender, and childbearing status – Köksal, Goisis
3. Cross-national differences in the use of contraception and abortion services between England, Wales and Scotland – Kuang, Berrington
4. Self-declared infertility and the desire for children among women in reproductive age on the last Brazilian Demographic Health Survey – Garcia, Koyama

Families & households: Family adversity Chair: Dr. Nitzan Peri-Rotem (University of Exeter)

1. Born into care – The effects of area-level deprivation on incidence rates of children entering care proceedings in Wales – Doeblér, Broadhurst, Alrouh, Cusworth, Ford
2. Beyond the prison wall: The lived experience of motherhood post incarceration in Ethiopia – Gobena
3. The long echo of war. Early-life exposure to armed conflict and intimate partner violence – Torrisi
4. Complex family boundaries and abuse experienced during childhood: insights from a survey in the French Caribbean and Reunion Island - Condon, Dauphin, Dupuis, Hamelin

Ethnicity & health Chair: Dr. Stephen Jivraj (University College London)

1. Births, stillbirths, and infant mortality by ethnicity - Maddox, Stevens, Quayle, Corps
2. Ethnic differences in health behaviours and subjective expectations of UK graduates during Covid-19 – Holford, Luthra, Delavande
3. Migrant mortality differences during the first COVID-19 wave in Belgium. Can demographic & socioeconomic indicators explain differential mortality? – Vanthomme, Gadeyne et al
4. Unpacking the complexity of migrated older adults' lives in the UK through an intersectional lens: A qualitative systematic review – Ma, Joshi

Data science: New sources of data for demography Chair: Dr. Jason Hilton (University of Southampton)

1. Digital traces of sexualities: Patterns of social media disclosure and the salience of sexual identity – Gilroy, Kashyap
2. From the stork to fertility apps – Rampazzo, Raybould, Rampazzo, Barker
3. Now-casting Romanian migration into the United Kingdom by using Google search engine data – Avramescu, Wiśniowski
4. Creating a geodemographic classification for older people in England – Yang, Darlington-Pollock, Dolega

Break 3.00pm – 3.15pm

3,15pm – 3.45pm

Early-career plenary. Dr. Heini Väisänen (INED & the University of Southampton)

When a pregnancy does not end in a live birth: quantifying the untold stories of sexual and reproductive health

Chair: Dr. Tiziana Leone (London School of Economics)

Break 3.45pm – 4.00pm

4.00pm – 5.00pm

Qualitative demographic research: Challenging paradigms (75-minute session) Chair: Dr. Rishita Nandagiri (London School of Economics)

1. India's sex ratio patterning and gender geography: the curious position of Chhattisgarh – Chanchani
2. Using of stories and vignettes to elicit participation and nuanced views in focus group discussions for demographic research – Senderowicz
3. Relational reproduction: interrogating the centring of qualitative epistemologies in a survey on sexual and reproductive health – Strong
4. Qualitative approaches to illuminating hidden fertility behaviours: Evidence from interviews on self-managed abortion in the US – Johnson, Broussard, Tello Pérez, Ze-Noah
5. Rebuilding life in Timor-Leste: resisting numbers through narratives of population – Burke

Health & mortality: Social inequalities & mortality Chair: Liam Wright (University College London)

1. Social disadvantage, economic inequality, and life expectancy in nine Indian states – Vyas, Hathi, Gupta
2. Migrant advantage, descendant disadvantage? Contrasting all-cause & cause-specific mortality among migrants & the native- & foreign-born descendants of migrants in Sweden, 1990-2017 – Wallace
3. Mortality attributable to housing deprivation in Belgium between 1991 and 2015 – Otavova, Devleeschauwer, Masquelier, Faes
4. Age, sex, period, place, & socio-economic differentials in co-morbidity at time of death in England & Wales: What can be learned from multiple cause of death data? – Grundy, Stuchbury

Migration: Family & employment of migrants & their descendants Chair: Dr. Ben Wilson (Stockholm University)

1. Parents' informal childcare preferences: a comparative study of migrants in Italy and France - Trappolini, Barbiano di Belgiojoso, Rimoldi, Terzera
2. The impact of childbearing & partnership changes on the employment outcomes of immigrants & their descendants in France: A multistate approach – Delaporte & Kulu
3. Employment and family trajectories of immigrants in the UK: An application of multi-channel sequence analysis – Mikolaj, Kulu
4. Work and family pathways of immigrant women in Germany – Liu, Kulu

Telling the story in statistics Chair: Dr. Esther Roughsedge (National Records of Scotland)

1. Coronavirus (COVID-19) and the different effects on men and women in the UK, March 2020 to February 2021 – Brain, Payne
2. Population profiles for local authorities in England - Mason, Boscaini-Gilroy, Zumpe, Shenhuy, Pryde, Humby & Lau
3. Explorador Social: A partnership in actionable data - Pilar Zueras, Parsons, Esteve
4. Designing a dashboard to understand Scotland's demographic challenges – Adams

Climate change, the environment & demographic issues Chair: Dr. Dermot Grenham

1. Seasonal patterns in newborns' health – Doyle
2. Adapting to the heat? Extreme temperature and birth outcomes over time in Spain, 1985-2016 - Conte Keivabu
3. The multidimensional impacts of mining on poverty alleviation in central Indonesia – Lo, Morgans, Davies, Santika, Voigt, Mumbunan, Struebig

Determinants of fertility Chair: Dr. Alice Goisis (University College London)

1. Home alone: Exploring childcare options to move beyond the single child problem in Belarus – Ishchanova
2. The effect of parental leave policies on increasing fertility: A systematic review – Thomas, Rowe, Williamson, Lin
3. Moving home or having a baby: what comes first? Understanding the realisation of jointly held childbearing and mobility intentions in UK - Christison, Kulu, Fiori, Keenan
4. ICT and fertility: Does home-based work influence fertility decisions in the UK? - Osiewalska, Matysiak, Kurowska

5.30pm – 7.00pm Poster session – there will be two simultaneous sessions of pre-recorded poster presentations lasting one hour each, which will also run in the Tuesday lunch break. To be followed by 30 minutes on Wonder me for networking with presenters

7.00pm BSPS AGM – BSPS members only please

Wednesday 15 September

9.00am - 10.00am

Migration: Internal migration, space & place Chair: Dr. Michael J. Thomas (Statistics Norway)

1. Examining new spatial and social mobilities to understand the shaping of geographical inequalities across the UK - So, Finney, McCollum, Kulu
2. Spatiotemporal relation between childhood internal mobility and exposure to neighbourhood distress – Kuyvenhoven, Haandrikman, de Valk
3. Migration: Survival or livelihood diversification strategy for poor households? Evidence from rural India – Nupur, Dutta
4. Ethnic differences in life course mobility and its impact on neighbourhood change in large housing estates in Tallinn, Estonia - Kalm, Špačková, Kährik, Leetmaa

Fertility: Low fertility trends & projections Chair: Dr. Alina Pelikh (University College London)

1. Recent trends in total fertility and measure of fertility replacement level which is adjusted for net immigration for 12 European countries – Parr
2. Recent trends in UK fertility and scenarios for impact of COVID-19 – Berrington, Ellison, Kuang, Vasireddy, Kulu
3. Two decades of fertility fluctuation in Great Britain - Kulu, Kuang, Berrington

Families & households: Work & family Chair: Dr. Vytenis Juozas Deimantas (Bocconi University)

1. For better or worse: Economic strain and relationship quality during the Covid-19 pandemic - Perelli-Harris, Chao, Berrington
2. Does gender matter? Feminisation of labour market outsiders and the impact of childcare – Seo
3. Changes in employment patterns and income inequality – A comparative perspective - Herzberg-Druker

Ageing: Effects of chronic conditions, comorbidities & multi-morbidity on elderly persons Chair: Dr. Kamila Kolpashnikova (University of Oxford)

1. Identifying the non-communicable disease multimorbidity patterns and associated factors among older adults: Evidence from Longitudinal Ageing Study in India, 2020 – Puri, Singh
2. The association between exposure to air pollution and multimorbidity among middle-aged and older adults in China – Hu
3. Understanding sociodemographic inequalities in rapidly developing multimorbidity trajectories in Scotland: An application of sequence analysis – Cezard, Sullivan, Keenan
4. Age-period-cohort effects in multimorbidity: Evidence from the English Longitudinal Study of Ageing data – Kolpashnikova, Zella

Data science: New methods & data for mortality analysis Chair: Dr. Erengul Dodd (University of Southampton)

1. Covid Infection Survey: producing official estimates using multi-level regression modelling – Gethings, Randall
2. Forecasting intensive care unit demand during the COVID-19 pandemic: A spatial age-structured microsimulation model – Kluesener, Schneider, Rosenbaum-Feldbruegge et al
3. Bayesian reconstruction of multi-state mortality – Tamburini, Yildiz
4. Leveraging deep neural networks to estimate age-specific mortality from life expectancy at birth – Nigri, Levantesi, Aburto

Developments in official population statistics: Session 3 Chair: Dr. Esther Roughsedge (National Records of Scotland)

This session will be on Teams

1. The impact of the Coronavirus (COVID-19) pandemic on population estimates for England and Wales – Park
2. 2023 recommendation: transforming our population and social statistics – Bartleet & Staples
3. Bringing together and making best use of admin data: the potential for population characteristic estimates - Pendleton, Reynolds, Herson
4. Regulating official population statistics to serve the public good - Tuohy-Smith and McGhee

Break 10.00am – 10.30am

10-30am – 11.30am

Historical demography: Mortality & illegitimacy Chair: Dr. Hanna Jaadla (University of Cambridge)

1. Fatal places? A re-analysis of child mortality from the 1911 census of England and Wales – Reid, Garrett, Jaadla
2. The effect of nutritional status on historical infectious disease morbidity: Evidence from the London Foundling Hospital, 1892-1915 – Schneider
3. Maternal mortality in eighteenth century London – Davenport
4. Illegitimacy in Lithuania – Vilnius and Samogitia dioceses during XVIII century: Reconstruction of regional trends – Jonaitytė

Health & mortality: Place and health Chair: Dr. Stephen Jivraj (University College London)

1. Association between neighbourhood health behaviours and body-mass index in northern Norway: Evidence from the Tromsø Study – Sari, Moilanen, Bamba, Grimsgaard Njølstad
2. Measuring the health of people in places: a scoping review of OECD member countries – Murray, Shelton, Norman, Head
3. The effect of air pollution on health in the UK by ethnic groups: A multi-level analysis – Abed Al Ahad, Sullivan, Demšar, Kulu
4. Understanding the influence of rural and urban environments on arsenic consumption in Bangladesh drinking water – Adela Kun, Santini, Roll

Fertility: Spatial variation in fertility Chair: Dr. Giammarco Alderotti (University of Florence)

1. The rural-urban difference in effects of second-child policy in China – Hu, Zhang
2. A Spatial Durbin Panel approach to understanding fertility in the UK 2013-2019 – Dorey, Kulu
3. Differentials and trends in fertility across the Swiss cantons 2000-2019 – Burkimsher
4. Individual and aggregate conditions of first births in Finland, 2012-2018 – Campisi, Kulu, Mikolai, Klüsener, Myrskylä

Families & households: Family trajectories & long-term perspectives Chair: Julia Leesch (Trinity College, Dublin)

1. Gender inequalities in well-being and mental health across parenthood transitions: Longitudinal evidence from the United-Kingdom – Metzger, Gracia
2. Long-term consequences of taking paternity leave in the UK Millennium Cohort Study – McMunn, Xue, Kelly, O'Brien
3. Partnership trajectories into Medically Assisted Reproduction – Pelikh, Goisis, Remes, Metsä-Simola
4. Are there typical trajectories in paid and unpaid labour for women at first birth? Evidence from Australia – Raybould, Sear

Ethnicity: Complexities of white ethnic identities Chair: Ivelina Hristova (London School of Economics)

As two original presentations in this sessions were late withdrawals, there will be a longer discussion period.

1. Racism or nationalism? The discriminatory consequences of labelling – Siebers
2. Experiences of discrimination: EU migrants in the UK, Germany, Spain and Italy – Demireva

Developments in official population statistics: Session 4: Working towards integrated population and migration estimates Chair: Dr. Paul Williamson (University of Liverpool)

This session will be on Teams

1. Creation of Administrative Based Population Estimates for Scotland - Bennison, Rowley
2. Update on population and migration statistics transformation - McNally and Aitchison
3. Estimating international migration during the COVID-19 pandemic - Rogers, Blackwell, Elliott, Large, Ridden and Wu
4. Fractional Counting for administrative based population statistics – Plummer

Break 11.30am – Midday

Midday – 1.00pm

Regional, subnational & local demography: Chair: Ben Corr (Greater London Authority)

1. Investigating the use of Machine Learning methods to nowcast and forecast small area populations – Grossman, Bandara, Wilson
2. Projecting population during the COVID-19 pandemic – Tonkiss
3. Mapping loneliness during the coronavirus pandemic - Payne, Hill, Hayes, Coates, Hassell, Aston
4. (Un-) healthy aging in local areas: England and Wales 1991 to 2011 – Norman

Families & households: Paid & unpaid work Chair: Dr. Kathrin Morosow (University of Bath)

1. South Korean fathers' uptake of parental leave and contribution to housework and childcare: Selection versus causation - Lee
2. How unpaid work has changed in stay-at-home father – working mother families – Drjenovszky, Sztáray Kézdy
3. Gender gap in housework time: How much do individual resources actually matter? – Kolpashnikova, Kan
4. Division of childcare in Polish households and beyond – Muter

Ethnicity: Discrimination, representation & identification for migrants & minorities Chair: Professor Nissa Finney (University of St. Andrews)

1. 'I don't think this is racist but...': discussing difference and negotiating minority identities in the transition to adulthood – Packwood
2. Local hostility effect on immigrants' wellbeing: Does ethnic composition in neighbourhoods and exposure to out-group matter? – Šedovič
3. Covering the pandemic: post-colonial representations of Brazilian indigenous people amid a public health crisis – Freitas, Carvalho Carreira
4. Using Twitter to track immigration sentiment during early stages of the COVID-19 pandemic – Rowe, Mahony, Graells-Garrido, Rango, Sievers

Data science: Bayesian methods in demography Chair: Professor Jakub Bijak (University of Southampton)

1. Extending the Integrated Model of European Migration - Aristotelous, Smith, Bijak
2. Modeling international migration flows by integrating administrative and household survey data – Del Fava, Wiśniowski, Zagheni
3. Bayesian Poisson Regression for reconstructing fertility rates - Durowaa-Boateng, Yildiz
4. Combining data sources to develop a Bayesian fertility projection model for England and Wales – Ellison, Berrington, Dodd, Forster

Framing abortion Chair: Joe Strong (London School of Economics)

1. Abortion as a workplace issue – MacNamara, Pierson, Bloomer, Mackle
2. Framing abortion as a public health issue in the International Human Rights Framework: Limiting progress? – Tongue
3. Ireland after the Eighth Amendment: Moral governance of abortion In an ethnography of time and place – Waltz

1.00pm – 2.00-pm

Lunch break

2.00pm – 3.00pm –

Plenary 2 - COVID-Related Research: Priorities and Possibilities. This panel brings together scholars who are currently carrying out research on COVID-19. They will compare and contrast their recent work – the topic, research questions, and approaches- and discuss which aspects of the pandemic and its effects on human populations deserve more attention and why. With **Dr. Jennifer Dowd** (Deputy Director LCDS and Associate Professor of Demography and Population Health, University of Oxford), **Dr. Nikkil Sudharsanan** (Heidelberg Institute of Global Health, University of Heidelberg), **Professor Bina Agarwal** (University of Manchester)

Chair: Professor Wendy Sigle

Break 3.00pm – 3.15pm

3.15pm – 4.15pm

Migration: Health & wellbeing of immigrants Chair: Professor Hill Kulu (University of St. Andrews)

1. Subjective well-being and the quality of the neighbourhood. A comparison between immigrants and natives in Europe – Paparusso, Ambrosetti
2. Addressing the impact of border enforcement measures on the self-reported health of migrants aiming to enter Japan during the COVID-19 epidemic – Wels
3. Is a healthy immigrant a wealthy immigrant? Reproductive health among migrant women in Finland 2000-17 – Väisänen, Remes, Martikainen
4. Transnational healthcare as process: Multiplicity and directionality in the engagements with healthcare among Polish migrants in the UK – Troccoli, Moreh, McGhee, Vlachantoni

Health & mortality: Global health & mortality Chair: Dr. Stephen Jivraj (University College London)

1. Quantifying impacts of the COVID-19 pandemic through life expectancy losses: a population-level study of 29 countries – Aburto, Schöley, Kashnitsky, Zhang, Rahal, Missov, Mills, Dowd, Kashyap
2. Assessment of the association between depression and all-cause mortality in the Chilean population - Luna, Peasey, Pikhart
3. Large and persistent life expectancy disparities among India's social groups – Gupta, Sudharsanan
4. Non-specific effects of the Bacillus Calmette–Guérin (BCG) and vaccinia vaccines on long-term survival in Sweden: a causal analysis – Theilmann, Geldsetzer, Bärnighausen, Sudharsanan

Food insecurity: Socioeconomic & policy determinants of food & nutrition security Chair: Dr. Luke Parry (Lancaster University)

1. Sociodemographic gradients in food insecurity in India - Lemma Argaw, Fledderjohann, Aurino, Vellakkal
2. A systematic review of the impact of UK austerity policies on food insecurity and foodbank use – Jenkins, Aliabadi, Vamos, Taylor-Robinson, Wickham, Millett, Laverty
3. Wage setting policies reduce food insecurity but not among the unemployed: A multi-level analysis of 492,078 people in 139 countries - Reeves, Loopstra, Tarasuk
4. Global food insecurity: a collateral damage of the pandemic – Pescatori, Bogmans, Prifti

Kinship approaches in demography Chair: Dr. Diego Alburez-Gutiérrez (Max Planck Institute for Demographic Research)

1. Estimating mortality based on maternal orphanhood in populations with HIV: a simulation study – Masquelier
2. Demography, grandmothers and childcare: understanding cooperative childrearing in Agta foragers from the Philippines – Page, Hassan, Emmott, Chaundary, Dyble, Smith, Viguier, Migliano
3. The presence and role of kin in maternal social networks in the UK – evidence from the COVID-19 pandemic – Myers, Emmott
4. The Swedish kinship universe: A demographic account of the number of children, parents, siblings, grandchildren, grandparents, aunts/uncles, nieces/nephews and cousins using national population registers – Kolk, Andersson, Petterson, Drefahl

Ageing: The effect of caregiving across the life course Chair: Professor Athina Vlachantoni (University of Southampton)

1. Is caregiving bad for health? Trajectories of health and well-being among UK caregivers for parents or parents in law taking account of initial health status – Zueras, Grundy
2. Stuck in the middle? The effect of caring for one's parents on grandchild care provision – Floridi, Carrino, di Gessa
3. Grandchild caring and late-life depression: A comparative longitudinal study in China and Europe – Yang
4. The association between caregiving duration and later loneliness in the English Longitudinal Study of Ageing – Davison

Break 4.15pm – 4.30pm

4.30pm – 5.30pm

Health & mortality: Cross-country comparisons in health Chair: Eliazar Luna (University College London)

1. Slowdown in mortality improvement in the past decade: A US/UK comparison – Murphy
2. Trends in disability among middle-aged and older adults in the United States and England from 2002 to 2016 - Choi, Schoeni, Steptoe, Cho, Langa
3. Collective bargaining institutions and health inequalities: Are there insiders & outsiders? – Sochas, Reeves
4. Dynamics of life expectancy change during the transition from communism in the Balkan Region – Spasenoska

Covid-19: Basic genetics & impact on mortality (75-minute session) Chair: Professor Philip Rees (University of Leeds)

1. The Covid-19 pandemic: A geneticist's perspective – Campbell, Rees
2. Comparisons of all-cause mortality between European countries and regions: 2020 – Morgan, Campbell, Ward
3. Excess mortality in the Italian Local Labour Market Areas during the first waves of the COVID-19 pandemic - Bonifazi, De Rocchi, Heins, Panzeri
4. A Bayesian multi-level model to assess the COVID-19 impact on mortality at a sub-national scale: the case of Belgian districts – Schlüter, Masquelier
5. The impact of the COVID-19 pandemic on mortality in Scotland – Burns, Pilkington

Families & households: Family transitions & child outcomes Chair: Dr Katherine Keenan (University of St Andrews)

1. Residential mobility and child outcomes: investigating the role of family social background – Fiori
2. Is parental separation by age ten associated with offspring hypertension at midlife, and what are the potential mediating pathways in childhood? Findings from the 1970 British Birth Cohort Study (BCS70) – Stannard, Berrington, Alwan
3. #StateOfMind: The relationship between time spent on social networking sites, family measures and self-esteem among young people in the U.K. - Jagtiani, Shelton, Kelly, Scholes
4. Family complexity and young children's health outcomes in the UK: A longitudinal study - Kyclova, Mikolai, Finney, Keenan

Data quality Chair: Dr. Andrew Bryce (University of Sheffield)

1. Where do couple's reports of first marriage differ? An international evaluation of couple's reported first year of marriage – Olamijuwon
2. Working with local authority data on looked after children: Learning about data quality through data linkage – Macintyre
3. Data collection changes due to the pandemic and their impact on estimating personal well-being – Coates, Aston
4. Assessing mortality registration in Kerala: The MARANAM Study – Gupta, Mani

Theoretical contributions on abortion: Complicating concepts, nuancing measurements Chair: Joe Strong (London School of Economics)

1. Whose bodies are they? Conceptualizing reproductive violence against adolescents in Ethiopia, Malawi and Zambia – Chiweshe, Fetters, Coast
2. When sexual desire interrupts the desire to avoid pregnancy: Young women's sexual behaviour and contraceptive use – Eilers
3. Improving women's abortion reporting: An exploratory, mixed-methods study - Lindberg, Mueller, Kirstein, VandeVusse
4. Abortion as ReProduction – Nandagiri
