TEACHING AND LEARNING IN 2022

- We will deliver lectures, classes, seminars, workshops and all related teaching and learning activities in-person on-campus. This is the default position for all teaching and learning.
- Lectures will be recorded at the point of delivery and made available for students to access outside of the usual teaching and learning timetable, unless academic staff opt out of this provision
- In exceptional circumstances, a small number of lectures will only be available pre-recorded and outside of the usual timetable. Where this is the case, academic staff will offer additional timetabled on-campus sessions to allow students to engage with topics and ask questions in person.
- In exceptional circumstances because of pedagogic reasons only, a small number of lectures and computer workshops will be delivered online as part of the usual teaching and learning timetable
- Additional teaching and learning materials will be available online via Moodle, our School's virtual learning platform. Resources and activities on Moodle will be accessible outside of the teaching timetable and will enhance rather than replace in-person learning.
- All students will have opportunities to interact with fellow peers and academic faculty outside of the classroom in LSE's many social spaces, halls of residence, cafés and Students' Union societies. The Library, support services and all campus buildings will be open for you to use and enjoy, with face-to-face community-building and networking activities taking place across the year.
- Should the health situation in London change, and in line with UK Government policy, LSE would strive to retain as much as possible of its student education provision on campus. In the case of more
